Address and Presentation.

Huntingdon Citizens Honor a Neighbor who is Leaving Them.

Mr. William Collins, ex-Keeve of Huntingdon, who will move to "the West" in a short time, was given a hearty "send-off" by his friends and neighbors a few days ago. A large number gathered at his residence, and during the spending of a pleasant evening, the following address was read, and presentation made to himself, wife, and brother—

CROOKSTON, FEB. 23, 1909

MR. WM. COLLINS AND FAMILY,—

Your friends, who have assembled here to-night, have learned with great and universal regret of your contemplated departure from the Township of Huntingdon, where you have occupied a position of prominence, both socially and politically, for a number of years. And we have gathered together to express to you how we have valued you as a friend and neighbor, how much we will miss you in the various walks of life, in which you have held a prominent place, and also to wish you greater prosperity in your new home than it would ever be possible for you to attain in your old home. But we must say that no matter how successful you may be in the Golden West, and no matter how warm the friendships you may form there, you will never meet with those who have your real welfare more sincerely at heart, or who have more real interest in your future prosperity and happiness than your friends who have come here to-night to bid you good speed in all your undertakings. We ask you to accept this desk, your wife this chair, and brother this chair, as a slight token of our affection and good wishes.

Signed

HENRY WALLACE,
W. H. ROLLINS,
ALEX. MCINTOSH,
AND WALLACE,
GEO. WALLACE,
SAM. TUMMON.

Mr. Collins replied in a happy strain, thanking all for their kind expressions and good-will, as well as for the valuable presents. Brief speeches were made by others, and a very pleasant evening was spent by all.

What the Girls Should Know.

At a social gathering some one proposed this question: What shall I teach my daughter? The following replies were handed in:

Teach her that 100 cents make \$1.
Teach her to arrange the parlor and the library.
Teach her to say "no," and mean it, or "yes," and stick to it.
Teach her how to wear a calico dress and wear it like a queen.
Teach her how to sew on buttons, darn stockings and mend gloves.
Teach her to dress for health and comfort as well as for appearance.
Teach her to cultivate flowers and to keep the kitchen garden.
Teach her to make her own the nearest room in the house.
Teach her to have nothing to do with intemperate or dissolute young men.
Teach her that tight lacing is unbecomingly as well as injurious to the health.
Teach her to regard morals and habits, and not money, in selecting her associates.

A Farmer's Big Loss.

Mr. Rod Vardy of Duncannon met with a serious loss on Sunday evening when his barn was destroyed by fire, together with five head of cattle, a number of fowls, and some vehicles.

Mr. Vardy was fixing up his stock for the night when something upset the lantern. The flames spread so rapidly that he had barely time to save his team and a set of harness. He carried an insurance of \$300.

HOCKEY!

Madoc Soundly Defeats Marmora in the Last Round.

First game in the semi-final round for the Trent Valley League Championship and Pearce Cup, on neutral ice at Stirling, Wednesday night, between Madoc and Marmora teams. Score:

MADOC 9. MARMORA 5.

Biff!
Bang!!
Sacre!!!

There was that old copy of the Marmora Herald of three weeks ago, with the column and a half of frothy laudation of the Marmora team, and abuse of the Madocs, whom they defeated for the first time? Here it is. What said Bombasticus as to the wonderful performance of his team on that night for the first time? Here it is. "What said Bombasticus as to the wonderful performance of his team on that night for the first time? Here it is. "What said Bombasticus as to the wonderful performance of his team on that night for the first time? Here it is."

"One sided score, could have made it 17 to 2." "Bang! and then, listen, a few more such exhibitions and the Wanderers or some of the other ice clubs will be borrowing our team."

Well, nobody will care to borrow the Marmora team now. They are down and out for the season; they couldn't "make good" after such a feast of wind-puffing that the Herald gave them. Peace to their ashes for this season.

Madoc and Stirling will now play a "sudden death" game for the championship of No. 2 District on neutral ice at Marmora on Friday night, and this will be a game of Hockey worth seeing, as these teams are undoubtedly the best in this District. And may "the best" win. Mr. Geo. Lynch, of Peterboro, will referee the game.

The winners will play Norwood for the final championship.

GUNNING—BATEMAN.—A pretty house-wedding occurred early last week at the home of Mr. and Mrs. William Bateman, of Hungerford, when their daughter Sarah was united in marriage by Rev. C. J. Young, of Madoc, to Mr. James Gunning, of Ivanhoe. The bride was elegantly attired in a dress of cream silk lustre, trimmed with lace and veil, and was supported by her sister, Miss Maggie Bateman, while the groom was attended by Mr. Winsor Dufosse, of Moira. A large company of relatives and invited guests assembled at the house, where after the marriage ceremony, a sumptuous supper was served and a pleasant social time passed. The Victoria brass band was in attendance and discoursed music suitable for the occasion, which seemed to re-echo the wish of all present that happiness and prosperity might attend the newly-wedded couple. They left for their home at Ivanhoe amid a shower of rice and good wishes.

BRINKLOW—REID.—On Wednesday, March 3rd, John Edward Brinklow, of Lanerick township, and Blanche Pearl Reid, daughter of Wesley Reid Esq., of the same township were joined in the bonds of holy matrimony by Rev. C. J. Young, at St. John's Church, Madoc. The bride was supported by her sister Miss Francis N. Reid, while Mr. Harry Brinklow assisted the groom. A number of relatives and friends were present at the ceremony and on its conclusion congratulations and good wishes for their happiness and success were freely bestowed on the young couple, who return to their home near Ormsby in a few days.

Bright Prospects for a Revival of This Industry in Madoc District.

Ontario's mineral output last year totalled in value \$25, 219,000.

A new shaft is being sunk at the Muncie property, near Queensboro.

Mr. F. Landenberger, manager of the Gilmour Mining Co., was in town this week and gave THE REVIEW a call.

Mr. George Lee, of Madoc, has a good looking prospect in Cobalt district near Haliburton. He is offering a share of it for sale.

We understand the C.P.R. is likely to be interested in some Madocmining property before long. Iron ore will always be a staple article in the world's markets.

In the official mining report, presented to the Ontario Legislature, it is pointed out that the Hastings County is the largest producer in Ontario of cement, pyrites, and talc.

A copper mine will be opened shortly in the northern part of Grimsby township, so Mr. Landenberger, the Gilmour Mining Co. manager, informs THE REVIEW. The prospects look good.

The Editor correspondent of the Bancroft Times says:—Mr. Sam Bulpit made a trip to Madoc on Saturday last as a result of communications from a mining company of that place to secure his services as foreman at a mine near Queensboro. We wish him success.

A strong company, of which Mr. M. J. O'Brien, the Renfrew millionaire, is a member, has a quarry of men at work opening up a sodalite quarry in the township of Duncannon. About three miles from Bancroft. They have already stripped about an acre, and shipping will commence in the spring if the stone is found to be of the right quality. Mr. W. Winning, of Ottawa, who superintended the opening up of the Princess quarry, is in charge.—Times.

Penny Banks Succeed.

Will be Established in Schools Throughout the Province.

The management of the Toronto Public School Penny Bank has decided to urge Public School Boards throughout the province to open similar banks in their different towns and villages. The success which has attended the establishment of the system in that city is estimated to warrant the spread of the institution in all Canadian towns. In Toronto there are 33 Public schools, and these have deposits on hand at present amounting to the sum of \$89,059.78—money which Mr. H. D. Lockhart Gordon, the manager, points out, would otherwise be squandered by the children. Branches have already been opened in Oakville, where deposits amount to \$209.03; Port Hope, \$985.21; Orangeville, \$183.54; Galt, \$3,088.01; Gravel, \$1,749.01; and Bowmanville, \$170.82. The bank is carried on under Dominion laws.

The expense so far has been met by a number of Toronto wealthy citizens, but when the deposits reach the quarter-million mark the business of husbanding the children's pennies will be their own, and will require no benevolent citizens to foster the good work.

"It is scarcely necessary to remark the excellent habits of frugality and their engendered in the budding minds by this scheme," said Mr. Gordon. "Furthermore, there is a real reward accruing constantly to the youthful depositors in the little nest-eggs for later financial savings."

5,000 Facts About Canada.

The public will welcome the 1909 revised Edition of this valuable booklet, which has been happily described as a tabloid encyclopedia of Canada. It is unique and clever in its arrangement as worked out by its compiler, Mr. Frank Yeigh, of Toronto, the well-known writer and lecturer. 30,000 copies have already been sold. The resources, wealth and business of the country are given in concrete form—a fact in a sentence. Mr. Hamar Greenwood, M.P. for York, says: "It is an eye-opener to even a keen Canadian like myself." A copy may be had for 25 cents from the Canadian Facts Publishing Co., 697 Spadina Ave., Toronto.

Twenty-eight women, of prominent families, were given terms in prison for rioting in Westminster.

Wireless messages were successfully received on a train between Buffalo and Chicago while the train was running at sixty-three miles an hour.

Unequaled as a Cure for Croup.

"Besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequaled as a cure for croup," says Harry Wilson, of Weymouth, who writes: "When given as soon as the croupy cough appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For sale by all druggists."

It is reported that \$10,000 was offered, on option, for a Madoc mining property lately, but was refused. If THE REVIEW owned the property the offer would be accepted.

The Gilmour Mining Co. are operating a gold proposition in the northern part of Grimsby township, about six miles from Grimsby. The property is about 100 feet, and drifting is now in progress about 125 feet in each direction. This company has been working over a year.

Mr. J. Murray, B. A., B. Sc., editor of the Canadian Mining Journal, of Toronto, was the guest of Mr. G. H. Gillespie at the St. Lawrence Hall for a few days last week. Mr. Murray has proved a good friend of the Madoc mining district, and has great confidence in the mineral resources of this part of the country.

COPPER MINING.

Coupled with the fact that an engineer was sent over to inspect the Eldorado copper mine a few weeks ago and that his report was very favorable, the following dispatch from New York regarding the copper outlook, will be interesting:—

New York, March 1.—Reports of heavy sales of copper for both home and foreign consumption, and for both immediate and future delivery, stimulated the market to-day. Contracts for 50,000,000 pounds according to one report, have been closed in the past few days. Another authority estimates the amount at 30,000,000 pounds, and though in conservative quarters it was thought that each was an exaggeration, it was realized that the sales were at a low price, the mere fact that substantial sales had been made was considered encouraging. The transactions might mark the turning point in the long reaction in the copper trade, it was thought, and thus have an importance above and apart from any question of immediate profit to the producing companies.

Municipal Reforms Needed.

Reform has touched and benefitted every public institution in this country except the holding of municipal elections and the methods and time for the collection of taxes. We hold

that municipal elections during the holiday season, spreading personal bitterness where "peace and good-will" should prevail, the same as our forefathers did when the Province was half foreign. We collect taxes at the end of the year, forcing many small householders to scrimp their small Christmas offerings and delicacies to the families, and we wear our clothing and howling are necessities, to gather together the tax money. And all because in the early days there was little money abroad in the country to pay taxes with except at this season, when the sleighing facilitated the selling of grain, wood and timber. Now everybody, including the farmer, has more money in mid-summer than in December. Produce finds ready sale all the year around and employment is more plentiful in summer than winter; yet we are half foreign. PLAYING HAVOC WITH
PATENT MEDICINES

An Old-fashioned, Home-Made Mixture which Cures Kidney and Liver Troubles.

A prominent local druggist states that since the celebrated prescription of a distinguished specialist has become more or less known it is interfering with the sale of secret medicines, especially the patent or advertised kidney pills. The prescription, which first appeared in a leading health journal, is reproduced here, just exactly as originally written—

Fluid Extract Cascara..... 1/2 oz.
Carrion Compound..... 1/2 oz.
Syrup Sarsaparilla..... 6 oz.
Directions: One teaspoonful after each meal and at bedtime.

An good druggist can dispense this, or, even better, a person can buy the items separately and mix them at home by shaking them well together in a bottle. It is stated that the ingredients being vegetable, are as simple and natural action, and gradually tones up the eliminative tissues, saving the kidneys in a perfectly healthy condition.

A merchant well known in public affairs states that this recipe cured his rheumatism. Save the prescription.

Lady Cook, a prominent English suffragist, now in New York, declares that the battle for votes for women is won in England.

Have you a pain—of any kind, anywhere? Stop thinking of it. It matters not whether it is womanly pains, head pains or any kind of a pain. One of Dr. Shoop's little Pink Pain Tablets will surely stop it in 20 minutes. Formula plainly printed on the 25c box. Sold by all dealers.

A deputation of the Dominion Grange waited on the Government at Ottawa to ask for some remedy for the various trusts in Canada.

Do You Feel Used Up.
You're discouraged and played out—scarcely enough energy to think, and less to work on. The reason? You are run down, blood is thin, nerves are like Indian rubber, not like steel as they ought to be. Use Ferrozone and the tired feeling will go—it can't stay, because rich nutritious blood and the bodily vigor Ferrozone makes, crowds out weakness of every kind. Use Ferrozone and you'll feel like a fighting champion—full of energy—filled up with ambition—ever ready to work. No strengthening tonic so potent. Neglect not a day longer. All dealers sell Ferrozone in 50c boxes.

An Austrian youth committed suicide in New York because he could not live on \$75 a month in addition to his salary as a drug clerk.

Prof. H. A. Howell, of Havana, Cuba, Recommends Chamberlain's Cough Remedy.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3rd our baby was taken sick with a very severe cold, the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was so bad that I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by all druggists.

ONTARIO POLICE FORCE

Whitney Government Is Planning Comprehensive System.

New Force For Province Is Reported to Be In Progress of Organization Which Will Overcome Present Difficulties in Dealing With Crime—Men Will Be on Salary and Each Will Know Every Foot of District.

Toronto, March 2.—The "Ontario Provincial Police" will be assigned to insure law-observance and law-enforcement. Its mission will be to establish and maintain Ontario's good name, at home and abroad, by stamping out of disorderly houses and petty crime.

No official intimation as to the composition or character of the proposed organization has yet been forthcoming from the Government, but it has been learned that the project will probably be a comprehensive one, embracing a provisional draft of the proposed organization and equipment of a force of provincial police, now practically in readiness for Government supervision. Under this plan a systematized organization is contemplated. The official head of the force will be the Attorney-General, while immediately under him will be the chief executive officer, who will have supervision over the entire force. An association with the chief will probably be two divisional superintendents.

In co-operation with the head office will likely be a staff—probably three to five—inspectors of criminal investigation, or secret service men. The working force will, it is believed, be composed of sergeants and constables. A sergeant will be placed over each county or district. His headquarters will probably be at the county town in the organized parts of the province, but in the unorganized territory. He will be required to keep in constant touch with his men and their work, and with the divisional superintendents.

A strict code of rules will govern the constables. No one will be allowed to enter the force under the age of 21 or over that of 38 years. They may be required to qualify by test or examination, must know thoroughly the country in which they serve and have acquainted themselves with the duties of their office. The intention is, it is understood, to have the entire force paid by salary. The retention of fees or the acceptance of commissions will be absolutely prohibited.

Patrick Pleading His Own Case.

New York, March 2.—Lawyer Albert T. Patrick, serving a life sentence for the murder of William Marsh in the Central Prison, because he is a Sing Prison yesterday and appeared before the appellate division of the Supreme Court of Brooklyn on a writ of habeas corpus to argue his own case, contending that he either deserves execution or, if it is his commutation to life imprisonment was illegal. Adjournment was made till Friday.

A Usury Case.

Hamilton, March 2.—Sylvester Nelson was committed to the Police Court yesterday morning on the charge of lending and conspiring to lend money at a charging interest over the amount allowed by the Usury Act. George Ferguson, the complainant, said that Nelson bought his furniture, advancing \$50, which Ferguson agreed to pay back in three installments of \$25. A creditor, who appeared for Ferguson, figured that the rate of interest was 112 per cent.

Insurance on Great Lakes.

New York, March 2.—A special London despatch to The World says: W. A. Prime, insurance broker of New York, is in London with a power of attorney representing shipping companies, the great lakes valued at upwards of ten million dollars, for the purpose of conferring with the big insurance agencies in London on the subject of rates on load lines.

Councillor Protested.

Wingham, March 2.—The mayor and corporation of the town of Wingham have been served with legal notice by a ratepayer of the town calling in question the qualification of one R. Vanorman, formerly town constable, and the members of the fire brigade of the town, who, it appears, was elected one of the councillors.

Winnipeggers Get Refund.

Winnipeg, March 2.—With the new high pressure system in operation the different fire insurance offices are engaged putting through refund endorsements, although the new rates were published two weeks ago. The refunds are reaching greater proportions than most of the agents anticipated.

Get a U. S. Guarantee.

Brantford, March 2.—The Street Railway Co. has secured a bonded guarantee for \$25,000, which will be put up to guarantee that the double-tracking and improvements outlined in the contract between the company and the city will be carried out this summer.

Under Police Control.

Hamilton, March 2.—The market's coming to a close after a peaceful day placing lodging-houses under police control. A license fee of \$10 a year will be charged and the keepers of the houses should be seen by the police when their guests arrive and when they leave.

Ice at Port Arthur.

Port Arthur, March 2.—A large area of ice famine in Port Arthur next summer are dispelled. Thunder Bay is frozen over and the crop now being taken is 16 inches thick, half the usual thickness.

TO AMEND LIBEL LAW.

Hon. Mr. Fox's Bill Introduced into Legislature.

Toronto, March 2.—Thirty-six third readings were on the order paper of the Legislature yesterday, seven second readings, and one question. The business done consisted of the routine presentation of petitions and the introduction of the libel bill, none of the regular orders being touched.

Hon. J. F. Fox introduced another of the statutory revision bills, the present one respecting the actions for libel and slander. The bill, though printed, he said, would not pass in that shape. The proposed changes he thought would be for the benefit of the newspapers and the advantage of the public. The time for issuing a writ, which was now three months from the time of the libel coming to the knowledge of the complainant, might be shortened. It was found in practice that the provisions for consolidating actions brought by one person against several papers did not accomplish the object intended. When exactly the same libel appeared in several papers one paragraph was taken in one paper, a second paragraph in another, and so on, and the judges held that this was not within the statute of consolidation. The statute was also sometimes evaded by issuing several writs and only serving one, going on with that and holding the others till the time for consolidation had gone past. W. H. Hearst introduced a bill to amend the Unorganized Territory Act. J. J. Preston (Durham) a bill to incorporate the Ontario Eastern Counties Electric Belt Line Railway Co.

Mr. Fox will introduce a bill to amend the Municipal Waterworks Act. Mr. Stock will move for a return showing: 1. The names of all the colleges, universities, high schools and continuation class schools in the province. 2. Which of these schools were classed "approved" in the academic year 1908-9, and July, 1908. 3. The change (if any) made in the classification of each school since July 1, 1908, to date. 4. The reasons for each such change in classification.

CASHIER MISSING.

Northern Crown's Man at Saskatoon Cannot Be Found.

Saskatoon, Sask., March 2.—Considerable astonishment was aroused locally when it was stated yesterday morning that Frank Lee, teller in the Northern Crown Bank here, is missing along with \$5,000 in cash.

Lee was a young fellow and well-liked and no one suspected anything wrong. About ten days ago he got leave to visit his mother in the east, who was reported to be dying, and left hurriedly. It is now rumored that along with Lee, a woman from the red light district went on the same train.

Inspector Tule of Winnipeg, and local Manager R. R. Morgan will say nothing other than they look to the bonding company to make good the shortage in his accounts. In addition to being teller, Lee was also acting accountant, and it would be an easy matter for him to "cook" the books to cover up any shortage. It is supposed Lee has gone south.

Roy Trial Changed.

Montreal, March 2.—Hon. P. H. Roy, former Speaker of the Quebec Legislature, and ex-president of La Banque St. Jean, who was to have been tried at the instance of the Court of King's Bench, which opened yesterday, has secured another change of venue.

He was originally to have been tried at St. Johns, but on the plea that feeling there was hostile, a change of venue to Montreal was secured. Now his lawyers claim that the feeling there has passed away, and he has been removed to St. Johns. He asked Judge Cross to send Mr. Roy back to St. Johns.

Not Enough Prohibitionists.

St. John, N.B., March 2.—Hon. J. H. Huxton, from the City of New Brunswick, yesterday addressed to J. Wilford Smith, head of the temperance federation, a letter answering their request for a provincial prohibitory law. Mr. Huxton points out that the petition presented by the temperance people does not contain names enough to show that there is a sufficiently strong sentiment to warrant the passage of a prohibitory law. He promises some amendments to the Provincial Act that will make it more workable, and more in line with the Ontario Act in the matter of shutting out licenses in any ward or district.

Must Give Up One.

Ottawa, March 2.—The Deputy Minister of Education has ruled that a school teacher cannot be a trustee. Public School Trustee Thompson of Ottawa has been appointed to Stittsville High School, and a ruling was asked on the point.

One Farmer on Jury.

Chicago, March 2.—Roy Cunningham of Belvidere, Ill., is the only farmer on the Standard Oil trial jury which was completed. The jury includes five grocers, a mechanic and a live stock dealer.

Liberal Elected.

London, March 2.—Falconer, Liberal, carried Forfarshire on the election by a large majority over Blackburn, Unionist. The vote was 1,422 to 579. It is a Liberal stronghold.

C.N.R. Employees Affiliate.

Winnipeg, March 2.—The mechanics of the C.N.R. employees have formed a federation, but have no intentions against the company as to increase of wage just now.

Ottawa Controllers Get \$1,000.

Ottawa, March 2.—At a meeting of the City Council last night a motion was adopted increasing the salaries of controllers from \$400 to \$1,000 per annum.

DO YOU EVER FIGURE THE COST of a single day's baking—the material, fuel, time and labour—and consider that it is all wasted if the baking is a failure?

Results are usually satisfactory or otherwise according to the flour you use. Is it economy, then, to use a flour of uncertain quality when a few cents more will buy

Royal Household Flour

a flour that you can depend upon to produce light, crisp and wholesome bread or pastry?

Royal Household flour does not vary in quality—does not disappoint. It is made from selected hard wheat, milled by a most modern process which guarantees absolute purity. And purity in flour is a matter of the very greatest importance.

Reasons Why

In adding a Special Order department to this business and meeting the certain demand for clothing-to-measure, we urge the following reasons why our system of custom tailoring is in advance of anything previously attempted:

FIRST—

We affiliate with the largest and finest tailoring organization in Canada, and send all orders to where they have every facility for doing things right.

SECOND—

This establishment controls the very best tailoring skill, the best designers and cutters naturally preferring regular employment at high wages to the uncertain income of a small town.

THIRD—

The range of fabrics is much larger and more exclusive than we could possibly afford in the ordinary way, and allows the best possible selection at no greater expense.

FOURTH—

Each particular garment is tailored by a specialist, insuring absolute perfection in fit and finish, and such concentration of effort as is only possible where they have experts for each line.

FIFTH—

We give an absolute guarantee with every Custom-Tailored Suit and Overcoat, and such measure of satisfaction as will bring you again, and encourage you to send us your friends.

Amazing Figures.

What it Costs "Amurricans" For Cigarettes.

New York, Feb. 29.—The proposed increase in the price of cigarettes, announced yesterday, will not be more than a cent or two per package. While this may sound like a small affair, it will actually mean millions of dollars per year to the cigarette smokers of the country.

According to unofficial Government figures 55,402,530,113 cigarettes were manufactured in the United States last year. In round numbers this means 5,500,000 packages, ten cigarettes to a package. An increase of one cent on a package for those consumed in this country, as well as those exported, would mean an additional tax of \$55,000,000 on the cigarette smokers.

Princely Salaries.

Who wouldn't be a government employee in some place. During a discussion in the House of Commons last week, on post-office affairs, it came out in the debate that the postmaster at Makeroff, Manitoba, has a grievance. This official meets the trains at 11 o'clock at night and at 4 o'clock in the morning and attends the distribution of the mails. He receives a salary of \$1 a year. This is paid quarterly by cheque, and on each cheque the local bank charges 25 cents exchange.

Mr. Lemieux, the Postmaster General, capped the story by telling of another postmaster who performed his duties for 50 cents a year.

LOCAL MATTERS.

—Lent! —Huntingdon auditors' report appears in this week's issue. —Church people will now be on their good behaviour, during the next few weeks. —Madoc Chapter, R. A. M., meets in Masonic Hall next Thursday evening.

—The smallpox scare is over, and all "suspects" in this neighborhood are free again.

—A flock of wild geese were seen flying near town this week. First sign of Spring.

—The weather people are now wondering whether March came in like a lion or a lamb.

—Let our citizens give a good attendance at the meeting next Tuesday evening to discuss "Old Boys' reunion."

—There will be quite an exodus to the west this Spring, several families making preparations to move out in a few weeks.

—Send us the news. Nearly every reader could contribute an interesting item to our columns if they would take the trouble.

MILINERY APPRENTICES WANTED.—Apply at once to B. O'HARA.

—The case of Nickle vs. Connor which was to have come on at the first sitting of the County Court, has been postponed owing to illness of the plaintiff.

—The Sacrament of the Lord's Supper will be dispensed in the Presbyterian Church next Sunday at 11 a.m. A pre-communion service will be held on Friday evening at 7.30.

W. C. T. U.

The next regular meeting of the W. C. T. U. will be held in the basement of Presbyterian Church on Wednesday, 10th, at 3 p.m. A full attendance is requested.

A Coming Treat.

On the evening of March the 23rd, Rev. R. Bamforth, B. A., will deliver an address in the lecture-room of the Methodist Church, subject, "Rambles in the Home-land." Refreshments will afterwards be served. Particulars later.

Orange Grand Lodges.

The meeting of the Grand Lodges of the Orange and Black Chapter will be held at Napawan commencing March 16th. The Grand Chapter meets on the 16th, and the Grand Orange Lodge on the 17th, at 2 o'clock p.m. respectively.

Public Meeting.

Reeve Harper announces in our advertising columns that a public meeting will be held in the Board of Trade rooms, on Tuesday evening, 9th inst., in response to a largely-signed petition of ratepayers, to discuss the advisability of holding an "Old Boys' Reunion" this coming summer. Remember the date and place, and let there be a good attendance.

Hastings Water Power.

Tweed News:—The instrumental survey now being made of the Moira Valley by the engineers of the Hydro-Electric Commission is making excellent progress, and in conversation with one of our leading business men the other day, the chief engineer of the Commission stated that the outlook is considerably better than they anticipated. The levels so far taken indicate a drop from 2 to 4 feet higher than was at first thought possible.

Deseronto Without a Paper.

The town of Deseronto cannot, or will not, support a local paper, and the Tribune last week announced that this issue would be its last. This is rather a hard blow on that "town." The Tribune was founded by S. Russell, ex-M.P., and now Registrar of the County, who sold to the present proprietor, Mr. W. J. McKimling about ten years ago. The latter will not run it at a loss, and so "closes down," but will continue the job department for the future.

Death at Marmora.

The Herald says:—After having been confined to her bed for about two weeks with typhoid fever, Mrs. Mary J. Bowen, who has been ailing for some time, passed to the great beyond early Tuesday morning. Deceased was born in Belleville on June 29th, 1845, her maiden name being Mary McLaren. Her husband, the late Wm. Bowen, predeceased her several years ago, and for the past twelve years she has resided with her daughter Mrs. G. B. Diecher. She was an earnest member of St. Paul's church and her services will be greatly missed by the congregation, as she was one of the church's most energetic workers.

This May be Good.

An exchange publishes the following: we can not vouch for it, but give it to REVIEW readers for what it is worth:—"Every little while we read in the papers that some one has run a trust in his body or other portion of his body and lockjaw resulted therefrom and the patient died. If every person was aware of a perfect remedy for such wounds and would apply it, then such reports would cease. The remedy is simple, always at hand, can be applied by anyone—what is better, it is infallible. It is simply to smoke the wound or any wound that is bruised or inflamed, with a piece of clean cloth. Twenty minutes in the smoke will take the pain out of the worst case of inflammation arising from such a wound. People say they are afraid to smoke as much as they please, but when they are afflicted with such wounds, let them try it."

A total eclipse of the moon will occur on June 23rd, partly visible here: a total eclipse of the sun June 17th, visible here as a partial eclipse at sunset; a total eclipse of the moon November 27th, visible here, and a partial eclipse of the sun December 12th, invisible here.

Penny Banks for School Children.

The establishment of Banks, lately authorized by the Government, where school children can deposit their pennies, and nickels if they have any, is becoming very popular, as well as beneficial, wherever tried, as will be seen by an article in another column. We know of some children in Madoc whose spendings in coppers and pennies and five-cent pieces would make a wonderful showing at the end of the year, if deposited in a savings bank instead of the candy shop and post office. We would suggest to the Madoc Public School Board the institution of the Penny Bank in this place.

Village Council.

The regular meeting of the Village Council was held on Monday evening, all the members being present.

A communication from the National Sanitarium Association, asking for aid, was, on motion of Cams. Weir and Hill, received and filed.

A number of accounts were ordered to be paid.

The Council was interviewed by Rev. Mr. Young on behalf of the Public Library Board.

Moved by Tufts seconded by Bristol, that the Library receive a grant of twenty-five dollars. Carried.

A deputation from the W. C. T. U., presented a memorial requesting that all by-laws, having in view the morality of the municipality, be enforced.

Mr. A. Beatty, Reeve of Huntingdon, interviewed the Council relative to opening that portion of boudry road between Madoc Village and Huntingdon Township.

Councillor Hill gave notice that he would introduce at the next regular meeting of the Council, a by-law for the purpose of opening up this portion of road.

Mr. White, tax collector, was present and reported some \$700 yet uncollected. At his urgent request, a few days' grace was accorded him on view to get in what he could before taking final action.

A by-law for the suppression of drunkenness and disorderly conduct was introduced and on motion of Hill and Weir received its first reading.

Council went into committee of whole on by-laws, Councillor Bristol in the chair.

The By-law then received its 2nd reading when the following insertions were made by motion:—

Moved by Hill seconded by Harper, that the fine shall not exceed \$50.00.

Carried.

Moved by Weir seconded by Tufts, that commitment to goal shall not exceed thirty days.

Council resumed.

On motion of Bristol and Tufts the by-law received its 3rd reading, was passed, signed, sealed and numbered.

Council adjourned to 1st Monday in April at 8 p.m.

THRONGS SEE FUNERAL

Burial of Ethel Kinrade Takes

Place in Hamilton.

Crying Out, "Ethel Lock Yourself in Your Room!" Sister of Murdered Girl Faints at Last Ceremony—Two Thousand Gather in Vicinity of Home and Crows Try to Peep in at Windows—Suspect Caught.

Hamilton, March 1.—The funeral of Miss Ethel Kinrade, who was murdered Thursday afternoon, was held from the family residence, 105 Herkimer street, yesterday afternoon, and attracted thousands in addition to the friends of the bereaved family. The streets in the vicinity were jammed by a crowd running up to over 5,000. Policemen were required to maintain order, and while there was no demonstration of any kind, the officers were not able to handle the crush. The house was besieged, and the front lawn and even the front verandah were crowded with the curious, who tried to peep in at the windows when they could not get admittance to the house. The whole of the procession was lined with throngs, and there was the same jam at the cemetery.

The scene when the mother and Miss Florence Kinrade were brought downstairs to the funeral ceremonies was very pathetic. The mother bore up well, but Miss Florence seemed to be in a semi-conscious condition. When she reached the foot of the stairs she screamed "Ethel," and when she entered the room where the body of her sister lay she called: "Ethel, lock yourself in your room," and swooned. She had to be carried back to her room and given medical attendance.

The officers sent out into the surrounding country by Detective Miller on Saturday have failed to report any such yet as to having come across any tramp who would fit in with the description Miss Florence Kinrade gave of the assassin.

Yesterday all kinds of rumors were flying around, but they all turned on investigation to be false.

The excitement over the affair appears to be growing. The newspaper and police officers are kept busy answering enquiries as to developments and in denying the sensational stories that appear to be in everybody's mouth.

While practically the whole of the police force is more or less engaged in hunting for the murderer, Detectives Bleakley and Coulter are devoting their whole time to the heartily operating with their old comrade, the provincial officer.

Suspect Arrested.

Port Huron, Mich., March 1.—In the arrest of Robert Norton, aged 35, supposedly a tramp, who claims a home in London, Ont., the local officers think they may have the man who is being looked for as the slayer of Ethel Kinrade in Hamilton.

The prisoner answers the description—5 feet 7 inches in height, dark skin, and wears a hat and drooping brown moustache—to the letter.

Norton was arrested here on Friday afternoon by Special Officer John Carmody. The man had been put off at northbound Pere Marquette train three times at the different stops in the city limits.

Cobalt Lake Mining Co.

Ottawa, March 1.—At the annual meeting on Saturday of the Cobalt Lake Mining Co., the directors were re-elected. The salary of D. B. Rochester, managing director, was reduced from \$2,000 per annum to a monthly engagement at \$200 a month.

The engineer's report was hopeful of striking the McKinnon-Daragh vein. Assets were valued at \$3,929,166, including \$1,070,834 stock in the treasury.

Won't Tell of Escape.

Vancouver, B.C., March 1.—Charles Clarke, the burglar sentenced to a three-year term two years ago, and who escaped with Bill Miner, has been recaptured near Bellingham, and will be extradited. Asked regarding anything but his escape, the truth about it would do no one any good," he says. Miner is now in Australia.

Hotel For Kingstons

Kingston, March 1.—Walter Telfer, proprietor of the British American Hotel, has made an offer to the City Council to put up a five-story building on the present site if the city will guarantee bonds to the extent of \$100,000. He offers the city a first mortgage on the property for a guarantee. He intends using Frontenac Hotel, he intends using as an annex.

Paardeberg Memorial.

Victoria, B.C., March 1.—In memory of the battle of Paardeberg, in which five Victorians were killed, a massed parade and drumhead service was held at the drill hall yesterday afternoon, attended by the naval and military forces, the militia and cadets of the city and Esquimaux. Bishop Porritt preached a memorial sermon.

Child Fatally Burned.

SHOTS AT DETECTIVE

Unknown Tramp Hiding in the Woods Near Welland.

Provincial Detective Clark of Niagara Falls Is Twice Fired on by Strange Man Whom He Was Pursuing in Connection With Kinrade Murder in Hamilton—Neighborhood Is Excited and Hunt Is in Progress.

Welland, March 1.—The Township of Pelham is deeply excited over the attempt made Saturday afternoon to shoot Provincial Detective Clark of Niagara Falls by a man who is supposed to be the murderer of Ethel Kinrade in Hamilton.

The officer had followed a fugitive into a bush, and when passing through a gully, two shots whizzed past him to the vantage point on the hillside. The neighborhood was at once alarmed and the woods surrounded, but with falling snow and in the darkness, were lost. He was seen at 9 o'clock three miles farther east, but that is the last trace of him.

County Constable Garner has ordered guards to be posted on all the canal bridges to prevent his escape to the frontier.

News of a strange man skulking in the Fenwick, Pelham Centre, and Ridgville district was brought to Welland by Mail Carrier Rice at noon Saturday.

Officer Clark had been deputed by Chief Mains to scour the county, and he at once took the car for Fonthill. Here he was joined by County Constable Jerome Bearer, and the two drove in the direction of Penwick. John Terberry informed the officers that he had seen the man cross the road and enter Ward's bush about an hour previous.

Clark started into the bush, leaving Bearer to hold the horse. He had been gone about twenty minutes when Bearer heard two shots fired, and summoned the workmen from Goodville's sawmill nearby. Clarke came running out and told the circumstances of the shooting. He was going through a gully when two shots came whizzing past him over the hillside.

The bush was at once surrounded, and Clark and two others went back to the spot. They found the tracks where the man had stood on the hillside and were able to trace them to the clearing of the fields, where, in the coming darkness and falling snow, they were lost.

Those who saw the man describe him as being medium height, wearing a heavy black moustache. He had a soft felt hat and black overcoat.

May Sue Toronto.

Ingersoll, March 1.—The civic authorities are discussing the advisability of entering action against the City of Toronto to recover expenses incurred by the town in the case of Jacob Hartley.

When Hartley made application to the mayor and council for assistance, he was ill and penniless. Efforts were made to place Hartley in the Woodstock Hospital, but he was denied admission because of the fact that he was not a resident of the county. The same thing applied to the application to have him placed in the House of Refuge. In view of these circumstances, the question arose: To what municipality did Hartley belong? The man himself claimed that he was a resident of Toronto, stating that he had resided there for three years, had voted, and was recognized as a citizen.

Falls From Ladder; Breaks Neck.

Niagara Falls, Ont., March 1.—While repairing the boiler of an engine in the engine house of the Michigan Central Railway at Montrose on Saturday night, James McGregor slipped from a ladder on which he was standing to the cement floor, breaking his neck and fracturing his skull. Workmen, hearing the thud and groans, ran to McGregor's assistance, but he died twenty minutes later. He was a native of Morrow, near St. Thomas, and was 25 years old.

Finds Son In Biograph.

Lafayette, Ind., March 1.—While attending a moving picture show where scenes from a Florida Ostich Farm were being presented, Mrs. Hannah Mondelahn, a negro, saw her son in the pictures. She had not heard from him for seven years.

She telegraphed him and received a reply saying that he was at the ostrich farm and was employed as its manager.

Father Shoots Captured Negro.

Birmingham, Ala., March 1.—While handcuffed and sitting in the sheriff's office at Bessemer, Jim Brown, a negro, was shot and instantly killed by James Robinson, who, father of the girl Brown was accused of molesting on Feb. 15.

Alfonso In Accident.

Madrid, March 1.—King Alfonso has had another narrow escape from serious injury. While riding in an automobile near Villa Manrique, the machine skidded and struck a tree. It rolled and toppling over into a deep ravine.

China's Consul-General.

SHOTS AT DETECTIVE

Unknown Tramp Hiding in the Woods Near Welland.

Provincial Detective Clark of Niagara Falls Is Twice Fired on by Strange Man Whom He Was Pursuing in Connection With Kinrade Murder in Hamilton—Neighborhood Is Excited and Hunt Is in Progress.

Welland, March 1.—The Township of Pelham is deeply excited over the attempt made Saturday afternoon to shoot Provincial Detective Clark of Niagara Falls by a man who is supposed to be the murderer of Ethel Kinrade in Hamilton.

The officer had followed a fugitive into a bush, and when passing through a gully, two shots whizzed past him to the vantage point on the hillside. The neighborhood was at once alarmed and the woods surrounded, but with falling snow and in the darkness, were lost. He was seen at 9 o'clock three miles farther east, but that is the last trace of him.

County Constable Garner has ordered guards to be posted on all the canal bridges to prevent his escape to the frontier.

News of a strange man skulking in the Fenwick, Pelham Centre, and Ridgville district was brought to Welland by Mail Carrier Rice at noon Saturday.

Officer Clark had been deputed by Chief Mains to scour the county, and he at once took the car for Fonthill. Here he was joined by County Constable Jerome Bearer, and the two drove in the direction of Penwick. John Terberry informed the officers that he had seen the man cross the road and enter Ward's bush about an hour previous.

Clark started into the bush, leaving Bearer to hold the horse. He had been gone about twenty minutes when Bearer heard two shots fired, and summoned the workmen from Goodville's sawmill nearby. Clarke came running out and told the circumstances of the shooting. He was going through a gully when two shots came whizzing past him over the hillside.

The bush was at once surrounded, and Clark and two others went back to the spot. They found the tracks where the man had stood on the hillside and were able to trace them to the clearing of the fields, where, in the coming darkness and falling snow, they were lost.

Those who saw the man describe him as being medium height, wearing a heavy black moustache. He had a soft felt hat and black overcoat.

May Sue Toronto.

Ingersoll, March 1.—The civic authorities are discussing the advisability of entering action against the City of Toronto to recover expenses incurred by the town in the case of Jacob Hartley.

When Hartley made application to the mayor and council for assistance, he was ill and penniless. Efforts were made to place Hartley in the Woodstock Hospital, but he was denied admission because of the fact that he was not a resident of the county. The same thing applied to the application to have him placed in the House of Refuge. In view of these circumstances, the question arose: To what municipality did Hartley belong? The man himself claimed that he was a resident of Toronto, stating that he had resided there for three years, had voted, and was recognized as a citizen.

Falls From Ladder; Breaks Neck.

Niagara Falls, Ont., March 1.—While repairing the boiler of an engine in the engine house of the Michigan Central Railway at Montrose on Saturday night, James McGregor slipped from a ladder on which he was standing to the cement floor, breaking his neck and fracturing his skull. Workmen, hearing the thud and groans, ran to McGregor's assistance, but he died twenty minutes later. He was a native of Morrow, near St. Thomas, and was 25 years old.

Finds Son In Biograph.

Lafayette, Ind., March 1.—While attending a moving picture show where scenes from a Florida Ostich Farm were being presented, Mrs. Hannah Mondelahn, a negro, saw her son in the pictures. She had not heard from him for seven years.

She telegraphed him and received a reply saying that he was at the ostrich farm and was employed as its manager.

Father Shoots Captured Negro.

Birmingham, Ala., March 1.—While handcuffed and sitting in the sheriff's office at Bessemer, Jim Brown, a negro, was shot and instantly killed by James Robinson, who, father of the girl Brown was accused of molesting on Feb. 15.

Alfonso In Accident.

Madrid, March 1.—King Alfonso has had another narrow escape from serious injury. While riding in an automobile near Villa Manrique, the machine skidded and struck a tree. It rolled and toppling over into a deep ravine.

THE REVIEW

MADOC, MARCH 4, 1906.

—It is announced in militia general orders that the Dominion Government has sanctioned an extension throughout Canada of the agreement which was made last year between the Minister of Militia and the educational authorities of Nova Scotia for the introduction into the Public Schools of a system of physical training and military drill.

—On the 30th of June last there were, according to statistics published by the Department of Railways and Canals, 22,966 miles of railway in Canada. This represented an increase of 514 miles over the year previous. As 4,327 miles of line were then reported as being under construction, 1909 will show a vastly greater increase in mileage.

—A bill will be introduced in the House of Commons at Ottawa this session providing that hereafter all hangings shall take place in the penitentiary. When sentence of death is pronounced, the prisoner will be at once removed to the nearest penitentiary, and be there confined until he is executed. This is a good move, and will do away with a lot of morbid curiosity so often exhibited at such a ghastly ceremony.

—The case to compel the Grand Trunk Railway to grant a third-class two-cent-a-mile rate between Toronto and Montreal, for which the Toronto World has so long contended, and which was carried through the Toronto police court, submitted to the Railway Commission, and then carried through the Supreme Court at Ottawa, has at last been settled against the rail way by the Privy Council of the Empire. The step is, in all probability, the forerunner of a similar rate on all the railways.

—In another column is an article from the Stratford Beacon, pointing out some useful municipal reforms which might well be placed upon our Statute Books. It has often been remarked how very unsuitable the time of year was for holding the municipal elections, and the changes suggested by our contemporaries, as well as those along the line of tax-collecting, would be of vastly more benefit to the various communities than much of the "tinkering" at the Municipal Act indulged in by so many of our legislators. Here is a chance for one of our Hastings representatives to launch out along original and beneficial lines in up-to-date legislation.

—The "dry" territory, especially in the United States, continues to spread. In fully two-thirds of the land of that country the saloon has been abolished, and it is threatened wherever it continues to exist. Nearly 2,000,000 square miles, or more than half the territory, is free through local option laws; 407,602 square miles are under State prohibition, and something more than a million and a quarter square miles has license laws. Idaho is the latest of the States to pass a local option law, under which counties can banish the saloon; and the anti-saloon people are jubilant over the measure, for Idaho has been regarded for long as a very strong hold of the liquor interests.

Get terms from E. C. Tuffe, Auctioneer. If you have anything to sell by auction.

—The Great American Eagle will make a "big noise" to-day. President Taft will be inaugurated with brilliant ceremonies, including a procession of 40,000 soldiers.

—The health of Her Majesty the Queen is causing considerable uneasiness in England at the present time. Unfavorable reports have been current for some weeks, but the actual condition is kept secret.

—Science is progressing. Wireless telegraphy is rapidly passing out of the stage in which it was one of the "fairy tales of science," and becoming part of the "commonest commonplace." Receiving messages on a train running over sixty miles an hour is one recent achievement; catching on the Eiffel tower in Paris a message from Glace Bay, in Nova Scotia, is another.

—British statesmen of this generation," says the Baltimore Sun, "may live live to see the day when there will be a United States of Africa, as well as a Republic of Canada and a Republic of Australia. There may be even a Republic of Great Britain before the dawn of the twenty-first century." Such statesmen will have to be long lived. But the thing is improbable, because the institutions of Britain and of Canada are more democratic than those of the United States. The monarchical system, as now worked out, gives us the best form of republic.

The Toronto Home Journal was led to make the following remarks owing to recent occurrences in that city:—

"When a church has to resort to bridge parties, fancy dress balls and drawing-room vaudeville to sustain its finances, it is time for it to ask if it has the faintest idea of the ordinary fitness of things. Not that there need be anything immoral in bridge, evil in fancy dress balls, or demoralizing in vaudeville. As amusements these may perhaps afford those who care for them a safeguard against mental palsy. The idea, however, of underpinning the financial foundations of the Christian Church with these paltry, frivolous sources of gain is, apart from other reasons, absurd."

The Roman Catholic Church is arraying its forces against the growing evil of profanity. Archbishop McEvay, of Toronto, in addressing a mass meeting of men following a recent demonstration, said: "The crying sin of this country and time is cursing and swearing. It is heard everywhere, and fathers allow their sons to loiter about the streets where they are sure to learn it. Any man with a spark of faith or manhood should avoid it. The man who says he cannot break himself of the habit is both cowardly and untruthful." One has only to mingle with groups of men and young boys crowded through the thoroughfares of our cities and towns in the evening to realize how far the filthy tongue is becoming a national evil. We do not believe the onus of stemming the torrent of profanity should be thrust upon preachers, although they can do much to make the habit unpopular. With parents and employers rests a responsibility they should not shirk, and while we recognize the danger of encouraging the too free use of the officer of the law, a few salutary examples made of foul-mouthed blasphemers would undoubtedly have a wholesome effect.

USE OUR OWN SILVER.

The U.S. silver which is in circulation in Canada ought to be got rid of, now that the Dominion has a mint of its own and produces an ample supply of silver. It is a fact that when a million dollars' worth of silver coins are turned out, nearly half their value is clear profit to Canada. This is follows that if the Dominion got rid of the \$2,000,000 of American silver within its borders, it could replace it with Canadian coins at a profit of almost a million dollars. This is not quite the proverbial "shillings for farthings," but it is a margin of profit so large as to leave absolutely no doubt as to the importance of the Canadian Mint at Ottawa, an institution, it is said, which could actually pay for itself in one year if at full capacity.

DETROIT.

This looks as though we were to have some more winter and sleighing. We have three weeks more winter season.

That grim monster, Death, has again entered our midst. Mr. and Mrs. Will Smith were out driving on Sunday, Feb. 21st, when they were very suddenly started with the terrible fact that their little daughter had passed away. She was taken to L'Amable cemetery for interment.

The bereaved parents have the sympathy of the entire community. Mrs. F. Bradshaw has been on the sick list during the past week with a rather bad attack of la grippe.

Mrs. Adam Lloyd, of Holloway, is somewhat recovered. She has been spending some weeks at the home of her grandfather at Egan Creek during which time she was very ill.

Several of the young people from Egan Creek and other sections spent Friday evening last at a party at the home of E. Kingens. The evening was principally spent in music and dancing.

Miss A. Bradshaw spent last Friday and Saturday at Bancroft, the guest of Rev. Mr. and Mrs. Hall.

S. Bulpit returned home on Saturday last to transact some business matters, and will return in a short time to Madoc, where he is employed as foreman at a mine, and will be accompanied by his son, Willy.

The Canada Iron Furnace Co. are intending to start operations for work at Bessemer and will put on a full force soon.

Maud Cornuel is suffering from a very severe attack of rheumatism.

We hope to hear of her recovery soon.

Mr. F. Bradshaw is on a several day trip through the northern townships on an insurance renewal trip.

The Mighty Power of Mi-o-na.

Mi-o-na, that extraordinary and perfect stomach tonic, will relieve dyspepsia in twenty-four hours.

It will cure and is guaranteed by W. P. J. Alexander to the readers of THE REVIEW to cure the most painful cases of dyspepsia if taken according to directions.

Mi-o-na tablets not only cure dyspepsia, but all stomach disturbances such as vomiting or pregnancy, or our sickness and the stomach sickness after excessive indulgence.

Mi-o-na cures by strengthening and invigorating the flabby stomach walls and after a course of Mi-o-na treatment, constipation, if there is any, will entirely disappear.

Mrs. S. Keast, of Clarksburg, Ont., says: "A bad stomach trouble that had bothered me for years, baffled and puzzled skilled physicians, was nicely relieved by my using Mi-o-na. My trouble was on account of food not digesting, but by fermenting in my stomach, forming a gas that gave me untold suffering and pain and also made me weak, nervous irritable and unable to rest. Since using Mi-o-na I can go to bed at night and sleep and wake up in the morning refreshed. I cannot speak too highly of Mi-o-na."

Mi-o-na is a most economical treatment, a large box of tablets only costs 50 cents at Alexander's and the dyspeptic, nervous or otherwise, who does not give them a trial is losing an opportunity to regain health.

PROVINCE HAS SURPLUS

Col. Matheson Shows Balance of \$45,848.36 on Right Side.

Ontario's Books Brought Down In the Legislature Make a Fine Showing, Despite Treasurer's Rigorous Exclusion of Extras From Capital Account—Time Has Expired For Private Bills.

Toronto, Feb. 27.—With a net cash balance of \$45,848.36 Hon. A. J. Matheson, Provincial Treasurer, brought down the public accounts in the Legislature yesterday.

The total receipts are placed at \$8,602,902.96 and the total expenditure at \$8,557,054.60.

The amount at special deposit at the end of 1907 was \$1,561,881.61; at the end of 1908, \$2,924,278. The amounts at current account respectively were \$12,202.44 and \$147,856.50. The Government is therefore better supplied with cash on hand than a year ago.

The smaller balance is due to the falling off in receipts from the Lands Department, the lumber men having been a less productive source of revenue than was anticipated.

A sum of \$2,304,960.60 advanced to the T. N. O. Railway may be regarded as first-class asset of the Government.

It has always been a vexed question among politicians what items of expenditure should be charged to capital account and what to current expenditure. Col. Matheson has been very consistent during his tenure of office in regarding all expenditures as current revenue, so long as the revenue would stand the charge. The practice of the former Liberal Government was to charge everything to capital account, and would possibly be included therein, and thus to exhibit swollen balances.

As it respects the public accounts, the province in a most favorable position. The Dominion debt has been wiped off. The Sec. guarantees is disposed of. All the estimated revenues but that for crown lands were exceeded.

The fluctuating sources of revenue may be enumerated. From the Dominion a total of \$2,128,772 was received; from lands, forests and mines \$2,430,429; licenses, \$577,771; lay stamps, \$58,686; Algonia taxes, \$1,105; education, \$2,860; Provincial Secrecy Department, licenses, etc., \$172,980; game and fisheries, \$101,054; agriculture, \$57,722; supplementary revenue act, \$695,423; succession duty, \$1,124,599; casual revenue \$105,799; public institutions, \$238,248; T. & N. O. Railway, \$350,000.

Grants to education have grown from \$949,806 in 1904 to \$1,554,567 to agriculture, from \$446,481 to \$534,325; hospitals and charities, from \$236,592 to \$317,774; colonization roads, from \$175,620 to \$459,894.

Among the miscellaneous items of expenditure are \$24,351 for enforcement of the liquor license law; \$16,886 for road taxes; expenses of elections, \$119,562; hydro-electric commission, \$52,139; sundry investigations, \$3,378.

Essentially, the tabling of the public accounts only a brief program of business was transacted.

W. H. Hoyle, in presenting the report of the standing orders committee, stated that members who had not their private bills in process of presentation might take notice that it would be impossible for them to get them through this session, as it was the intention to adhere strictly to the rules throughout the present session of Parliament.

Several bills were read a first time.

The End of the Universe.

Boston, Feb. 27.—"A collision of an unknown dark planet with the sun will terminate life on the earth," said Percival Lowell, director of the Lowell Observatory at Flagstaff, Ariz., in a lecture before the students of Massachusetts Institute of Technology.

"The events will be prophesied fourteen years before the catastrophe occurs," continued the astronomer, "and chaos and confusion will reign in the world during the days preceding the calamity."

Duck Shooting at Rice Lake.

Keele, Feb. 27.—A petition is being circulated in the Rice Lake district, asking the Ontario Government to so change the law that wild ducks may be shot over decoys in the rice beds. It is claimed by sportsmen that the recently adopted law, which went into force last fall, has practically spoiled the duck shooting at the lake, where it is difficult to get a shot at the ducks in the rice beds unless it is done from a concealed snipe.

Says He Is the Thief.

Chatham, Feb. 27.—William Riley, New York, has written to people here, stating that he stole the horses of Dr. MacFarlane of Dover, not Geo. Yates, who is serving a seven-year term at Kingston for this offence. The authorities here consider the letter only a bluff.

Tried to Burn a Church.

Oshawa, Ont., Feb. 27.—Geo. Hunt, of this town, was on Thursday sentenced to three years in the Kingston Penitentiary with hard labor by Police Magistrate L. K. Murton, for attempting to set fire to the Oshawa Christian Church at an early hour Thursday.

Two Firemen Hurt.

Chicago, Feb. 27.—Two firemen were injured by a falling wall during a fire which destroyed the Albert Dickson seed warehouse yesterday. Three girls were knocked down in the rush of fifty others for the stairway, but were rescued by policemen. Loss \$150,000.

Would Exclude All Asiatics.

Sacramento, Cal., Feb. 27.—The Senate by a vote of 28 to 7 passed a resolution favoring the exclusion of all Asiatics from the United States. Several Senators expressed surprise when the Asiatic immigration question came up.

Miss Florence Kinrade Has Another Story of Murder.

Fourth Tale of Shooting Has It That She Was Fired at Herself Several Times as She Escaped From Window—Murderer Not a Tramp, But a Well-Dressed Man—Father Talks of Trip For Her Health.

Hamilton, March 2.—Miss Florence Kinrade was yesterday morning interrogated by Provincial Detective Miller and City Detective Bleakley and Coulter. She was in a very nervous and hysterical condition, and told an almost totally different story of the affair from which she first told.

She said that when she was upstairs she heard shots fired, that she ran downstairs past the man and got out of a side window, the man firing several shots after her.

She also said that when she came back into the house she grappled with him, and that when she ran out of the front door to give an alarm he fired several more shots after her.

She said that the murderer was not a tramp, as he was too well dressed. She could not be sure whether she would know him again.

The autopsy has confirmed the fact that seven shots were fired into the body of the murdered girl.

The police deny that they found a blood-stained scarf in the back yard where they were inspecting the premises after the shooting. The found a rag from an apron lying in the bushes, but say that it had no blood stains on it, and they attach no significance to it.

Interest is now being centred on the inquest, which is due for Wednesday night. It is not certain that Miss Kinrade will be able to be present to testify, according to her father's opinion last night. It is anticipated, however, that there will be some surprising information from the medical men who made the post-mortem examination.

Meanwhile, everybody has a theory of his own. One prominent military man declares that the shooting must have been done by a strong man, well used to firearms, else the bullets would not all have found their billet, and in such vital region. It is certain some shots were fired while the woman was prostrate.

Another man who has been following the case closely holds the theory that the shooting was done by someone who knew the family and the house; that Miss Florence realized that her sister was in danger and ran upstairs to tell her to lock herself in her room; that Miss Ethel, in fear, hurried down the backstairs to escape, only to be met by her assailant. He also suggests that the shooting was done some time before Miss Florence notified the neighbors, but that this delay was due to the fact that she likely had swooned in the interval. This theory is supported, in a way, in the statement that the coroner on arrival noted that the dead girl's hand was cold, as though death had taken place some time before; while it would also account for the fact that no man was noticed to leave the house just previous to Miss Kinrade's giving the alarm.

Many other theories and stories are in circulation. Mr. Kinrade has decided to offer the reward of \$1,000 for the detection of the murderer. Mrs. Kinrade knows that her daughter came to her death, but has been told that it was the result of an accident.

Mr. Kinrade talks of taking his family away from the scene of the tragedy for a time. The detectives will interview Miss Florence Kinrade again to-day. They say, in spite of reports to the contrary, that she appeared to be quite calm and collected during their interview yesterday, though laboring under a strain, until they were coming away when she went into hysterics again.

The fact that she has told them four different stories has proved baffling to them. Yesterday she said that when she jumped out of the side window, the man grabbed her and pulled her back into the house again. The police say that there were no indications of a struggle having taken place at the window, and they can find no trace of the bullets she says were fired after her when she jumped out of the window and when she rushed from the house to give the alarm.

The constables who have been out looking for suspicious tramps returned without making any arrests. They claim that they found the surrounding country overrun by armed hordes.

Suspect Goes Free.

Port Huron, Mich., March 2.—Chas. Norton, the London, Ont., man held here on suspicion of being implicated in the Hamilton murder mystery, will be released from custody. Norton's family notified the officers of his absence from his home, near London, and arrangements were at once made for his release.

Chases Runaway Wife.

Kingston, March 2.—Elmer Sanford, Dexter, is separated from his wife, and the latter kidnapped their five-year-old daughter and came to Kingston. He followed, but neither he nor the police could locate the mother or child. Search will be made at Napanee and Belleville.

Fireman's Suicide.

Pittsburg, Pa., March 2.—William Gearhart, captain of a fire company, who murdered his wife, Mrs. Anna Baxter, a widow, with a razor, and then seriously cut himself, committed suicide yesterday by jumping from the third floor of the Pittsburg Hospital.

Lectures on Cables.

London, March 2.—The Incorporated Chamber of Commerce of Liverpool has arranged for addresses to be delivered on the subject of cable communication within the Empire by Prof. Marconi, Sir Edward Sassoon and Mr. Henniker Heaton.

PROVINCE HAS SURPLUS

Col. Matheson Shows Balance of \$45,848 36 on Right Side.

Ontario's Books Brought Down in the Legislature Make a Fine Showing. Despite Treasurer's Rigorous Exclusion of Extras From Capital Account—Time Has Expired For Private Bills.

Toronto, Feb. 27.—With a net cash balance of \$45,838.36, Hon. A. J. Matheson, Provincial Treasurer, brought down the public accounts in the legislature yesterday.

The total receipts are placed at \$8,602,902.96 and the total expenditure at \$8,557,064.60.

The amount at special deposit at the end of 1907 was \$1,561,881.61; at the end of 1908, \$2,924,278. The amounts at current account respectively were \$112,292.44 and \$147,886.50. The Government is therefore better supplied with cash on hand than a year ago.

The smaller balance is due to the falling off in receipts from the Lands Department, the lumber men having been a less productive source of revenue than was anticipated.

A sum of \$2,304,950.60 advanced to the T. N. O. Railway may be regarded as a first-class asset of the Government.

It has always been a vexed question among politicians what items of expenditure should be charged to capital account, and what to current expenditure. Col. Matheson has been very consistent during his tenure of office in charging all expenditures to current revenue, so long as the revenue would stand the charge. The practice of the former Liberal Government was to charge everything to capital account that could possibly be included therein, and thus to exhibit swollen balances.

In other respects the public accounts show the province in a most favorable financial position. The Dominion debt has been wiped off. The \$600 guarantee is supposed to all the estimated revenues but that for crown lands were exceeded.

The fluctuating sources of revenue may be enumerated. From the Dominion a total of \$2,128,772 was received; from lands, forests and mines, \$2,430,429; licenses, \$577,771; lay stamps, \$50,695; algoma taxes, \$1,105; education, \$50,960; Provincial Secretary's Department, licenses, etc., \$172,980; game and fisheries, \$101,054; agriculture, \$87,722; supplementary revenue act, \$695,482; succession duty, \$1,124,899; casual revenue, \$105,799; public institutions, \$238,248; T. & N. O. Railway, \$550,000.

Grants for education have grown from \$349,806 in 1904 to \$1,564,567; to agriculture, from \$446,481 to \$534,325; hospitals and charities, from \$236,592 to \$317,774; communication roads, from \$175,620 to \$459,894.

Among the miscellaneous items of expenditure are \$24,351 for enforcement of the liquor law; \$15,866 for wolf bounties; expenses of elections, \$119,562; hydro-electric power commission, \$52,139; sundry investigations, \$3,378.

Besides the tabling of the public accounts only a brief program of business was transacted.

W. H. Hoyle, in presenting the report of the standing Federal committee, stated that members who had not their private bills in process of presentation might take notice that it would be necessary for them to get them through this session, as it was the intention to adhere strictly to the rules throughout the present session of Parliament.

Several bills were read a first time.

The End of the Universe.

Boston, Feb. 27.—"A collision of an unknown dark planet with the sun will terminate life on the earth," said Prof. Percival Lowell, director of the Lowell Observatory at Flagstaff, Ariz., in a lecture before the students of Massachusetts Institute of Technology.

"The events will be prophesied fourteen years before the catastrophe occurs," continued the astronomer, "and chaotic confusion will reign in the world during the days preceding the calamity."

Duck Shooting at Rice Lake.

Keene, Feb. 27.—A petition is being circulated in the Rice Lake district, asking the Ontario Government to so change the law that wild ducks may be shot over decoys in the rice beds. It is claimed by sportsmen that the recently adopted law, which went into force last fall, has practically spoiled the duck shooting at the lake, where it is difficult to get a shot at the ducks in the rice beds unless it is done from a concealed canoe.

Says He Is the Thief.

Chatham, Feb. 27.—William Ribey, New York, has written to people here, stating that he stole the horses of Dr. MacFarlane of Dover, not Geo. Yott, who is serving a seven-year term at Kingston for this offence. The authorities here consider the letter only a bluff.

Tried to Burn a Church.

Oshawa, Ont., Feb. 27.—Geo. Hant, of this town, was on Thursday sentenced to three years in the Kingston Penitentiary with hard labor by Police Magistrate E. K. Murt. Hant was attempting to set fire to the Oshawa Christian Church at an early hour Thursday.

Two Firemen Hurt.

Chicago, Feb. 27.—Two firemen were injured by a falling wall during a fire which destroyed the Albert Dickson seed warehouse yesterday. Three girls were knocked down in the crush of fifty men for the stairs, but were rescued by policemen. Loss \$150,000.

Would Exclude All Asiatics.

Sacramento, Cal., Feb. 27.—The Senate by a vote of 28 to 7 passed a resolution favoring the exclusion of all Asiatic immigrants from the United States. Several Senators expressed surprise when the Asiatic immigration question came up.

CHILDREN!

Vinol is the only preparation of Cod Liver Oil that children will take and which is easily assimilated by their delicate digestive organs. It builds up firm, healthy flesh, and makes little limbs round and plump. Delicate children thrive on it and love to take it.

The body-building and strengthening properties of Cod Liver Oil—but no oil—combined with peptonate of iron, makes Vinol the ideal tonic for delicate children. It tastes good and always does good.

GROWING CHILDREN

play hard and work hard. They use up an enormous amount of energy and vitality that needs replacing. Give them Vinol regularly. It keeps them healthy, builds strong bones, sound flesh and muscle and pure rich blood.

DELICATE GIRLS

"My 9 year old daughter was weak, pale, and had no appetite. I gave her Vinol, and she began to thrive at once. She gained rapidly in weight, color and strength."—MRS. W. H. GILMORE, Durand, Mich.

SICKLY CHILDREN

cannot digest ordinary Cod Liver Oil or Emulsion of Cod Liver Oil on account of their greasy nature and nasty taste. It upsets their delicate little stomachs. Vinol contains all the medicinal value they do and tastes good besides.

"MY TWO CHILDREN,

who were puny and ailing, rapidly gained flesh and strength when I began to give them Vinol. I proved that Vinol is a splendid tonic for delicate children."—MRS. C. ALLEN, New Bedford, Mass.

Misery in Stomach.

AND INDIGESTION VANISHES IN FIVE MINUTES AND YOU FEEL FINE.

Why not start now—to-day, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Epsom's Diaperin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heaveburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Epsom's Diaperin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and, besides, one triangle of Epsom's Diaperin will prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diaperin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will you good.

Absolute relief from all stomach misery is waiting for you as soon as you decide to begin taking Diaperin. Tell your druggist that you want Epsom's Diaperin, because you want to be thoroughly cured of indigestion.

Any Weakness in Your Back.

Sometimes when you experience pain and weakness without much suffering. Later on the pain will surely come. The trouble can be stopped now by rubbing on Nerviline Plaster. In these remedies you will find wonderful and quick relief. They will spare you from an attack of Lumbago which is the outcome of neglected pain in the back or side. For all muscular pains, strains, and weakness, Nelson's Nerviline and Nerviline Plasters have no equal. Refuse substitutes.

HAILESTONE—WILSON.—A very pretty wedding took place at seven thirty p. m., at the home of Mr. John Wilson, Thomasburg, the occasion being the marriage of his youngest daughter, Florence Gertrude, to Allan S. Hailestone, of Madoc. The ceremony was performed by Rev. J. A. McConnell, pastor of Rose Presbyterian church, in the drawing-room, beneath the floral bell. The bride was given away by her father, attired in her travelling suit of easter broadcloth, with silk waist to match. The wedding march was played by the bride's cousin, Miss Ethel Wilson, of Thomasburg. Only the immediate relatives of the contracting parties were present. The presents to the bride were most beautiful. After the ceremony and congratulations they all repaired to the dining-room, where they did ample justice to the good things provided. Mr. and Mrs. Hailestone will spend a couple of weeks visiting friends before leaving for their future home in Alberta.

WRIGHT—KILPATRICK.—The home of Mr. and Mrs. Adam Kilpatrick, Huntingdon, was the scene of a pretty wedding on the evening of Wednesday Feb. 24th, when their eldest daughter Ethel, who had been charmingly married to Mr. Robert Wright, of West Huntingdon. To the strains of the Wedding Bells march as played by Miss Minnie Downey, of Thomasburg, the bride entered the parlor leaning on the arm of her father and took her place beneath a beautiful floral arch. She looked charming in gown of cream nun's veiling with veil and orange blossoms, and carried a bouquet of white carnations. Miss Blanche Kilpatrick, sister of the bride, acted as bridesmaid, also gowning in cream and carrying pink carnations, while the groom was ably supported by his brother, Mr. William Wright. After the ceremony had been performed by the pastor, Rev. H. B. Rowe, and congratulations offered by the friends, all repaired to the dining-room where a sumptuous repast was served. The bride was the recipient of many beautiful and costly presents attesting to the high esteem in which she is held by a large circle of friends. The groom's gift to the bride was a beautiful gold watch and chain, to the bridesmaid a gold signet ring and to the groomsmen a pair of gold cuff-links. The bride's going-away gown was of brown ladies' cloth with hat to match. The happy couple left via Ivanhoe for points west. On their return they will take up their residence at West Huntingdon. All join in wishing them a happy voyage through life.

HOCKEY.

Stirling 7, Madoc 3.

The most exciting game of hockey in the Trent Valley League was played in Marmora last Friday night when the fast Stirling Septette defeated the Madoc team by a score of 7 to 3. The game was fast and clean from start to finish. At half-time the score stood 3 all, and it looked as if either team might win. However, Stirling came on a spurt and tallied four, while the rushes of the Madoc boys were closely checked and they failed to find the net. A regrettable accident occurred towards the close of the game when Saylor fell and E. Pine, in bending over, came in contact with the point of Saylor's skate, which penetrated the cheek and loosened some of Pine's teeth. The injury was bound up and the game continued.

Referee Noonan, of Perth, handled the bell and gave good satisfaction. Although some mistakes were made he appeared very conscientious. The penalties were all for five minutes which should have put a damper on trippers, fouls and rough play. Nevertheless players from both sides adorned the fence frequently. Betts, of Stirling, scored a total rest on the fence of 25 minutes.

There were probably about fifty people who went over from Madoc to see the game, and all the encouragement the Madoc boys got came from them. The Marmora people "rooted" continuously for Stirling, and some from Marmora became very offensive and personal in their remarks.

Stirling, by winning this game, wins this district and goes into the finals with Norwood for the championship of the Trent Valley League.

The Madoc players are very content that Stirling should win. They are a heavier and an older bunch of players and they are the only ones in this district who could defeat the Madoc seven. They won on their merits and we congratulate them.

Explosion in Mine Causes Death and Injury!

Two Men Killed; Two Others Seriously Injured; Miraculous Escape of Another.

The Worst Accident in the Madoc Mining District for Years. Fatal Carelessness on the Part of Workmen.

THE DEAD.

DAN PHILLIPS, aged 28, unmarried.

FELIX ALORE, aged 40, married.

THE INJURED.

J. C. MOORE, married.

GEORGE YOUNG, married.

What was undoubtedly the most serious mining accident that has ever taken place in the Madoc District, and the first, we believe, with fatal results in the County due to the use of explosives, occurred on Friday morning last, when two men lost their lives and two others so seriously injured that their lives hang in the balance, and in any case they will be maintained for life.

The accident occurred in a gold mine being opened by Mr. W. A. Hungerford on the old Vankleek property near "The Flats," now owned by Mr. Bruce Vankleek, about 12 miles north east of Madoc village. Work had been going on for some months under the direction of Robert Phillips, the shaft being down about 70 feet, the usual size at the bottom, some 10 to 15 feet. The workmen were Dan Phillips, of Queensboro, nephew of the manager, Felix Alore and J. C. Moore, of Rimington, and George Young, of the Allen Settlement.

As was the usual custom, a number of blasts were put off at one time on Thursday night, and according to count all the charges exploded. Friday morning on clearing away the rock one hole was found apparently only partially blown out, and after examination Phillips and Moore commenced drilling it out, the other two working at the other side of the shaft. Robert Phillips, the manager, was

watching the drilling for some time, and he had just decided to put a new hole for the day, and had turned to point out the spot when a terrific explosion occurred, the drill having evidently struck the unexploded dynamite charge in the old hole. His turning away no doubt saved the manager's life as the hurrying rock flew past him by a few inches, but the other two were not so fortunate. Dan Phillips was killed outright, the top of his head being blown off; Alore was so badly mangled that he died in a few minutes; Moore and Young were badly hurt and injured about head and body by the flying rock, both will lose an eye, and Moore loses some of his fingers as well, while one leg is badly mangled. The accident was evidently about the head, and his case is particularly sad as he is both deaf and dumb, and only about a year ago lost one eye, and so now will be totally blind in addition to the other infirmities. Doctors from Madoc were hurried to the scene and did all possible for the sufferers, and they were removed next morning to the Hospital at Belleville, where latest reports say they are doing as well as can be expected.

Dr. Harper, Coroner, opened an inquest on Saturday morning, and adjourned for a week when a thorough enquiry will be made as to cause of the accident. It was evident that the charge has not been exploded in the hole, and the workmen were guilty of great carelessness in drilling in the same hole without most positive knowledge of its condition.

Phillips and Alore were both buried on Sunday. Much sympathy is felt for the families and relatives of the unfortunate victims of the accident.

Iron Ore Shipments.

Production of Canadian Ore During the Year 1908.

Ottawa, March 6.—The total shipments of iron ore from mines in Canada in 1908 were 203,400 short tons, valued at the mine at \$486,857, as compared with 312,406 tons valued at \$609,941 in 1907. The greater part of this production was from the Helen mine, Michipicoten, delivered to Midland and Hamilton. During 1908 very little Canadian ore was exported.

PIG IRON.

The total production of pig iron from both Canadian and imported ores according to direct returns from nine plants comprising 16 furnaces, was 630,839 short tons valued at \$8,111,194 as compared with 651,962 tons valued at \$9,125,226 in 1907. These figures do not include the output from the two electric furnace plants making ferro-products, which are situated at Welland, Ont., and Buckingham, Que. Of the total output of pig iron during 1908, 9,700 tons, valued at \$171,383, were made with charcoal as fuel and 624,129 tons valued at \$7,939,811 with coke.

CANADIAN ORE.

The amount of Canadian ore including mill clinder, etc., used was 219,209 tons, while the quantity of imported ore was 1,051,445 tons. The total amount of coke used during the year 1908, 9,700 short tons valued at \$1,770,327. The total amount of charcoal used was 1,121,990 bushels valued at \$85,738. The quantity of limestone flux charged was 483,065 tons.

STEEL.

Companies making steel showed a total output of ingots and castings of 588,703 short tons valued at \$9,233,002, as compared with 709,082 tons valued at \$15,612,500 from seven companies in 1907.

Lightning Change.

"Is the man of the house in?" asked the caller, who presented a rather frazzled appearance.

"No," said the lady, hastily sliding up her visitor as a bill collector. "He is out of town."

"When will he be back?"

"Really, I couldn't say."

"Don't know when I can see him?"

"No."

"Too bad. I wanted to settle with him for a horse he sold me."

"Oh, is that it? Walk right in. He is at home now."

PLAYING HAVOC WITH PATENT MEDICINES

An Old-fashioned, Home-Made Mixture which Cures Kidney and Liver Troubles.

A prominent local druggist states that since the celebrated prescription of a distinguished specialist has become more or less known it is interfering with the sale of secret medicines, especially the patent or advertised kidney pills. The prescription, which first appeared in a leading health journal, is reproduced here, just exactly as originally written:—
Fluid Extract Cascara..... 5 oz.
Carmena Compound..... 1 oz.
Syrup Sarsaparilla..... 6 oz.
Directions: One teaspoonful after each meal and at bedtime.
Any good druggist can dispense this, or, even better, you can buy the items separately and mix them at home by shaking them well together in a bottle. It is stated that the ingredients being vegetable, are harmless and simple. It has a gentle and natural action, and gradually tones up the eliminative tissues, leaving the kidneys in a perfectly healthy condition.

A merchant well known in public affairs states that this recipe cured his rheumatism. Save the prescription.

Indigestion Ends.

DIETARY FROM YOUR DISORDERED STOMACH GOES IN FIVE MINUTES.

You can eat anything your stomach craves without fear of a case of indigestion or dyspepsia, or that your food will ferment or sour on your stomach if you will occasionally take a little Diapiesin after eating.

Your meals will taste good, and anything you eat will be digested. Nothing can ferment or turn into acid or poison or stomach gas, which causes belching, dizziness, a feeling of fullness after eating, nausea, indigestion (like a lump of lead in stomach), biliousness, heartburn, waterbrash, pain in the stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapiesin really does all work of a healthy stomach. It digests your meals when your stomach can't. Each triangle will digest all the food you eat, and leave nothing to ferment or sour.

Get a large 50-cent case of Diapiesin from your druggist and start taking today and by tomorrow you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

On Monday, February 22nd, death visited the home of Mr. J. W. Huffman, taking his beloved wife, Mrs. Huffman was the eldest daughter of the late Allen Williams, and was born on December 4th, 1842 in the township of Rawdon, where she always resided. In 1880 she was united to J. W. Huffman of Rawdon.

Do Your Boots Planch.
If so, look out for a tiny can. Cure it before it gets big. Putnam's Painless Corn Extractor is the best. Try "Putnam's."

Three hundred and eighty-four persons on trial at Moscow, accused of conspiring to loot Russian railroads.

A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and failing inside nerves. This, no doubt clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful power. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

TO CUT LUMBER DUTIES

United States Tariff May Be Halved by Congress.

New Bill Now Before Ways and Means Committee of House of Representatives Is Said to Contain a Reduction of Customs on Milled Timber—Gifford Pinchot Is in Favor of the Reduction.

Washington, March 9.—A cut of one-half in the duties on lumber and manufactures of lumber is understood to be one of the changes provided by the new tariff bill, which is printed preparatory to its final revision by the Republican members of the House of Representatives. The bill, which has been passed by the House, is being considered by the Ways and Means Committee, according to information from reliable sources, which is that it has been placed on the free list. There has been much contention over the duties on these two articles.

During the hearings on the lumber schedule it was claimed that the forests of the country could only be conserved by admitting foreign lumber free of duty. It is understood that Gifford Pinchot, chief forester, is preparing figures for this committee in a further effort to have lumber placed on the free list. Champ Clark, the House minority leader, claimed at the hearings that the profits of the lumber interests were unduly large. Representative Fordney of Michigan, a member of the committee, championed the cause of the lumber men, and the latter have been working energetically to prevent the free entry of lumber. They contend that the rates of duty should be increased in order that the American industry may compete with the cheaper labor employed in Canada, and because of the better facilities for transportation afforded by the proximity of the Canadian lumber camps to waterways.

Fasts to Cure Cancer.

Marlboro, Mass., March 9.—Adolf J. Bastien, ill from cancer, is trying to carry out a fast of forty days, in the hope of curing himself. He has already fasted for thirty days, and yesterday he prayed that God would give him endurance to fast two days more. Eight months ago he weighed 155 pounds. Today he weighs 50 pounds.

For thirty-nine days Bastien has taken only a quail and a half of water. His physician told him that if he lived over Saturday he would regain his health. Each day he has smoked a cigar, but has taken no food. Six months ago specialists told him he could not live a week.

Extending Public Service.

Port Arthur, March 9.—It is understood T. H. McCauley, former manager of the Twin City Street Railway, discharged when the Fort William interest got control, is likely to be appointed to the management of a new system in Calgary. Extensions of the local telephone and electric railway systems into the townships are being considered.

A bold attempt at purse-snatching occurred here early last night, when a man grabbed a bag carried by Mrs. Whitaker. The woman held on until hailed into the street by a policeman, who would be robber, frightened with the screaming, ran.

Police Dogs Capture Three Men.

New York, March 9.—Max and Norzi, police dogs stationed at Park street, the outskirts of Brooklyn, distinguished themselves early today morning by running down and capturing three men who were escaping from the police. For the first time since they were put on the force a year ago the highest hope of Commissioner Bingham for them was realized. They tripped the fugitives by running, tripping their legs and held them until their masters could come up and arrest the men.

Marriage Record Not Altered.

Madrid, March 9.—The criminal action in connection with the claim of Ernest Henri Buisson West to the Seville peerage and estates, came to an end yesterday with the acquittal of Rolin and Sanchez. These two men were accused of having altered the church records of Ortega to a Spaniard named Olivia. This woman was the mother of the present claimant, and her alleged marriage to Olivia was relied on to bar his claim.

Taft's First Move.

Washington, March 9.—Simplified spelling is to exist no more in White House correspondence except as an antique and a curiosity. There is to be no more puzzling over sonorous words, and President Taft's message to Congress and his other correspondence will contain words "spelled out" just as Mr. Taft spelled out his words when he wrote essays at Yale.

Grain at Port Arthur.

Port Arthur, March 9.—Grain is again beginning to come to the local yards in large quantities. There are now 150 cars in the Canadian Northern yards being transferred to elevators. This is mostly sold for May shipment. It is expected that the movement of grain will now reach such proportions that it will be necessary to increase the elevator staff.

Fatal Quarrel.

Winnipeg, March 9.—A special from Devil's Lake, N.D., says: Cashier of the Great Northern freight depot, yesterday shot and fatally wounded a man named J. Hopper, and then shot himself.

There had been ill-feeling between the pair. Both were married and have families.

See Votes Bonus.

Sault Ste. Marie, March 9.—Only 12 voted yesterday against the bonus of \$50,000 a year for 20 years for the proposed drydock. Of this amount one-half will be repaid in school taxes.

FIVE ARE GUILTY.

Recommendation to Mercy in Cases of Ticket Swindlers.

Toronto, March 8.—A verdict of guilty with a recommendation to mercy was returned at 9:15 Saturday night against former G.T.R. Conductors Dan Corrigan and Frank McCard, and Harry Rosenbom and Joseph Woods. They will not be sentenced until the end of the session, and will in the meantime remain in the jail, ball being absolutely refused. The quartette were arrested in a round-up planned to effect simultaneously in Montreal and Toronto. Rosenbom and Woods were suspected of having manufactured bogus tickets for passage between Toronto and Montreal, which were sold at about \$4 each, and which the two conductors, by special arrangement, accepted in lieu of the regular tickets. The verdict was returned on the first count of "conspiracy to defraud the Great Northern Railway" in accordance with Judge Winchester's instructions that if from the evidence the jury were convinced that there was a conspiracy, they might in bringing in a verdict against one and allow the others to go free.

The jury were out two hours and fifteen minutes. As they retired to consider the evidence, Messrs. Robinson, Curry and Geary, counsel for the defence, jumped to their feet with a host of objections to the manner in which his honor had charged, and they argued so a good half hour. The jury were then recalled and the judge carefully went over the points raised. Some of his statements he admitted might be privileged.

The witnesses on Saturday were detectives employed by the City. The Agency and who testified to having purchased and used bogus tickets, involving the men on trial. The defence sprang a surprise by calling no witnesses, and counsel for the defence thus had the privilege of last addressing the jury.

MADMAN AND GUN.

Welland Youth Holds Up Three Men In Hardware Store.

Welland, March 8.—Harvey Jones, aged 19 years, came near adding a further shooting tragedy to those reported within the last fortnight. He went into Booth's hardware store at 10:30 Saturday night and asked to see a revolver. He then enquired about the ammunition, and loaded the weapon. He began measuring the barrel with a plug of chewing tobacco, and it was seen that he was deranged.

J. W. Lamoureux of Hamilton, who was standing nearby, asked him to unload the weapon. This he refused to do. Lamoureux then advanced and grabbed him to get the revolver and Jones shot his free hand to his hip pocket and declared that he would shoot both of them if they did not let go. As soon as he was free he drew both of them and George Boyd, who had entered the store, to the rear and announced that he was going to kill the three. He then fired a desperate jump and grabbed the revolver just as he was taking aim at Lamoureux.

The bullet grazed the latter's leg and then struck the other. He fired two more shots before the revolver was taken from him. He was at once placed under arrest. He had been drinking, but it is thought he is insane.

An Attempt to Assassinate.

Havana, March 8.—An attempt was made to kill Gen. Amelio Nunez, ex-governor of the province of Havana, while he was passing through Miguel street. Jose Cisneros, a merchant who has had a personal grudge against Nunez, fired two shots at him, but neither took effect. Cisneros was arrested and said that he had selected the day to kill Gen. Nunez because the latter's daughter Maria was to be married at night to Edgar Raviel, son of a millionaire sugar planter.

Bargains For Foreigners.

Washington, March 8.—The alleged practice of foreign manufacturers selling goods in the country at a price lower than that obtained at home, was the subject of a resolution introduced Saturday by Mr. Gallinger. The resolution which was agreed to directs the Secretary of Commerce to "procure through consular and other representatives abroad all available information relating to the practice of foreigners selling goods in the country at a price lower than the domestic price."

Old-Time Actor Dead.

New York, March 8.—Wm. H. Bishop, well-known in theatrical circles as a manager or owner of the old time stage successes as "The Black Creek," "What Happened to Jones," and "The Country Fair," died here yesterday at his home from internal injuries sustained three weeks ago, when he was struck by a heavy automobile truck. Mr. Bishop was 64 years old.

Thousands of Delegates.

Toronto, March 8.—Secretary H. K. Caskey of the Laymen's movement for missions has received up to date reports of the delegates to the national congress to be held in Massey Hall from March 31 to April 4.

Blinds Husband For Life.

Norwich, N.Y., March 8.—Mrs. H. C. Jacobs shot her husband in the head yesterday, inflicting serious injury and then shot and fatally wounded herself. She survived her injuries only a few hours, but her husband will probably live, though he will be blind for life.

Montreal Live Stock.

MONTREAL, March 8.—(Special.)—At the Montreal Stock Yards West End Market, the receipts of live stock for the week ending March 7 were 183 cattle, 13 sheep and lambs, 287 hogs and 307 calves. The offerings this morning were 125 cattle, 15 sheep and lambs, 150 hogs and 110 calves.

The supply of cattle was somewhat larger than a week ago, but this fact had no depressing influence on the market, as the weather continues to be unfavorable for exporters who bought about 150 head to complete shipments with, from St. John, N.B. The market for calves was very quiet, and the supply of calves was somewhat larger than a week ago, but this fact had no depressing influence on the market, as the weather continues to be unfavorable for exporters who bought about 150 head to complete shipments with, from St. John, N.B.

Cattle from Liverpool reported the market firm at an advance of 1/4c to 1/2c per lb. in the market. Trade was slow. In addition to the above there was a large gathering of local and out of town buyers and as the weather continues to be unfavorable for keeping stock, they showed a disposition to buy. The market for calves was very quiet, and the supply of calves was somewhat larger than a week ago, but this fact had no depressing influence on the market, as the weather continues to be unfavorable for exporters who bought about 150 head to complete shipments with, from St. John, N.B.

The market for sheep was unchanged and trade was quiet, at 4 1/2c to 4 3/4c for choice, and at 2 1/2c to 3 1/2c for culls per lb. There continues to be a good demand for calves, of which supplies are increasing some and in consequence an easier feeling prevails in the market and prices are lower than they were a week ago at from \$3 to \$4 each, as to size and quality. The undertone to the market for hogs continues strong and prices have scored a further advance of 15c per cwt. The supply was fair, for which the demand was good and sales of selected lots were made at \$7.75 to \$8.00 per cwt. weighed off cars.

BLAKE MAKES CHARGES

He Says University Is Teaching Theology Unlawfully.

Hon. S. H. Blake Precipitates Action In Carman-Jackson Controversy by Issuing an Open Letter to Chancellor Burwash Drawing His Attention to Higher Criticism Teaching in the Faculty of Arts.

Toronto, March 6.—Hon. S. H. Blake revived the "new theology" disturbances yesterday when printed booklets of a communication to Chancellor Burwash of Victoria University were made public, under the caption "The Teaching of Religious Knowledge in University College, Victoria." It is charged that:

(a) There is no provision in the statutes governing the university or University College for instruction in or giving out certificates in theological subjects or religious knowledge by either of these bodies.

(b) Instruction in both of these subjects is being given.

(c) This work was allotted to the federated universities and colleges.

(d) These latter bodies have therefore ground for complaint and the right to demand that this illegal interference with their rights shall cease.

In a prefatory note Rev. Dr. Elmore Harris refers to the "acute situation" in University College, and says:

"Nearly two years ago my attention was called to the teaching of religious knowledge and to the character of

GRAIN THIEVES BUSY.

Toronto Officials Find That Oats Have been Sold Short Weight.

Toronto, March 8.—Systematic fraud in short-weight delivery of oats is alleged against two men for whom the police are now searching. It is said that several local firms have "suffered rather heavy losses."

The operators have been a former traveler for a flour and feed firm, and a small grain dealer from an outside town. The modus operandi has been simple, but successful. After having had a load weighed, and the certificate issued, the wagon has been driven to the car and several hundred pounds removed. The balance was delivered as the original load.

The bait by which custom has been secured was an extremely low price, 45 to 48 cents a bushel being quoted, while the price by carload being 48 cents and on the market 50 cents.

Among the firms victimized are the McWilliam and Everett Co., fraters; the Dawson Commission Co., and the Dominion Express Co. The fraud was discovered when somebody telephoned the first named that they'd better make sure they'd got all they'd paid for, as he had seen them unloading.

Investigation showed a deficit of 700 pounds in the load. The company had been secured by one of the men telling the stableman he would supply all oats wanted at 46 cents.

One small load netted a profit of \$10.

PLENARY COUNCIL.

His Holiness the Pope Will Call the First One in Canada Soon.

Ottawa, March 8.—The Catholic Register Extension, the organ of the Catholic Church Extension Society in Canada, will announce on Tuesday that His Holiness the Pope has resolved to call the first plenary council in Canada, through his representative, Mgr. Barretti, apostolic delegate. The council will be held in the early summer at Quebec, and to it will be invited all the bishops of the Dominion, superiors of religious institutions, and a full body of theologians.

This council will mark an epoch in Catholic Church in Canada, and cannot be regarded by the faithful otherwise than as a signal favor by His Holiness. His Excellency, Mgr. Barretti, will preside over the gathering, and while the doctrine will not be a subject of discussion, a restatement of it may be made, and disciplinary laws laid down to govern the changing conditions of the church in Canada.

The United States has had three plenary councils, one in 1852, one in 1866, and the last in 1884. The South American republics had one in 1890, so that with the holding of the proposed great gathering in Canada the entire continent of America will be covered by plenary council legislation.

Loan to G.T.P.

Montreal, March 8.—The rumor is freely circulated here that the Government will loan \$10,000,000 to the G.T.P. in order to tide them over their present financial difficulties. Reports to this effect have been circulated by a number of M.P.'s from the city who are home for the weekend. They state that the G.T.P. will borrow this amount from the Dominion Government, giving ample security for its payment. It is said that the G.T.P. will seek their pretexts for this in the action of the Macdonald Government in loaning thirty millions to the C.P.R. on the personal guarantee of Lord Strathcona and Mountstephen and Mr. R. B. Angus. This amount was repaid long before it was due, and it is said that the G.T.P. could do the same.

Is Pope Ill?

Rome, March 8.—The Pope's indisposition has taken on the character of influenza and his condition inspires apprehension.

Notwithstanding his ill-health his holiness took the keenest interest in the electoral struggle yesterday, insisting upon seeing the despatches giving the returns.

The Pope is ordered to spend a week in bed. People are asking why there is such mystery about the holy father's illnesses if he is simply suffering from a slight cold. They suspect that Pius X. is really suffering from some serious disease which the doctors are striving to conceal; something, for instance, like heart trouble, which in an aged gey person is dangerous.

Charged With Burglaries.

Toronto, March 8.—In the arrest of Norman McFarland, 659 Yonge street, and Carmel Lawson, 322 Church street, late last night, Detectives McKinney and Armstrong believe they have got the men responsible for several burglaries that have been committed recently.

They are believed to have been implicated in the two burglaries at Juniors china ware store, 88 West King street, the breaking in at Allison's cigar store, 121-2 East Queen street; and four attempts (one successful) to get money from the stores of W. J. Lloyd & Co.'s bakeries.

Hurls Himself From Bridge.

Hamilton, March 8.—A woman who hung herself from the high level bridge, Saturday morning, has been identified as Miss Annie Kobidowsky, a Polish woman, 22 years of age, who has been employed at the Tuckett company since she came to this country about a year ago.

She lived with her brother, who says that she has been acting strangely for several days, refusing to leave her room. It is thought that her mind was deranged.

Chooses Death by Jumping.

New York, March 8.—Choosing between death by fire, which had driven him out of his blazing room, and on the narrow ledge of his window, and a jump of three stories to the sidewalk below, Dennis Reardon jumped and was almost instantly killed yesterday by striking head first on an iron railing.

CHICKEN THIEF DID IT

Police Have Clue to Assailant of Hamilton Officer.

Bag Picked Up at Scene of Shooting of P. C. Smith Is Believed to Be That of Englishman Seen in Neighborhood — Was Systematic Hen-Roost Robber—Developments in Kinrade Case Wednesday.

Hamilton, March 8.—The first threads of a web of evidence which the Hamilton and provincial detectives have been trying to gather up against the man who fired upon and perhaps fatally wounded Constable Smith of Hamilton last Thursday night have been obtained by the authorities, who are now satisfied that the shooting of the policeman and the murder of Miss Kinrade were not done by one and the same person. The theory that the man who shot the policeman was the one who murdered Miss Kinrade, which met with much favor at first because so many of the circumstances of the case supported it, has been completely abandoned by both the city of Hamilton and provincial detectives.

The investigation of the shooting of the policeman is being left solely in the hands of the Hamilton police officers, who are looking for a man now believed to be in or near Hamilton, and whose principal occupation of late has been the systematic stealing of chickens. The connection of the man with the shooting of the policeman has been established by a bag picked up after the constable was shot. The bag, a police assert, was a short time before in the possession of a man seen loitering around the home of Bishop Dowling, which is just in the rear of the dwelling where Police Constable Smith was shot. The man who had the bag under his arm was spoken to by Joseph Lynch, coachman for Bishop Dowling. The man was about 5 feet 8 inches in height, and spoke with a decided English accent. He is also described as having rosy cheeks, with a two weeks' growth of a moustache. His clothing consisted of a light brown or grey suit and peak cap. He wore no overcoat, and had every appearance of having just come a short distance when he met the bishop's coachman. That the man was an ordinary chicken-thief is evident, the police say, from the fact that there found inside the bag which was carried by the man, and afterwards picked up at the scene of the shooting.

With this evidence in the possession of the authorities it is believed the mystery attending the shooting of the constable will be cleared away as well as some of the dead end of the case which have been abroad in Hamilton since the murder of Miss Kinrade and increased when the policeman was fired upon. The man who shot Constable Smith was discovered in the home of Mr. E. W. Kappel, southeast corner of Bay and Market streets, about 9 o'clock on Thursday night, by the constable, who at once asked several neighbors to assist him in surrounding the house. They were passing through a side alley to enter the house from the rear when they were fired upon from the rear of the house. One bullet struck Constable Smith on the side of the head, and the second hit Mr. James Hanley on the temple. Both men fell to the ground, but did not lose consciousness. When they were picked up they were able to walk to the street, and the ambulance being called they were taken to the city hospital. An X-ray operation performed on Friday showed that Constable Smith was very seriously injured, half of a bullet having penetrated the brain. The weapon used was a 38-caliber revolver.

Constable Smith's condition last night is not as favorable as the doctors had hoped for. He is suffering much pain and has to be given opiates.

With the definite statement of the police that the shooting of the constable and the murder of Miss Kinrade were not the work of the same party interest centres about the story of Miss Flossie Kinrade will ready to tell on Wednesday night, when the inquest will be proceeded with. Mr. and Mrs. Kinrade and the other members of the family, now at the Arlington Hotel, Toronto, have also been notified to attend and throw what light they can on the mystery which is hanging over the tragedy. That confident manner which has been noticeable with the detectives ever since the murder is now even more marked, and it was said in police circles last night that there will be developments more than passing interest at the sitting on Wednesday night. For the instruction of the Saturday had plans made and photographs taken of the Kinrade house.

A Doctor's Statement.

Toronto, March 8.—The Mail and Empire this morning in a despatch from Hamilton quotes Dr. E. Evans, who assisted at the Kinrade autopsy, as saying that the four bullets in the head of the dead girl had been there three minutes before the fatal shot was fired through her heart. He says is proven by the blood clots about the bullets. An eighth shot he also says was fired, passing through the victim's hair pad.

Director's Gown Unpopular.

London, March 8.—It was noticeable at the last two courts that there had been a perceptible diminution in the depth of the courtesies made to the sovereigns. The reason is that the present judicial dress does not permit the wearers to bend the knee with the same facility as more ample skirts. A slight bend is all that most women now attempt to accomplish. It is said that this rather displeases the King, who has always admired a deep, graceful courtesy. It is therefore not impossible that the directorate will become unfashionable for court wear.

THE REVIEW

MADOC, MARCH 11, 1900.

—This is a harsh world for the deposed idol. Roosevelt's train was two hours late in leaving Washington. While he was President, the railway trains used to pant to be off the moment he stepped aboard.

—Those who have been abusing the climate of Canada in the press of Great Britain should take note that while Germany was in the grip of a snowstorm and the beautiful was a foot deep in Berlin, and Washington was wrapped in a blizzard that caused the loss of several lives and compelled the holding of the Presidential inauguration ceremonies within doors, the farmers of Alberta were doing their spring ploughing in balmy weather.

—More than twenty manufacturing companies in Worcester County, Mass., employing over twelve thousand men, women, boys and girls, have enlisted their support in a campaign to stamp out tuberculosis among the working people. Each employing firm has agreed to pay the expenses of a three months' treatment at the Massachusetts State Sanatorium, at Rutland, of an employee who may be suffering from the 'white plague' in its early stages. Some of the firms have even agreed to pay to the families of such persons the wages earned by the employee who has been obliged to go to Rutland for treatment.

—The Canadian Mining Institute held its annual meeting at Montreal last week, and in receiving the various reports some remarkable facts were made public as to the mineral resources of Canada. The fact that the mineral output of the Dominion has doubled in the ten years from 1890 to 1900 is significant of what may be predicted of the coming decade. According to the figures quoted by Dr. Miller, provincial geologist for Ontario, the mineral production of Canada during the existence of the Canadian Mining Institute had increased in value from \$38,000,000 to \$87,000,000 per annum. No mining country in the world has had a larger increase than this in the same period.

Diamond Mine Near Lindsay.

Toronto Man Has Begun to Sink a Shaft on Farm.

Lindsay, March 5.—Seth Violet, of Toronto, a former resident of Lindsay, who has been on the Tracy farm, east of the town, for the past few days in search for diamonds, which he believes are to be found there, has returned home and will not return to the diamond mine until spring.

Mr. Violet and Mr. George Thomas sank a shaft three feet in the ground, but, owing to the cold weather, decided not to do anything further until spring when they will build a house and obtain the necessary machinery for the sinking of several shafts.

Mr. Violet has every confidence that he will find diamonds on the farm within six months.

Presentations and Addresses.

The following is the address to Mr. and Mrs. Cornell, referred to by our Queensboro correspondent:—

To MR. AND MRS. LUTHER CORNELL, QUEENSBORO, ONT.

DEAR FRIENDS,—It is with feelings of regret that we learn that the time has come when you are to take your departure from our midst. We take advantage of the opportunity afforded us this evening of meeting together to spend one more social evening with you and also to express our appreciation of your many admirable qualities.

Mrs. Cornell, we know from experience that you were never so engrossed with the many cares and duties of your home life but you found time to exercise the graces of kindness and hospitality.

You never turned a deaf ear to the call of distress, and the sick and suffering have had abundant cause to bless you for your unselfishness and practical sympathy.

Mr. Cornell, whilst you were industriously engaged in advancing your financial interests, you never became so self-centered in these duties as to forget the larger issues of life. That you possessed the confidence and esteem of your fellow-men is shown by their election of you to the offices of township councillor, reeve, county councillor, chairman of the county roads committee, and you were also a member of the building committee for our County House of Refuge. That you filled these offices efficiently and satisfactorily shows you to be a man of ability, having talents of no mean order.

But we would not confine our appreciation of you to mere words, therefore we ask you to accept these chairs as a token of the friendly feeling that exists towards you here. When you sit down to rest in them in the quiet evenings at the close of your day's labor in your distant prairie home, we trust that the memory of your friends and neighbors here may be a loving factor in your thoughts.

Our best wishes will accompany you to your new home, and we sincerely hope that the change you are about to make may be not only pleasant but profitable also, even beyond your most sanguine expectations.

Wishing you a long and useful career we beg to subscribe ourselves in behalf of your friends and neighbors, Yours, D. CAMPBELL, JERRY CLARKE, EUGENE JOHNSTON, MARTIN BURKETT, F. O. DIAMOND.

Queensboro, March 2nd, 1900.

The following address and presentation was made by the school children:—

TO OUR SCHOOLMATES, JOEY, SADIE, JESSIE AND CLIFFORD:—

We, your schoolmates and teacher, have asked you here this afternoon to express in a very small way our sincere regrets at your sudden departure from our midst.

We all hope you will have a happy and a prosperous life in your new home in the West, and that you may gain many new friends, but also that you will not easily forget your old schoolmates here in Ontario.

As a remembrance from us we ask you to accept these small gifts, and that they may cause you to think of us occasionally.

Signed on behalf of your schoolmates, ANNE JAMES, SADIE MOORE, JOHNNY CLARKE.

Bible Not Infallible.

Winnipeg, March 9.—Attacking the infallibility of the Bible, Dr. S. P. Rose, formerly of Ottawa, now pastor of the Broadway Methodist Church, the most aristocratic Methodist congregation of this city, contended that they proved it was not historically infallible, and ventured the assertion that, owing to his serious doubts on this matter, he at one time thought of retiring from the Christian ministry. He would have done so but for the advice of Rev. Dr. Nellie.

Negro Burned at Stake.

Rockwell, Texas, March 9.—After burning Anderson Ellis, a negro, who attempted to assault Mrs. Arthur McKinney, at a stake in the public square of this little town late Sunday night, the crowd quickly dispersed. As the flames leaped about him the man did not utter a cry nor show any symptoms of losing his nerve. Ellis had resisted arrest, firing seven shots at the posse in pursuit.

Stole Electric Light Bulbs.

New York, March 9.—Following a patient detective work covering a period of nearly two years, five men were placed under arrest here yesterday, charged with having stolen between \$20,000 and \$30,000 worth of incandescent light bulbs from the Edison company. The thefts are said to have been committed uninterruptedly since September, 1897.

Turkish Consul a Grafter.

Washington, March 9.—Three hundred thousand erstwhile Ottoman subjects, now living in the United States, have petitioned Kaisim Bey, Turkish ambassador to the United States, to urge that Munji Bey, Turkish consul in New York, be deposed, for acts termed by them "grafting," in overcharging for passports, etc.

Members attending the Grand Lodges of Orangemen and Black Knights, at Napanee next week, should ask for standard certificates in purchasing their tickets, as reduced rates will be given for return.

A Good Amendment.

Mr. J. W. Pearce, the member for North Hastings in the Legislature, is introducing a good amendment to the Assessment Act. Mr. Pearce believes that the Assessment Act discriminates against small flour mills and printing offices. The general assessment on country stores is 35 per cent., but the mills are taxed on 60 per cent. Printing offices, which he claims are a general benefit as much as stores, are taxed on 50 per cent. He is bringing in a bill to reduce both to 35 per cent.

Wedding Anniversary.

Mr. and Mrs. Alex. Milne are receiving the hearty congratulations of their friends this week, Monday, the 8th, having been the fifteenth anniversary of their wedding. On that evening a large number of guests from the village, Madoc township and Queensboro gathered at their residence in honor of the "Silver" anniversary, and a shower of linen remembrances, probably the handsomest collection of this kind in the county, was presented in town, testified to the good opinion entertained for this couple by their friends and acquaintances. The home was tastefully decorated for the occasion, red being the prevailing color scheme. A dainty supper was served, the "table of honor," at which were seated the "best couple" and relatives, being beautifully festooned with ribbon and flowers. Each lady present was presented with a beautiful souvenir, heart-shaped and hand-decorated, the handiwork of a clever artist in this line. A most enjoyable evening was spent by all present. THE REVIEW joins in extending hearty congratulations and best wishes to Mr. and Mrs. Milne, and "many happy returns of the day."

Personal Mention

Mr. and Mrs. George Ballard left on Wednesday for Napinka, Manitoba.

Mr. Frank Ballard left on Wednesday for Broad View, Sask., to join his brother Reginald.

Mr. K. Blair has secured John Brown's residence, and will move into town in a few weeks.

Miss Carrie Wellington, Cross's Milliner, has returned from the millinery openings at Toronto.

William Rankin, who made sale of a fine iron ore property in Canada, a few weeks ago, was in town last week.

Mrs. Alex. Milne who has been visiting in town for the past week, leaves on Friday afternoon for her home in Toronto.

Mr. Luther Cornell and family leaves for the west on Saturday. They will be located near Swift Current.

Mr. John Brown, blacksmith, announces that he will try his fortune in the west. He will leave on Friday in five or six weeks.

Mr. Alex. Milne returned home on Sunday morning, after his trip to Scotland. He is much improved in health, but reports a very stormy passage crossing the Atlantic.

Belleville Newspaper Man Dead.

Mr. J. E. Dempsey, formerly a newspaper man of Belleville, died in the House of Providence at Kingston. He was a Roman Catholic and about 40 years of age. He was reporter for the Sun during its existence, later on the staff of the Ontario. He served for some years as Signalling Sergeant of the 46th Regiment, also as Orderly Room Sergeant until his illness developed.

C.P.R. Connection.

Is the C.P.R. likely to come Madoc's way? Any news along this line is interesting reading to our citizens. The official announcement was made at Montreal this week, that the double track grain route from Victoria Harbor to Montreal, via Peterboro, would be partially completed by September 1st next, and the following paragraph is added, and this is where our town is interested:—

"If the section from Smith's Falls to Peterboro, covering 134 miles, is not double tracked, it will certainly be very much improved by changing the grades and curves so that the C.P.R. will have practically a level road all the way to Victoria Harbor."

Don't Keep Them.

If you are superstitious about the number 13, you ought not to carry in your pocket or use in any way an American quarter dollar. Do you happen to have one about you now? If so, take it out and see how it seems with 13s. For instance: It has 13 stars, 13 letters in the scroll in the eagle's neck, 13 feathers in the eagle's tail, 13 parallel bars in the shield, 13 horizontal stripes, 13 leaves on the olive branch, 13 arrow heads and 13 letters in the words "quarter dollar." THE REVIEW, however, is a proof against superstition, so that if your subscription is in arrears, and you have four of these unlucky "bits" of which you desire to relieve yourself, we will gladly accept them for a year's subscription.

Attempted Suicide.

Arthur Cronk, a young man about town, made an attempt to end his life on Tuesday afternoon. He purchased 10 grains of strychnine at Alex. Anderson's drug store saying he wanted it to poison rats, and then went to the St. Lawrence Hall, and putting the poison in a glass of water, he told some parties of his intention, but before he could carry out his design the contents of the glass was spilled on the floor. That he was evidently in earnest would seem from the fact that he got hold of the glass and drained the contents, and even tried to lap up the spilled liquid from the floor. He maintained that he would yet make away with himself, and the matter has been reported to the County Crown Attorney. The penalty for attempting suicide is two years in the penitentiary.

Old Boys' Re-Union.

In response to the call of Reeve Harper, a number of leading citizens met on Tuesday evening to discuss the advisability of holding an "Old Boys' Re-union" in Madoc this coming summer. The matter was discussed in all its bearings, but it was deemed sufficient information was not at hand to warrant decisive action, and the following gentlemen were named as a Special Committee to thoroughly investigate probable cost and the chances for carrying it to a successful issue until another year:—Reeve Harper, J. C. Dale, F. Cottle, J. R. Carr, Frank Aylsworth, C. D. Macdonald and Rev. C. J. Young. The "Scottish Clans" will have a big day in Madoc in August, and the question will be whether we can stand two big days, or if the two organizations can be worked together for a three days carnival. The committee will get information and report in a week or two.

Indigestion

Stomach trouble is but a symptom of, and not
in itself a true disease. We think of dyspepsia,
Heartburn, and Indigestion as real diseases, and
they are symptoms only of a certain condition
of the stomach—**indigestion**.
It was this fact that first correctly led Dr. Shoop
to the creation of that now very popular medicine,
Dr. Shoop's Restorative. Going directly
to the stomach, it not only relieves the pain and
discomfort, but it also restores the stomach to its
normal condition. It is a powerful stomachic,
and for stomach distress, flatulence, indigestion,
loss of appetite, and all other ailments of the
stomach, it is a sure and reliable remedy. It is
a health-giving tonic, and will do you good
in all cases of indigestion. We sell and dispense
it all over the world.

Pete's Babette.

By ISOLA L. FORRESTER.

There had always been Pete. At
least so the people down at St. Michel
said when a stranger would ask where
he had come from. Even before the
government had built the lighthouse on
Presque Isle Pete's fishing boat had
been there, and every night he had
hung out his lantern on the end of a
pole so that the boats rounding the
point a mile or two below would see its
flicker and steer clear of the long
sand bar that ran out like an ant's
nose from the northern corner of
Presque Isle.

Everybody along the strait knew the
quaint old figure, but no one knew of
Babette until they saw her one morn-
ing fluttering along behind Pete, her
red calico dress the one bright spot of
color among the grays and browns of
Presque Isle. The day before Pete had
been rowing over to the Mackinac
shore, but no one knew of his return
except Mere M'rie, and she was so old
and deaf that all she could do was
cook Pete's fish and sit out in the sun-
shine all day smoking in the kitchen
doorway.

When Landry Dubois, from Algonac
Island, asked the question direct of
Pete, as far as St. Ignace and even
eyes, deep set in the small brown face,
watching Babette build houses with
the red bark chips around the light-
house steps.

"She has no one but me," he said,
with a dubious shrug of his thin,
stooped shoulders. "Babette, who art
thou, petite?"

Babette stopped playing long enough
to flash a merry glance at him under
the shelter of her thick brown hair.
"Pete's Babette," she laughed.

And so, all through the isles of the
strait, as far as St. Ignace and even
down to Mackinac, she was known as
Pete's Babette. Pete taught her all
manner of wonderful things in fish-
ing and ship craft, and before long she
knew all the boats that passed by
Presque Isle, from the great iron kings
and grates bound for Buffalo to the
gay little yachts that fluttered like
white butterflies here and there. But,
best of all, she loved the schooners,
the old monarchs of the lake, when
they came sailing up the strait on a
still summer's eve, like wondrous
phantom ships, with the glory of the
sunset behind them, and she called them
Babette's birds.

And the years passed by, ten of
them, slow and sure and steady, one
by one, as the wild geese fly to the
southland, and each one left Pete
browner and more wrinkled and
smaller, while Babette grew up tall
and slender and strong as a young
pine tree, with hair and eyes brown
as oak leaves. Then came the ter-
rible winter of 1894, when boat after
boat went out on the lakes and no
more was heard from them until
spring waves brought in the wreck.
It was cold at the little, low
house back of the lighthouse on
Presque Isle, colder than even Pete
could remember, and every week it
was harder for him to row down to
St. Michel for provisions.

One night he came home half frozen
and with a dreadful cold. Babette
sent him to bed and said he should go
no more. They must make what food
they had last until warmer weather.
But instead of sunshine and fair seas
the clouds swept low and gray like
gulls before a storm, and the waves
came rolling in, with a deep, heavy
swell that sent a dull, threatening
roar, as they broke, up to the light-
house. And here and there in the
dark green waters could be seen some-
thing else, a clumsy, swaying mass
that glinted blue white.

"The ice has come," Babette thought
when she saw it from the lighthouse
window the morning after. The wind
trimmered the lamp, and there was a
queer ache in her heart as she looked
off down the strait and thought of
how her birds would have to battle
with it, should she not tell Pete.

It was three days later when Mere
M'rie showed her the empty meal box.
She smiled. There were still bacon
and rice and dried fish. There was
rich. At the end of the week there
was no bacon, and they had saved the
last of the rice for Pete, who lay on
the old lounge near the stove cough-
ing, coughing all the time.

The following day Pete was delirious.
Babette stood in the old kitchen,
looking from the flushed, wrinkled
face on the pillow to where Mere
M'rie knelt over by the stove praying.
The provisions were gone. There was
no medicine.

Babette took the fur jacket from its
nail. Before she went out of the kitchen
she leaned over the old half breed
woman's bent form. "Why St. Michel,"
she said slowly, pointing eastward, and
then at the empty meal sack and four
bags thrown in a corner. Mere M'rie
understood and stopped her praying,
erect young figure, pale as the light
from the wind blowing the ends of her hair
backward over her shoulders like red
wings.

Her hands worked quickly over the
last of the boat, and taking advantage
of a momentary lull, she pushed
away from the small, tumbled down
dock and struck out bravely for St. Mi-
chel. She had often been out with
Pete when the waves were as high as
now, and she knew the excitement of what
it all. The low, flat shore of Presque

Isle vanished entirely behind the wall
of waters, but she could catch a
glimpse of the dear old lighthouse and
its round top above the tallest wave,
and the slight strengthened and nerved
her for the five mile journey to St.
Michel.

Suddenly, when scarcely half a mile
out, the boat seemed to strike a new
current. Babette caught her breath
sharply as she felt the strong, resist-
less power sweep her from her course,
and she bent over the oars with set,
close lips and tense muscles, but it
was useless. The deep, swelling rush
of waters carried her northward,
straight on to the middle channel of
the strait. The wind had come up
again and raged over the lake like a
wild beast. Then, without warning,
there rose before her the jagged, cruel
line of the ice floe, and the next mo-
ment the waves had thrown the boat
as if it had been a leaf full upon it.
Instinctively Babette had risen at that
last awful instant. As the boat crash-
ed into the ice with a shock that made
it leap and tremble she sprang for-
ward and gained a footing on the ice
floe, a slight, perilous one, to be sure,
but one that meant safety, for the mo-
ment at least.

Already the little boat had disap-
peared in the whirlpool of dashing wa-
ters, and Babette's heart beat fast as
she looked about her on her new craft.
It was large. It seemed as large as
Presque Isle itself, and at first it ap-
peared stationary. But when she had
reached its center she could feel the
slow, steady motion as it swept on to-
ward Lake Huron.

And now came the division of the
channel, and Babette's heart almost
stopped at the frightened beating as she
thought of what would happen if the
ice drifted north of Algonac Island
and out on the great, pitiless waters of
the lake.

With hushed breath she waited. The
floe was heaving so that she could
hardly retain her balance, but at last the
pale crests of Algonac showed on her
left, and she knew she would pass St.
Michel. With fingers stiffened by the
cold, she untied the red scarf from
about her head and let the wind blow
it like a danger signal above her as
she caught a glimpse of the lighthouse
on the west pier. So near it seemed
she placed her hand to her mouth and
shouted, but her voice sounded like a
reedbird's pipe in the noise of the
rushing waters.

She was opposite the town now. She
could see the waves break on the pier,
and yet there was no sign of help.
With a fearfulness born of despera-
tion she struggled to her feet and
waved the scarf wildly, and suddenly
a figure appeared on the lighthouse
ladder. Again she waved and tried to
call. The figure signaled back and ran
along the pier toward town.

It was Landry Dubois. He burst into
the warm back room at old Mme. Por-
teau's breathless and hatless.
"It is Pete's Babette!" he cried to the
crowd of fishermen and sailors bud-
died about the big wood stove. "She
is on the ice, drifting out to the lake!"

In five minutes the news had spread,
and the shore was crowded, while
the strongest boat in the place was
sent forth to the rescue. Landry, the
stout arms pulled away to the
rescue of Pete's Babette. And when
they brought her back half frozen
and half dead and gave her into Mme.
Porteau's care she told her errand in
the warm back room—told how Pete
lay dying without food or medicine
and how unless help was sent there
would be no light shining from
Presque Isle that night.

"The light shall shine," promised
Landry, and the waves that had
laughed at Babette's little boat bowed
before the masterful stroke of ten
pairs of St. Michel's strongest arms as
they manned the boat that bore Ba-
bette and provisions and medicine
back to Presque Isle.

"Thou hast saved his life, little one,"
said Landry when they stood in the
kitchen where Mere M'rie still prayed.
But Babette only smiled and nodded
her head, and she went on to the light-
house.

The winter twilight was falling
swiftly, and the wind had gone down
like one tired with its mad play. Far
to the west she could see a boat strug-
gling slowly up the strait, its lights
glinting now and then like jewels.
She lit the lamp with fingers that
trembled, and the broad path of light
streaked out over the point. Babette's
birds could fly in safety tonight, and
below Landry Dubois held aloft a red
scarf and told its story, even as it is
told today around the islands of the
strait—the story of Pete's Babette.

Chemical Aid to Medicine.

Chemistry may be of use to medi-
cine in at least three quite different
ways. One of these is concerned with
finding out what things are made of.
This kind of chemistry is called analyt-
ical chemistry. Another way in
which chemistry can help medicine de-
pends upon the ability of the modern
chemist not only to find out what the
things are made of, but also to dis-
cover how the parts are put together.
This kind of chemistry is called struc-
tural chemistry because it has to do
not only with the materials, but
also with the way in which these ma-
terials are arranged. Yet another
method of helplessness comes from a
still more recent development of chem-
istry, commonly called physical chem-
istry, which deals with the phenomena
lying on the border line between phys-
ics and chemistry, especially that part
of the border line concerning the rela-
tion of energy to matter. The phys-
ical chemist must know not only what
things are made of and how these ele-
ments are put together, but also what
energy is concerned in putting them
together and what energy is set free
when they are decomposed.—Theodore
Richards in Atlantic.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

Probably the most that the
world is that there are so many peo-
ple in it that just can't help it.

It does not
follow that a
girl is able to
accomplish any-
thing just be-
cause she is an
accomplished
lady.

A really clever
woman doesn't
let the careless
public find out
that an unfeel-
ing critic might
call her homely.

Some men take themselves so seri-
ously that one would think that they
are serving as prime minister to the
Lord.

Opportunity knocks once, but your
tried and true friends knock all the
time.

Sometimes it is hard to distinguish
by results between a careless friend
and a careful enemy.

If you are determined to do others,
do them so kindly and gently that
they will be bound to thank you for
your courtesy.

A resolute man is often found to be
remarkably shy on resolutions.

In Prospect.
Good gracious, I hope that the year just
ahead will be an improvement on those that
have fled.

Less labor, more play.
Additional pay.
With steady persistence things coming
my way.

A measure of health,
Consignments of wealth
And blessed surprises that come on by
stealth.

Small aid it may bring to my fortunes
to kick
Or flaws in the scheme of creation to
pick.

No good it would do
A napkin to chew
Or with my complaints make the atmos-
phere blue.

I know that for me
The worst cannot be,
For things would be better with any
change. See?

I'll just peg along, let whatever may
come.
For, be it a fortune or be it a crumb,
Full well I will know
I cannot o'erthrow
The causes that make things go faster or
slow.

So all I can do
Is calmly pursue
My way, let the favors be many or few.

Business Proposition.

"Another lie nelled," remarked the
observant small boy.
Don't just at the conclusion that
there was a heated controversy follow-
ed by roughness and such distressing
things. Nothing of the sort. The gro-
cery man had simply tacked up a sign
announcing that his eggs were strictly
fresh.

Higher Authority.

"I suppose your wife is boss at your
house."
"Not any more."
"Then you have asserted your au-
thority?"
"No; we have got a hired girl."

Way to Get Solid.

"I am going to heap coils of fire on
his head."
"I know a better way."
"How is that?"
"Dump a ton of coal in his base-
ment."

Abbreviated.

"Nobody seems to be able to do any-
thing with Susan."
"She is wild as an Indian."
"That is why they call her Sioux per-
haps."

Know Better.

We eye him with suspicion,
Accept it with a string.
The man who shovels snow and says
He likes that sort of thing.

LOOK TO PROTECTION

Britons Are Showing a Tendency to Tariff Revision.

Strong Movement in Mother Country Against Free Trade Is in Evidence—Preference For Colonies and Duty on Foreign Goods Is Part of Program—Fight Is Approaching a Crisis—Expect Election Soon.

New York, March 8.—The Tribune London correspondent cables: There is the strongest prima facie evidence that the English people are ripe for a general revolt against free trade. Tariff reform has made continuous progress since the last general election, and the struggle is likely to culminate in the establishment of a revenue tariff, with preference for the colonies and maximum and minimum schedules for foreign countries. The trend of the by-elections is in the direction of tariffs of this nature, and Mr. Balfour's return to power is confidently expected this year or the year after.

British Conservatives, having committed themselves to a definite policy, have their own work cut out for them and it cannot be neglected when they return to power.

The moral drawn from the elections in Scotland and the Manchester Guardian, the most consistent organ of Liberalism, is that protection is commanding the support of an increasing proportion of the rising generation of voters, whose sympathy is excited by the idea of self-sufficiency for the cause of imperial unity and whose blood is stirred by the cry, "Let us tax the foreigner." This is followed by the confession that the Liberals must labor sleeplessly for the defence of free trade by scattering tracts among the masses and by ceaseless platform activity, since the tariff reform candidates are already taking themselves hoarse in a systematic campaign of education. The country is likely to have as much economic discussion as it can stomach.

While there is nothing in the by-elections to encourage the Unionists to appeal to the country, many Unionists assert that a general election will come in the course of a few months, either from the rejection of the budget by the House of Lords or from the Prime Minister's deliberate act in riding for a fall when he has forced the privileged House to challenge the taxing powers of the Commons. This opinion is not shared by those in Mr. Asquith's confidence. They are emphatic in declaring that there will not be a general election this year, accidents being barred. An accident has been possible over the naval estimates, but the risk has been minimized by the specious compromise arranged by the Admiralty, with the help of Sir John Fisher, by which the two-nation standard is nominally preserved and the Radical economist is dexterously played off against the Winston Churchill remains the most pushful and restless member of the Cabinet. His veiled threat of retaliation against France has brought upon him the sarcastic comment that he has left a bridge behind him for a retreat to the Unionist party.

Clergyman Expelled.
London, March 8.—With impressive rites the decree deposing from holy orders the Rev. J. Hugh Smyth-Pigott, the Church of England clergyman who has been posing as the Messiah, was pronounced by the Bishop of Bath and Wells in Wells Cathedral Saturday. Smyth-Pigott was not present.

Smyth-Pigott has been for years the head of a notorious religious community that occupies an establishment known as Agapemone, or the Abode of Love, in Somersetshire, England. His followers worship him, and he teaches that the ordinary rules of morality are not binding upon those to whom spiritual light has been given. He was tried last January before an ecclesiastical court at Wells Cathedral and found guilty of immorality. His expulsion from the church was decreed.

Indictment Against C.P.R.
Detroit, Mich., March 8.—A Washington despatch says the division of prosecutions of the interstate commerce commission was notified yesterday that an indictment containing 21 counts had been found in the District of Vermont against the Canadian Pacific Railway and an indictment containing the same number of counts against the Quaker Oats Co. The Canadian Pacific is charged with giving transportation of certain stocks food and other grain products from Richmond, Vt., to Boston, Mass., and nearby points free of charge. The recipient of these favors is alleged to have been the Quaker Oats Co.

Ottawa Scouts.
Ottawa, March 8.—The winter scouting competition between an Ottawa team and the 4th Regiment of Brockville, which started at 7 o'clock Saturday morning, concluded near Kempenville at 9 o'clock Sunday morning.

They had got about midway between Prescott and Ottawa when the Ottawa scouts, in their snowshoes, sighted the enemy first and shot them up.

In the matter of points Ottawa got 67 and Brockville 33. Both sides enjoyed the novel feature and the night vivouage in winter. In the autumn the experiment will be repeated upon a much larger scale.

To Try 384 Russian Looters.
St. Petersburg, March 8.—Proceedings have just begun in the high court of Moscow which involve the largest conspiracy trial on record. Three hundred and eighty-four persons are charged with belonging to a criminal organization, the object of which was the stealing of merchandise on Russian railroads.

Between 1905 and 1907, during the worst period of the revolutionary disorders, over \$17,000,000 worth of property was stolen on two railroads alone.

Million For Crossings.

Ottawa, March 9.—Mr. Graham's promised bill to provide for the protection of the public at level crossings, to apportion the cost between the federal, provincial and municipal authorities. He has given notice of a resolution to set apart a million dollars to be expended in five years for this purpose.

The resolution says: "That it is expedient to provide that the sum of \$200,000 each year for five consecutive years from April 1, 1907, be appropriated in the consolidated fund for the purpose of aiding in the providing of protection, safety and convenience for the public at existing highway crossings of railways at rail level, and that the sums be placed to the credit of a special account to be known as the railway level crossing fund and be applied under the authority of the board of railway commissioners for Canada."

"All Red" Wouldn't Pay.

London, March 9.—(C.A.P. Cable.)—The Glasgow Herald says there is a good deal of misplaced sentiment in the demands, such as they are, for the boarding school boys to wear red. The dominating question is, will it pay? And the answer must be, no.

Referring to the proposed external department for Canada, The Herald thinks in theory this sounds ominous of discussion and disruption, but in fact is doubtful of it. The new scheme means very much.

There seems to be very little in Canada should not take more direct interest in the settlement of her frontier difficulties with the United States.

Voters' Lists Not Stuffed.

Winnipeg, March 9.—The report of the committee appointed to investigate the charges against the Manitoba election lists has been received. The report states that the statements of Sir Wilfrid Laurier and Hon. Clifford Sifton that the lists were stuffed were absolutely unfounded. A few cases where names were left off were discovered, but in every case it was shown that it was purely an error.

Elevator Fell.

Brantford, March 9.—Compressed air compartment at the foot of a four-story elevator shaft saved the life of John Van Camp at the Massey-Harris works yesterday. NEW WELLAND CANAL

Engineer Proposes Plan to Save Millions of Dollars.

Hon. G. P. Graham's Hint in Commons Is Followed Up by Scheme of Expert to Dam Up Welland River and Make It Part of the System—Flooding of Land Is Serious Objection to Proposition.

Niagara Falls, Ont., March 8.—As an alternate route for part of the proposed canal, the project suggested by Hon. G. P. Graham, on Friday, J. C. Gardner, B.A., Sc. A.M.C., Soc. E.L., formerly engineer to the Government of Ontario, consulting engineer to several large American companies, has outlined a scheme which, if adopted by the Government, will save millions of dollars.

It is to build a dam in the Welland river near its mouth, to Lyon's Creek just outside Chippewa, and to construct a canal a few miles long from the dam to Slater's Point, the dam to raise water in the Welland river ten feet to the level of the Welland Canal, making the Welland river part of the canal system.

Mr. Gardner has spent several months studying the project and a wealth of data and details of his plans testify to both thoroughness and extent of work.

The Welland Canal intersects the Welland river at Welland and is carried across the river by a stone aqueduct.

The level of the water in the canal down to the first lock at Thorold is at the same elevation as the water in Lake Erie.

The Welland Canal has cost twenty-eight and a half millions and the enlargement proposed by the Government will cost thirty millions.

The section between Port Robinson and Port Colborne is one of the hardest parts of the work, including heavy earth cuts and three million yards of rock to be excavated. The cost of this section would probably be three millions.

Gardner says that by making the Welland river part of the canal system, vessels drawing over fourteen feet will leave the proposed new canal at or near Port Robinson and entering the Welland river, proceed to a point near the proposed dam and be lowered by the new canal leading to Slater's Point on the Niagara river. The new canal would pass through land, the average elevation of which is twelve feet above the surface of the water in the Niagara river, and the enormous expense of enlarging the present Welland Canal between Port Robinson and Lake Erie would be avoided.

Of course, all the low land along the Welland river would be flooded by raising the water ten feet and this is the only great objection to the scheme. A generous estimate places the value of the land at one million dollars, and this outlay would be more than neutralized by the increased value of adjoining lands and shipping facilities, which would be created along the new Welland river for twenty miles inland from the proposed dam, besides the saving of millions of dollars which would be expended by the Government on their scheme.

Gardner estimates the total cost of his plan at two million dollars.

Teacher Burned at North Bay.

North Bay, March 8.—Miss Beauland, dressmaker of the kindergarten department of the public schools here, met with an unfortunate accident Saturday night while preparing to make tea on a spirit lamp in her boarding house. The alcohol blazed up suddenly from an overflow in filling and the young lady tried to smother the flames with her skirts. Her rushing to the fire. A gentleman boarder took her in his arms and ran out of the house, where she smothered the flames in the snow, but not before Miss Beauland's hands were burned from the waist down. Her condition is critical, and her father, Rev. Canon Cody of Vancouver, has been notified.

Murdered His Sweetheart.

Medford, N.J., March 8.—Guy Razor was found guilty of manslaughter late Saturday by the jury trying him for the murder of his sweetheart, Orie Lee, Oct. 8. He was sentenced to the penitentiary. He and the young girl were friends from childhood and were engaged to be married. The wedding had been postponed several times. When Miss Lee's body was found it was found that she was in a delicate condition.

Keep the Kidneys Well.

HEALTH SAVING EXPLAINED BY A MADOC CITIZEN WHO KNOWS FROM EXPERIENCE.

Many Madoc people take their lives in their hands by neglecting the kidneys when they know these organs need help.

Sick kidneys are responsible for a great amount of suffering and ill health.

The reason so many use Booth's Kidney Pills is their quick relief for all kidney weakness. Here is what a Madoc citizen says:—

Thomas A. Emerson of Crookston, Minn., says: "We have used Booth's Kidney Pills in the house for some time past and always with the same quick satisfactory results. Mrs. Emerson has suffered with backache for some years and although she had used many prescriptions she was unable to find the desired relief. Headaches were frequent and often she would suffer with languid, dizziness and spells of weakness. Booth's Kidney Pills, obtained at Mr. Alexander's Pharmacy, have entirely eliminated all these painful and annoying symptoms of kidney disorders and has well done a world of good for the children."

Glad It Did so Much Good.

DRUGGISTS HEAR MUCH PRAISE FOR A SIMPLE HOME-MADE MIXTURE.

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing rheumatism and kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture has a peculiar tonic effect upon the kidneys; cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming rheumatism, bladder and urinary troubles in a short while.

A druggist here who has hundreds of calls for this ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have urinary and kidney trouble and suffer with rheumatism.

All the druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood cleansing agent or system tonic known, and certainly none more harmless or simple to use.

THE KEY OF TEBALDO

Curious Messenger of Death Invented by an Italian.

TRAGIC LEGEND OF VENICE.

Unique Weapon With Which the Man of Mystery and Murder Bought to Slay His Way to the Hand of the Woman He Loved.

The chronicles of Venice tell that in the earlier part of the seventeenth century a certain stranger, a man of dark and sinister aspect, arrived in the city. His name was Tebaldo. He appears to have been a man of unruly passions, of great intellectual power, but one whose talents found their chief outlet in crime.

One day he observed a beautiful girl leaving church, attended in a manner which showed she belonged to a family of high degree. She was, in fact, the daughter of an ancient and noble house. He fell violently in love with her. Though far removed from him in station, his blind passion took no count of this fact, and he determined to sue for her hand.

There proved to be, however, a more insuperable obstacle to his suit. The girl was already betrothed to another, a young nobleman of almost equal rank and fortune.

The knowledge did not deter Tebaldo, who boldly presented himself before the girl's parents in the capacity of a suitor for her hand. As might have been expected, he met with a curt and unceremonious rebuff. The repulse rankled in his mind. Enraged by the measure, he shut himself up in his own house and there secretly studied a means of revenge. Profoundly skilled in the mechanical arts, he allowed himself no rest until he had invented a most formidable and death dealing weapon. This was a large key, the handle of which was constructed of that it could be turned at will. When it was thus turned a secret spring was disclosed, which, on being pressed, launched from the key head a fine needle or lancet. The latter was of such delicate construction that it penetrated the body of the victim and buried itself deep in the flesh without leaving any external trace.

The marriage of the betrothed couple was fixed to take place in the principal church in Venice on a certain day. Before the ceremony Tebaldo, cunningly disguised, stationed himself at the church door armed with his diabolical weapon. As the bridegroom was about to enter the building the concealed watcher pressed the spring and sent the deadly steel lancet into the breast of his victim. The young nobleman had no suspicion of injury at the moment. In the midst of the ceremony, however, he was seized with a sharp spasm of pain and sank fainting on the steps of the altar. He was hurriedly conveyed to his home, where the leading Venice physicians were summoned to attend him. In spite of their unremitting efforts he sank and died, nor were they able to discover the nature of the mysterious and fatal seizure.

With the rumor of his rival, Tebaldo once more presented himself before the girl's parents and renewed his request for her hand. Their refusal to listen to him sealed their doom. In what manner he accomplished it is not known, but within a few days both had been done to death in the same manner as the youthful nobleman.

The exalted rank of the victims created a profound sensation, and when, on examination of the bodies, a fine steel instrument was found in the flesh there became universal. The citizens feared for their lives. The utmost vigilance was exercised on the part of the authorities, but as yet no suspicion fell upon Tebaldo.

The bereaved girl retired to a convent, where she passed the first months of mourning in sorrowful seclusion. Tebaldo, however, sought her out in her retreat and begged to speak to her through the grating.

His dark eyes had always been displeasing to her, but since the death of her betrothed and parents it had become repulsive. When, therefore, in the course of the interview he pressed her to fly with him he met with an instant and indignant refusal. Her scorn stung him to the heart. Beside himself with rage, he brought his deadly weapon once more into play and succeeded in wounding the girl through the grating, the obscurity of the place preventing his action from being observed.

On her return to her room the girl felt a sharp pain in her breast. Examination of the spot showed that it was dotted with a single drop of blood. Physicians were hastily summoned. Taught by past experience, they wasted no time in vain conjecture, but cut into the flesh and extracted the slender steel, thus saving the girl's life.

The dastardly attempt occasioned a public outcry. The visit of Tebaldo to the convent became known and caused suspicion to turn upon him. The emissaries of the law descended suddenly upon him, his house was searched, and there the abominable invention was discovered. Swift justice followed, and he ended his days upon the scaffold.

The key is still preserved in the arsenal at Venice—Chambers' Journal.

WOMEN ARE WOMEN.

A Rather Roundabout Way to Prove the Proposition.

Men say women are angels; women say women are cats. Let us pause a moment and reason upon this thing. If women are angels—however, that does not seem to be the proper starting point. Let us try again.

If angels are cats—but, no; that is hardly reasonable, for angels have wings, and cats do not fly. We must begin again.

If women are cats—but that isn't possible, for cats do not talk, and how could a dumb animal express an opinion in words of a woman? Whatever cats may think, they never say a word about a woman, while women—well, women are not cats.

Now let us return to the first proposition.

If women are angels, they wouldn't say women are cats. Angels don't talk that way.

Once upon a time a man married a woman. He said she was an angel; the woman said she was a cat. Happily man, not to know the difference between an angel and a cat!

Men say women are angels, and by this token women say angels are cats. Therefore, angels being cats, cats must be angels, and both being the same, women are women.

Which is precisely what they are—W. J. Lampton in Lippincott's.

NEW MEXICO.

How That Portion of Northern New Spain Got Its Name.

The country now called Mexico was not so called till 1810, when the revolt against Spain began. Up to independence the country was called New Spain and was divided into the same number of provinces as Spain, each with a name of a province in Spain, with the prefix of "nuevo," a new Mexico, another Mexico, meaning that he had found another town like the City of Mexico, and thereafter all this portion of northern New Spain was known as "Nueva Mexico"—that is, New Mexico—which name it has retained, though now much reduced in extent.—Las Vegas Optic.

Muskats For Meat.

Of all animals that supply meat to man the muskrat has been the most abused and the least understood, says the Baltimore Star. Its name had bred in the public mind a prejudice that has been almost unconquerable, but truth will prevail in spite of fate. As a fact the muskrat is one of the neatest and most delightful of animals. It is a crank in cleanliness. It dines with the whitest and tenderest morsels. And its flesh has qualities that can be compared only to terrapin. Indeed, there are good people along the Chesapeake, where all the best things live and grow, who find in the well served muskrat satisfaction that is equal to the diamondback. Only the ignorant and the prejudiced think differently, and they may be educated.

Ripening Bananas.

It is a familiar fact that bananas are imported green, but it came as a new thing to a visitor to the banana district in Colombia to find that bananas are not permitted to ripen on the plant even down there. They are cut and set to hang somewhere until they wither ripe, as the phrase is. Bananas do not have to be yellow to be ripe. That is only the color of the skin when it has dried up. To the person who is accustomed to eating bananas only when they are yellow it seems odd to peel them when they are green and find that they are perfectly ripe within and fit to eat.

The Prisoner's Retort.

It is a prison chaplain's duty to give a departing prisoner good advice and to exhort him to be a decent and honorable man in the future. In the course of one of these interviews a chaplain said, "Now, my friend, I hope you'll never have to come back to a place like this."

The prisoner looked at him thoughtfully and then asked, "say, chaplain, you draw a salary here, don't you?" When the chaplain replied in the affirmative the prisoner remarked, "Well, say, if me and the other fellows didn't keep coming back you'd be out of a job."

Didn't Need a Doctor.

"Let me kiss those tears away!" he begged tenderly. She fell in his arms, and he was busy for the next few minutes. And yet the tears flowed on. "Are you suffering? Can nothing stop them?" he asked, breathlessly said. "No," she murmured. "It's only a cold, you know. But go on with the treatment."

LUNATIC IS SUSPECTED

Theory of Kinrade Case Points to Homicidal Maniac.

Preparations Are Now Complete and Evidence Is Said to Be Directed Toward Someone Who Knew Dead Girl and Suffered From Insanity—Tramp Theory of Crime Has Been Given Up by Authorities.

Hamilton, March 9.—The City Council last evening approved of the action of Mayor McLaren in offering a reward of \$500 for the capture of Miss Ethel Kinrade's murderer.

George Tate Blackstock, K.C., will likely conduct the examination of Miss Florence Kinrade at the inquest Wednesday evening. The police intimate that they do not expect any developments until after the inquest.

The police theory seems to be: (1) That Miss Florence Kinrade's memory cannot be trusted for any effective help in solving the mystery.

(2) That a considerable time must have elapsed between the firing of the first shot and the giving of the alarm. (3) That no casual tramp or house breaker would stand over the body, waiting to see if life remained. The inference is almost inevitable that the murderer knew that he or she would be recognized by Ethel Kinrade should she recover.

The statement which, it is said, Dr. Baile and Edgar will make at the inquest to-morrow, is to the effect that, as shown by the flow of blood, fully 15 minutes must have elapsed between the shots fired in the face and those which were discharged into the girl's breast.

Dr. Victor Carmichael, who assisted Dr. Baile at the postmortem, says he will defy anyone who says that any great time elapsed between the firing of the shots.

Estimates are now given that eight bullets were used.

Speaking generally, the evidence to be presented will point to a resident of Hamilton, whose actions have at times indicated a form of insanity which frequently results in homicide. If in seeking a solution of the mystery the detectives have had to look elsewhere than right in the city of Hamilton, the evidence needed has been sought in but three other places, Buffalo, Norfolk, Va., and Toronto.

Dr. Baile, in a particular way, is calling in the help of Provincial Detectives Greer and Rogers, who worked elsewhere while Provincial Detective Miller has been working on the Hamilton and Toronto ends since the tragedy.

Liberals Gain Lead.

Edmonton, Alberta, March 9.—With nomination day just one week off, Liberals still hold the advantage in the large number of candidates in the field.

There has up till yesterday been 34 Liberals nominated and 25 Conservatives. There are also 35 Socialists and Independents who have announced their intention of entering the contest. Present indications are that four or five seats will be given to the Liberals by proclamation. One seat in Edmonton has already been conceded and it is probable that LaCombe, Sturgeon, Victoria and Sedgewick, will also go by the boards.

Marine Association Protest.

Ottawa, March 9.—A deputation representing the Dominion Marine Association waited on Sir Wilfrid Laurier and Hon. Messrs. Graham and Pugsley yesterday morning to protest against the proposed scheme of a New York company to dam the Long Sault Rapids in the St. Lawrence river for power purposes.

Transvaal Gets Access to Sea.

Durban, South Africa, March 9.—The Natal Mercury announces that an arrangement was signed at Johannesburg on Friday under which Great Britain and the Transvaal, through the Marquess Railway and port, as part of the Union Railway system, thus giving the Transvaal direct access to the sea.

Shoots Sister's Abductor.

Chicago, March 9.—Frank Serino was shot and killed because, a week ago, according to his slayer, he held a revolver to the head of Mrs. Josie Fresno, 19 years old, a bride of ten days, and forced her to elope with him to New York City. Serino's slayer was the brother of Mrs. Fresno.

Aeronauts Nearly Drown.

Antwerp, March 9.—Henri Leblanc and Louis Dupont, French aeronauts, had a narrow escape from death by drowning yesterday while crossing the River Scheldt in a balloon. Their balloon fell into the water, and the two men were forced to climb into the rigging.

Seeks Lassies For Canada.

Winnipeg, March 9.—With \$5,000 in her keeping, provided by farmers in the west, Mrs. Helen Sanford, superintendent of the Girls' Home of Wellesboro, left the city Saturday for Scotland, where she will secure one hundred girls to work in Canada.

Barrister In Trouble.

Edmonton, March 9.—Application was made in the Supreme Court yesterday to have William Laurie of Cardston suspended as a barrister for retaining unlawfully the money of Vancouver clients. Judgment was reserved.

Incendy in Postoffice.

Truro, N.S., March 9.—Sunday night in Truro postoffice three distinct fires were found in the basement by an employee who smelled smoke, and going to the basement observed the fire among the paper near a stairway.

Powder Mills Blow Up.

Wilmington, Del., March 9.—One man was killed and several were slightly injured yesterday by an explosion which destroyed two paper mills. The country for miles around was shaken.

Deaths Caused by Accident.

Verdict of the Coroner's Jury in the Late Mine Explosion Case.

The adjourned inquest held by Coroner Dr. Harper to enquire into the cause of the lamentable death of D. Phillips and F. Alore at the Vankleek mine, on the 15th inst., was concluded on Friday of last week. A full and searching enquiry was made by the following jury:

E. S. Allen—Foreman.
Alex. Glover.
Chas. Thompson.
C. W. Reid.
George Love.
J. Delyea.
D. McKinnon.
F. O. Diamond.
E. J. Thompson.
Alex. Howe.
Wm. Wilkinson.
W. H. Bailey.
Walter Grav.
John Lynn.
Eugene Johnston.

After visiting the scene of the explosion, and getting all the information possible, the jury found that the cause of the explosion was undoubtedly as given in these columns last week—negligence and carelessness on the part of the workmen in drilling in a hole that they were not absolutely certain that the previous charge had properly exploded. The jury brought in the following

VERDICT.

"That Daniel Phillips came to his death on Friday, March, 5th inst., in the shaft of the mine owned under option by the James Mining Co., lot 24, in the 11th concession of Madoc township, County of Hastings. We find that his death was caused by an accidental explosion, and no blame can be attached to anyone connected with the mine.

"We also strongly recommend that regulations be added to the Mining Act prohibiting drilling in old holes."

McCAW-LOVE.—A pretty wedding took place at 7.30 p. m. on Wednesday March 3rd, at the home of Mr. Irwin Love, when his youngest daughter Lena Viola was united in the holy bonds of matrimony to Andrew Graham McCaw. To the strains of the wedding march played by Miss Lydia Love, the bride entered the parlor leaning on the arm of her father, and carried a bouquet of carnations. The bride looked charming in a gown of white silk with chiffon trimmings. Miss Lydia McCaw sister of the groom acted as bridesmaid and looked pretty in a dress of white dotted muslin with insertion and lace, while Mr. Fred McGehe, of Stirling, supported the groom. The ceremony was performed by the Rev. H. Thomas, under an arch of evergreens and roses. After the usual congratulations about fifty repaired to the dining-room, where a sumptuous repast was served. The many beautiful presents testified to the popularity of the young couple. The groom's gift to the bride was a handsome sable ruff, to the bridesmaid a crescent brooch set with pearls, to the groomsmen a watch fob and to the organist a gold ring.

A reception was held for them at the home of the groom on Friday evening last at which about 40 were present. The evening was enjoyably spent in games, etc.

Three men were crushed to death in a railway collision at Newton, N. J. A switchman's forgetfulness allowed a Wabash passenger train to run into a freight at St. Thomas. One lady passenger and the engineer were painfully injured.

Have you a pain—of any kind, anywhere? Stop just a minute and think! It matters not whether it be womanly pains, head pains or any kind of a pain, one of Dr. Ship's little Pink Pain Tablets will surely stop it in 20 minutes. Formula plainly printed on the 25c. box. Sold by all dealers.

A Surprised Minister.

"For many years I have been a sufferer from bronchial catarrh, and had despaired of anything like a cure. Judge of my pleasant surprise when I first used Hyomei, which brought complete relief. Hyomei has been a veritable godsend."—Rev. Charles Harder, Sardinia, Ohio.

Thousands of catarrh sufferers have given up in despair. They have tried stomach dosing, snuff, sprays and douches without success, and now believe catarrh to be incurable.

But W. P. J. Alexander, the druggist, holds out hope to all distressed. He sells a remedy called Hyomei which is guaranteed for catarrh, colds, coughs, bronchitis, asthma and croup. Hyomei (pronounced High-o-me) is

medicated air, full of the healthy virtues of the mountain pines. You breathe in the delightful antiseptic air, and as it passes over the inflamed and germ-ridden membrane, it allays the inflammation, kills the germs, and drives out the disease.

A complete Hyomei outfit, including a hard rubber inhaler, costs but \$1.00, and an extra bottle of Hyomei, if afterwards needed, costs but 50 cents. See W. P. J. Alexander about it today.

A LONDON DOCTOR

Tells How to Cure Stomach and Liver Troubles.

A distinguished London physician during the course of a recent lecture on stomach and liver troubles, gives the following advice:—
"Be moderate in the use of heavy, rich foods. Do not eat hurriedly, and thoroughly masticate the food. If your habits are sedentary, take a moderate amount of exercise before retiring and immediately upon arising. Do not use strong cathartic pills, many of which are advertised as sure cures, but in reality do injury by weakening the system. If you find it necessary to use any laxative stick to the old-fashioned vegetable mixture, viz.:—
Fluid Extract Cascara..... 1/4 oz.
Syrup Rhubarb..... 1 oz.
Carrion Compound..... 1 oz.
Compound Syrup Sarsaparilla 5 oz.
Take one teaspoonful after meals and at bedtime.

"This acts in a gentle, natural way, and is free from the weakening effects of strong purgatives. The ingredients can be bought separately, and anyone can mix them at home. This information will be of benefit to our readers and is worth keeping."

Stomach Trouble.

AND ALL MISERY FROM INDIGESTION VANISHES FIVE MINUTES LATER.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards. If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your Pharmacist for a 50-cent case of Diapiesin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides, there will be no sour foot left over in the stomach to poison your breath with nauseous odors.

For all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion.

CROWN'S NEW THEORY

Detectives Acquit Miss Kinrade of All Suspicion.

Latest Conjecture Developed in Hamilton Murder Mystery Points in Entirely New Direction and Seems to Show That Girl's Attitude is One of Self-Sacrifice—Finding of Revolver Will Solve Problem.

Hamilton, March 15.—It is evident that the apparent theory of the crown as deduced by many observers in the Kinrade murder case from the evidence given at the trial is not the real theory which is being followed. There are other theories which would account for the remarkable self-possession and coolness throughout the terrible examination to which she was subjected on Friday evening last by the crown examiner. Women will do heroic things in a spirit of self-sacrifice which they would not be capable of under the Detroit and Buffalo theory of self-preservation.

Many points in the evidence are quite incompatible with the theory of the American newspapers. That Florence Kinrade was perfectly innocent of the crime is clear from the entire absence of any effort to have recourse to the usual and obvious defence of an alibi. The suspicions of the crown in quite another direction are clear from the questions put to Inspector McMahon and Detective Bleakley on Thursday evening.

Detective Bleakley's story was of a crime that had been committed according to the story of C. S. Wilcox, who believes he heard shots—between 2:10 and 2:30. The first bullet struck the girl as she sat on the chair near the dining-room door to the stairs. Falling over on the ground several other shots were fired and bullets with portions of teeth were found in the pool of blood on the floor. One bullet, evidently fired downwards at the prostrate body, was found imbedded in the floor. A jurymen asked if the face of the girl in such a case would not have shown traces of the blood. As none were left they must have been removed. When the body was found this pool of blood was covered by the body, which was then straightened out so that the blood would not have flowed from any wound in the body in the position in which it was found. After this change in the position of the body and the probable removal of traces of blood from the face of the dead girl, three shots were fired at close range into her breast.

Another new witness for the crown will, it is claimed, now depose to hearing these latter shots about 10 o'clock. It is the time by his having noticed the clock at 2 minutes to 3, and hearing, as he believes, three shots fired as he passed the Kinrade home within five minutes after.

Detective Bleakley swore that when Mr. Kinrade first entered the house after the tragedy he said, "I just expect something like this would happen."

Ernest Kinrade had been quoted as making use of the expression, "I knew something would happen," which, however, he modified as having said, "I knew something had happened."

Under the view apparently held by the crown, the contradictions in Florence Kinrade's evidence are not of importance, and her movements in the States or elsewhere have but the slightest possible bearing on the central incident.

The recovery of the revolver and the identification of the person who took it from the house after 3 o'clock on the fatal day will solve the whole mystery.

The police say that no steps have been taken yet to open up the sewer leading from the Kinrade home.

German Princess to "Come Out."

Berlin, March 15.—"The little princess," as Berliners call Emperor William's only daughter, is beginning to "come out." She will not be 17 until next September, but already preparations are being made for her independent life. Her confirmation has been postponed to the usual age, as the Empress wished that immediately after that solemn ceremony the "little princess" shall begin housekeeping on her own account.

Hitherto the princess has been leading rather a retired life with her books, her painting, her needlework, and, it must be added, her dolls.

Millionaire Accused.

Pittsburg, March 15.—John M. Roberts, millionaire jeweler, churchman and publicist, was yesterday afternoon required to give bond for his appearance at the next term of the Criminal Court to answer the charge of attacking Mrs. Rose Earl Doyle, a widow of striking beauty.

Lineman Electrocuted.

St. Johns, Que., March 15.—John Forant, aged 38 years, in the employ of the St. Johns Electric Light Co., was electrocuted yesterday afternoon. He grasped a wire with his bare hand, causing his death. The deceased leaves a widow and two small children.

City Council One-Sixth Women.

Copenhagen, March 15.—Out of 42 members of the Municipal Council of Copenhagen, elected yesterday, seven are women. They vote for the first time. Single women over 25 and married women whose husbands are taxpayers were entitled to vote.

Leading Citizen a Safe Blow.

Galena, Kansas, March 15.—Harry Davis, a merchant, was shot and captured yesterday while blowing open the safe in the Biners' State Bank. Davis' confederate escaped. Davis was a leading citizen. His family is wealthy.

DESTROYING CREDIT

Government's Course One of Willful Extravagance, Says Borden.

Toronto, March 15.—R. L. Borden and Sir James P. Whitney were tendered an enthusiastic reception in Riverdale rink last night by 2,000 persons on the occasion of their joint political smoker. Mr. Borden was introduced by the late member, A. E. Kemp.

Referring to the finances of the Government, he said: "It is time for the people of Canada to wake up, to pay attention to public affairs, that a halt should be called on this career of extravagance. We have been blessed with abundant revenues. Do the people realize that these were \$40,000,000 greater than when the Conservative party was in power? The country was well governed on less than \$40,000,000. The present Government in the past year has dissipated \$85,000,000 or \$40,000,000 greater than the Government of 12 years ago had at its disposal, and has plunged the country into debt to the tune of nearly \$40,000,000.

"If it is foolish and extravagant to destroy public credit, the Government has taken the very best means at its disposal to destroy the credit of Canada.

"I am no alarmist, but I say that the time has come to take this to heart and head farmer, to judge and should be paid to economy, in public affairs. In the experience of the last five or six years it has been shown that five to ten millions a year has been absolutely wasted as though it had been thrown into the sea.

TELEGRAPHIC BRIEFS.

Sir Wilfrid Laurier was not in the House yesterday, being slightly indisposed at his home.

Manager Orr has secured Primrose, the King's head farmer, to judge the Clydesdales at the Canadian National Exhibition.

A. W. Malone, ex-chief of police of Simcoe, has been enrolled among the employees of the tailor shop at the penitentiary.

Adam Wilson, a few months out from Scotland, was killed in a gravel pit at Hintonburg, Ottawa. A cave-in resulted from a thaw.

Jonathan Story, a retired farmer, of Comber, died suddenly yesterday. Deceased fell on the road some weeks ago and fractured his kneecap.

Justice Garretson of Flushing, N.Y., has set April 29 for the trial of Capt. Peter O'Hara, charged with the murder of William E. Annis at the Bayside Yacht Club on Aug. 15 last.

Constable Smith, who was shot in Hamilton a week ago last Thursday night, and who was operated upon the next day, still complains of pains in his eye and head where the bullet entered.

Five Die In Cave-In.

Quebec, March 16.—Five men met death and the sixth had a narrow escape for his life in an accident which took place in a construction camp about 20 miles north of La Tuque.

From the meagre details at present to hand it seems that the six men were at work in a cut on the Transcontinental when a cave-in occurred, burying the unfortunate men. One man was extricated alive, but the rescue of the other five was not accomplished before life was extinct.

Hotel Clerk Murdered.

New York, March 16.—Lying in a small room adjoining the hotel office, the body of Isidore De Valante, night clerk of the Eastern Hotel, on Whitehall street, was found early yesterday with his skull fractured by a blow with an iron pipe and his throat cut.

The clerk was murdered by men, when afterwards rifled his pockets. Took \$75 from the hotel till and made an unsuccessful attempt to get into the safe, in which there was \$3,000. A thumb-print, which was alongside the names of two men written on the hotel register, the police believe to be that of one of the men.

Fall Costs Him His Arm.

St. Catharines, March 16.—William Patterson, a Grand Trunk brakeman, suffered the loss of his right arm at the General and Marine Hospital yesterday morning as a result of an accident at Morrison Station.

While the engine was shunting a number of cars Patterson was running alongside of a section of the train, when he tripped over the "frog" at the switch, and falling to the ground, his arm became tangled in the moving car.

Labor Men Parade.

Boston, March 16.—As a demonstration against the sentences of imprisonment imposed upon the labor detachments, Samuel Gompers, John Mitchell and Frank Morrison, in the now prominent Bucks' stove and range case by Judge Wright in the Superior Court of the District of Columbia, more than 5,000 members of labor unions paraded on Sunday.

Strikers Must Pay Damages.

Winnipeg, March 16.—The Court of Appeal yesterday morning handed down a decision in the famous case of the Master Plumbers v. Journeymen, sustaining the decision of the lower court, awarding damages against men individually who went out on strike, and granting a perpetual injunction against the union.

Falls Through Trap-Door.

Galt, March 16.—George Platt, retired farmer, aged 60, met with sudden death last evening at 5 o'clock. He was in the basement of Moore's hardware store. The trap-door leading to the cellar was open, and Platt fell into the opening, fracturing his skull. An inquest will be held.

THE NEW DEAL.

Fine!
We write it 1909
If we don't forget
And get
The old date,
1908.
Strange
How hard it is to change.
We fold
The old
To our heart
And hate to start
Something new.
For the first few
Days
We raise
Cain
Trying to make it plain,
Scratch out the old,
Take a fresh hold
On our pen.
And then
Do it again;
Ten
Chances out of nine,
Take a fresh line,
Determined to do better,
But in the next letter
Is the same old song.
Wrong
Once more.
Are we some?
No; just resigned
And inclined
To wonder
If we are under
A spell,
Though well
We ken
And who did he get them from?
"And who did he get them from?"
asked Aunt Fanny.
"From the tough Mason kid across the street."

As usual, the company were discussing the traits of the children and which parent each young hopeful looked the most like.

"John gets his blue eyes from his mother," exclaimed Uncle Bill, as though he had made a new discovery.

"And Mary gets her brown eyes from her father," said Aunt Fanny.

John junior, who had been an innocent bystander, thought it was up to him to take part in the conversation.

"Willie Jones has got black eyes, and he didn't get them from neither his father nor mother."

"And who did he get them from?" asked Aunt Fanny.

"From the tough Mason kid across the street."

No Escape.

"Thank goodness the holiday season is now over and my purse will start some chance of getting inflated once more."

"Don't you think it?"

"Why not?"

"Because the after Christmas bargain sales are now on in full blast, and every last woman is positively dippy about them."

Commiserating.

"He is so very deprecating."

"Is he?"

"Yes; he is even sorry for his own children."

"Why?"

"On account of their father."

PERT PARAGRAPHS.

Don't exasperate a man by asking him to pay you what he owes you. Perhaps he never intended to discharge the obligation, and a reminder of it will cause him to change his estimate of your goodheartedness and good fellowship.

There are people who wouldn't be happy for fear it might not be considered good form.

Some people always knock and others walk right in and assail you without any ceremony whatever.

The people who think they are smart undoubtedly are, for in many instances they have discovered the fact, and how they discovered it and what evidence there is of its existence is beyond the understanding of the rest of the world.

DANGER OF WAR ACUTE I. C. R. IS DEFRAUDED

Relations Between Austria and Serbia Badly Strained.

If Serbia's Answer to Austria's Representations is Not Satisfactory War May Break Out This Week—Russia Sends Warning to Belgrade—Austria Is Becoming Impatient at Adversary's Conduct.

Berlin, March 16.—The private advice received here from Vienna represents the situation between Austria and Serbia as one of extreme gravity. It is said in authoritative quarters that Austria will send within a few days an ultimatum to Belgrade, and that the answer is unsatisfactory. It is declared, war is inevitable, and will break out by the end of the week. The Berliner Tagblatt learns that the Russian Foreign Secretary, M. Izvolsky, has issued instructions to the Russian Minister at Belgrade to warn the Serbian Government to avoid carefully everything that might be interpreted as a challenge to war. Nevertheless, diplomats here regard the danger of war as most acute.

Austria Getting Riled.
Vienna, March 16.—The rumors that the Austrian Government has ordered, or is about to order, a partial mobilization of troops is officially denied. On the contrary, it is stated that the government has decided to give Serbia time to reconsider the situation.

At the same time it is undeniable that the prolongation of the present tension has been becoming a serious matter to Austria's patience, and it is stated that if Serbia still refuses to demobilize or give satisfactory assurances of peaceful intentions, the Austrian generals may have to take up the work.

Armenians Can Now Return.

Constantinople, March 16.—The Senate has adopted a bill voted in the Lower House giving the Government power to ask for a vote on account of one-twelfth of the budget. This is necessary as the budget is not yet laid before Parliament and the public servants are in need of money. M. Zinovief, the Russian ambassador at Constantinople, and H. H. Pasha, have signed an agreement concerning the return to Turkey of the Armenian emigrants who took refuge in the Caucasus after the massacres in Constantinople. The refugees number nearly 60,000. They will be domiciled in the Province of Van. The Porte, however, insists that they shall possess Turkish passports.

Persians on Rampage.

St. Petersburg, March 16.—A despatch to The Novoye Vremya from Julfa, on the frontier between Persia and Russia, says that 1,000 Persian Government horsemen and 500 infantrymen are marching on Julfa from the Persian bank of the Araxes river, devastating the villages in their path and shooting down the people.

Already ten villages, four of them inhabited by Russian subjects, have been pillaged and burned. The troops are ruthlessly killing the fleeing peasants. Many women, carrying their children on their backs, attempted to swim the Araxes to the Russian side, but they were shot down.

Province Wins Test Case.

Edmonton, March 16.—Edmonton won its appeal against a York proprietor of Alberta and Windsor, York county, who had been ordered to pay a license fee paid to the city, on the ground that the hotels were already assessed on floor space. Judge Stuart, Calgary, gave judgment for York, but the full court reversed the judgment, holding that the extra tax of \$400 on each hotel was provided for by law, and was not in the nature of a license. This was a test case by the hotelmen of the city.

New Telegraph Line.

Montreal, March 16.—The announcement was made last evening that the Northern Commercial Telegraph Co. has awarded a contract to Michael Connolly to build 1,000 miles of telegraph and telephone line from Point St. Charles, Que., to Windsor, Ont., and it is said that operations will be started at once on the new enterprise.

Consolidated School Burned.

St. John, N.B., March 16.—The Consolidated School at Kingston, New Brunswick, was burned to the ground Sunday night. The building was built about five years ago at a cost of \$25,000 through the generosity of Sir William McDonald, insurance one-half. It is not likely the school will be rebuilt.

Canadians in Australia.

Ottawa, March 16.—J. S. Larkie, Canadian trade commissioner at Sydney, N.S.W., reports that during 1908 there were only two cases of crime involving Canadian birth convicted of crime in Australia, as compared with 368 in United States origin. In none of the Canadian cases were the crimes serious.

Port Elgin Man Killed In West.

Winnipeg, Man., March 16.—Robt. H. B. Stephenson, aged 29, a C.N.R. brakeman, was killed while coupling cars at Rosevelt, Minn., on Saturday morning. The body will be shipped to Port Elgin, Ont., accompanied by his brother, J. A. Stephenson, and Vernon Stephenson of Port Arthur.

Twenty Drown.

Rotterdam, March 16.—The Norwegian steamer Mascot collided Sunday with the German ship Margretha, about 20 miles west of the Maas lightship. The Margretha sank almost immediately, twenty of the crew being drowned. Six were saved.

Government Said to Have Been Extensively Cheated.

A System of Underweights Is Thought to Have Been Used on Railroad With a View to Victimizing the Government—Will Make a Thorough Investigation of the Charges.

Montreal, aMch 15.—There was a great scurrying amongst the higher I.C.R. officials Saturday evening over the report that a long series of irregularities had been discovered on the line during the past few days, the statement being made that many cases of overweight have been reported to the head officials, both here and at Montreal.

It is understood, in fact, that thousands of thousands of dollars have been lost to the revenues of the Government road and that now that the proper authorities are naturally aroused, it is more than likely that suspensions and arrests may be in order as soon as further investigations will have taken place.

Not long since, a high official was overlooking a couple of cars of lumber destined from a down-country station for Nicolet in this province, and thinking that the bill looked somewhat light, he had the cars re-weighed, discovering that the Intercolonial was carrying the lumber 62,000 pounds light, or in other words the cars had been marked to contain that number of pounds less than the exact figure, hence a very considerable loss of weight, and the statement is made that this kind of work has been going on on a very large scale.

It is said, in fact, that a good many as to bribe men at the different scales to report the weight of cars many thousands of pounds lighter than they should have been and that the I.C.R. has suffered the loss.

It is understood, however, that a severe investigation is about to take place.

TELEGRAPHIC BRIEFS.

The death took place at Orangeville of Rev. Richard Hassard.

The Japanese budget this year effects a saving of \$175,500,000.

Winnipeg Street Railway men will ask for time-shedday at the present rate of pay.

Mr. A. J. Balfour has pronounced tariff reform to be the first plank in the Unionist platform.

The C.R.R. is reported, will build two or three new steamers for the Pacific coast trade at Esquimaux.

The Wright brothers have placed an order with a London firm for the immediate construction of six aeroplanes.

Miss La Palme, a young Canadian singer, will be presented by Oscar Hammerstein in "Cinderella" next season.

The telegraph and telephone operators in the employ of the French Government at Paris are threatening to strike.

Over a thousand Doukhobors in the west are going out to settle on the new lands recently purchased by the community in British Columbia.

Capt. W. H. Copp has returned to Victoria, B.C., with \$23,000 paid by the Russian Government for sealers formerly seized off Commanderofski Islands.

Wins 20-Year Game.

Traverse City, Mich., March 15.—A card-playing contest which has raged through the last two years came to an end at Mancelona, Saturday night, when John W. Wallace scooped in D. W. Lazelle's pedro and remarked: "That puts me out."

Twenty years ago, while at a social affair, Lazelle and Wallace each claimed the village pedro championship. The contention resulted in a challenge, the challenge to go to the one who first won ten straight games. Every day or evening, Sundays excepted, the men have met at either home.

In those twenty years of continuous play, through spare time study, they acquired an inner knowledge of the game that has frightened off all other players from engaging with them.

Several times one man got six or seven straight games, but not until Saturday did one succeed in getting ten.

Suicide at Parry Sound.

Parry Sound, Ont., March 15.—J. Frank Mosley, a prominent citizen and merchant of this town, shot himself dead at nine o'clock Saturday morning.

He had shown symptoms of mental peculiarities for some time.

Mosley was the eldest son of the late Rev. D. Robt. Mosley, formerly Anglican minister here. He was a prominent member of Masonic and Oddfellows societies.

He is survived by his widow and family of one son and five daughters.

Paris Strike Soon Ends.

Paris, March 15.—The strike of the telegraph operators in this city ended late Saturday evening, as suddenly as it began.

The operators yielded before the energetic attitude of the Government, which threatened instant dismissal unless work was resumed, with the loss of state servant privileges.

Schlatter and Hetty Green.

New York, March 15.—Francis Schlatter, a "faith healer," and spectacular "religious" leader, announced yesterday that he would convert Mrs. Hetty Green to his doctrine, and that within a few days he would restore life to several dead persons.

Mrs. Green intimates that Schlatter is suffering from delusions.

LOOKING FOR REVOLVER

Police Will Open Sewer Leading to Kinrade House.

While Police Were Very Busy Following Up Small Clues in Hope of Securing Information Yesterday Was a Dull Day in the Kinrade Case—Miss Chambers Says She Never Met Florence Kinrade.

Hamilton, aMch 16.—While it is reported that the detectives have discovered new and important evidence in reference to the Kinrade case, the local authorities say that there is nothing in it, and that no developments are expected before the adjourned inquest on Friday night. C. Montrose Wright is likely to be called as a witness to clear up the point touched on by Mr. Blackstock when he was examining Miss Kinrade, as to whether or not the matter was discussed by members of the family before the inquest.

The police yesterday afternoon secured an order from the civic sewer department to open up the sewer leading from the Kinrade house. When the plumber was at work in the house it was discovered that the plumbing was large enough to allow a package to go through. There is a trap, however, where the pipe from the house joins the city sewer, which would block any large substance, and the pipe leading from the house will be opened up Tuesday morning, when the search for the revolver with which the murder was committed will be continued.

The testimony that C. D. Hosack, the builder, will give at the inquest next Friday evening is that he saw Ethel Kinrade at 2 o'clock on the afternoon of the murder. He knew the girls well by sight and is satisfied that it was Ethel he saw. The police claim to be able to produce a woman who saw Ethel eight blocks away from her home at 3 o'clock on the afternoon of the tragedy.

C. Montrose Wright will be called as a witness when the inquest is reopened. Sadie Chambers, who has been mentioned in the evidence, was engaged at the Manhattan restaurant for some four years. Her maiden name was Moorehead, and she was visited by a woman named Mrs. Robinson.

Many witnesses remain to be examined, and as Mr. Blackstock has intimated that the inquest will be concluded on Friday night, it is likely that an all-night session will be held.

In the absence of any definite clue much conjecture is being indulged in, and the jurors will come thick and fast until the jury meets again.

Detectives were hustling about yesterday afternoon, but if they gain any information they will not give it out. So far they all would be dark, nothing having developed to give a tangible clue.

At the inquest Mr. Blackstock asked Florence Kinrade if Miss Sadie Chambers was visiting Mrs. Robinson's home while she was there, and Miss Kinrade said she remembered no person of that name.

Miss Chambers, who is in Toronto, denies that she knew Miss Kinrade or that she had any connection with the Goderich incident.

Confesses His Guilt.

Fort Worth, Texas, March 16.—Fred Morris, a baseball player, Sunday night shot and instantly killed Otto H. Meyer, a vaudeville singer, in a room in a local hotel, after having obtained a written confession that his relationship with Mrs. Morris was improper.

"Meyer extended his arms," said Morris, "and told me to shoot him through the heart so that all would be over at once. I did as he suggested and would follow him beyond the grave, except for the fact that I have a little life in me. I think needs me to look out for him."

Suicides With Gas.

Toronto, March 16.—James McAdam, drug fiend and suicidal maniac, was found dead in his room at the Berkeley Apartments, yesterday morning. McAdam had attempted to drown himself in the bay at the foot of Bathurst street just before Christmas.

When found, he was lying on the floor, wrapped in a blanket and with his head on a pillow. In his mouth was the connected feed tube of a small gas-heater.

Murdered, and House Set on Fire.

Monticello, N.Y., March 16.—Bernard Solomon was found dying from terrible wounds in his house here yesterday, the circumstances indicating that an attempt had been made to kill him, and that the dwelling had been fired in an effort to conceal the crime.

In a moment of consciousness he gave the police the name of a man who, he said, he tried to kill him and had set fire to the house.

Assaulted on Streets.

Amherstburg, March 16.—While walking with two boys last Sunday evening, Herbert Coyle, a well-known dredge man, was attacked and assaulted in front of the mayor's residence.

Three men sprang from behind some trees and jumped on Coyle, beating and kicking him until his eyes for help brought Albert Fox and Gordon Colburns to the scene, when the assailants fled.

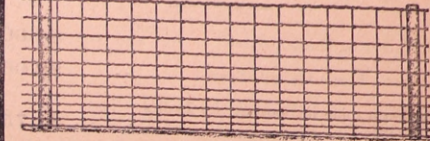

Brantford Makes Contract.

Brantford, March 16.—The City Council here last night made a contract with the Cataract interests for the supply of lighting for a period of five years.

The terms secured under the new agreement both for street and domestic lighting are higher than figures advanced by the city council and other members of last year's committee, which were approved of by several expert engineers.

Who Sold Indian Liquor?

Investigation Likely to Result at Belleville.

Belleville, March 12.—(Special.)—It would not be surprising if an investigation as to who has been selling or giving liquor to Indians should arise out of the trial of Thomas Smart, who was acquitted last evening on a charge of murdering his step-grandfather.

Justice Teetzel, on hearing the evidence of Mrs. James Sero, wife of deceased, showed considerable indignation at learning the drunken state of her husband and his brother on the night of the crime.

"The government should find out who sold these Indians liquor and he should be prosecuted to the limit of the law," he remarked.

The acquittal of Smart has been the subject of much discussion to-day, not that there have been any suggestions of miscarriage of justice, but it is being recalled that out of four trials for capital offence in the past few years there have been three acquittals and one short term of imprisonment imposed.

One lawyer attending the assizes is said to have remarked, "If I should ever, by any mischance, commit a capital crime, I hope it will be in the County of Hastings."

The Dominion Government may postpone settlement of the Provincial boundaries question for a year if the conditions are not accepted by the Manitoba Government.

GILMOUR.

J. Dafee returned home after spending several days in Belleville. Mrs. Geo. Young and little daughter, Kathleen, of Trenton, spent Sunday with Mr. Young, Grange Avenue.

Make This Up at Your Home.

PREPARE AT HOME BY SHAKING INGREDIENTS WELL IN A BOTTLE.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription which is said to be a positive remedy for backache or kidney or bladder derangement, if

taken before the stage of Bright's disease:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so.

He further stated that while this prescription is often prescribed in rheumatic affections with splendid results, he could see no reason why it would not be a splendid remedy for backache as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

Mail Clerk Arrested.

E. T. VanDusen, mail clerk on the C. O. R. was arrested on Monday, March 8th, on a warrant accusing him of robbing the mail, and came up for hearing on Tuesday evening in the Town Hall before Magistrate Jaques, in the absence of Police Magistrate O'Rourke. The case was remanded to Tuesday, March 10th at 1 p.m.—Trenton Advocate.

Many Downs With Pleasies.

Doctors say the country is full of it. First comes a chill, then cold develops, the inflammation comes on, you can't draw a long breath—lungs and good head sore, and pleurisy sets in. A good home-cure consists in taking twenty drops of Nerviline every four hours. Supplement this by vigorously rubbing the sides and chest with Nerviline, and when warmth and circulation are established, put a Nerviline Porous Plaster over the aching spot. Nerviline Treatment is always successful in colds, neuritis, and pleurisy. Try it yourself.

Broke her Wrist.

On Saturday March 6th, Mrs. Wm. Duggan, had the misfortune to receive a severe fall on the ice, fracturing her wrist. The accident was a painful one, but the break is rapidly consolidating.

Shaun Aroon.

Rumor has it that this splendid play "Shaun Aroon" which was presented here some two years ago will again be put on after Easter under the auspices of the Madoc Hockey Club. If such be the case, no doubt a bumper house will greet it.

Will Lecture at Bethel.

The Epworth League of Bethel Methodist church have secured Rev. R. Bamforth of Madoc for the evening of Friday, March 19th, when he will tell the story from his own life of "Four months in a Mining Town." Mr. Bamforth never fails to delight his hearers wherever the lecture is given. With appropriate music this will make an evening too good miss.

A Patent Medicine Act.

A patent medicine act goes into effect on April 1st. It provides that all patent medicines, now on druggists' shelves will have to be stamped by a Government stamp before it can be sold. Full information and the stamps can be obtained from the collector of inland revenue of the division in which the store is situated. A heavy fine is the alternative if the goods are sold after that date without the stamps.

A Strange, Very Strange Affair.

Almonte Gazette: Some months ago a stock food agent travelled through his country, in the interests of his firm and did considerable business with the farmers, most of which has been entirely satisfactory, but in one instance a peculiar, not to say awkward, situation developed. Two neighbors ordered, one poultry food and the other stock food. In some way the shipments got mixed and after dieting his milk cows on her food for weeks, one of the farmers was astounded to find the herd growing feathers, and waking the whole neighborhood by crowing in the early morning, while the other man's hens have been laying milk shags.

Business Changes.

A number of changes are being made in the business make-up of our town. Mr. Berkeley Carter has purchased the pool and billiard parlor lately conducted by Mr. W. G. Devolin, and is now operating same. The barber business, which was operated in connection with the pool, has been purchased by Mr. A. Pine. Mr. W. P. J. Alexander, who has so successfully conducted the Corner Drug Store for the past few years, is selling out his business and will seek a new field in Southern Alberta. His clearing sale advt. will be found on page 1. The agencies, including Kodak, Hyman, Minors Vinol, Carisian Sags, Booth's Pills, Diapensin, etc., will be taken over by Dr. W. S. Harper.

Old Madoc Resident Dead.

Alexander McNroy, a well-known resident of Madoc township years ago died at his home in Adelaide, Middlesex County, on the 23rd of February last, in the 82nd year of his age. He lived a short distance south of Eldorado, and was a member of the Madoc township Council about 30 years ago. Twenty-seven years ago he first removed to Coe Hill, and afterwards to Adelaide. He was a native of Scotland, a member of the Presbyterian church, and a temperate, conservative. His wife died about seven years ago. Three sons and five daughters are left, with other relatives and many old friends in this part of the country.

Mammoth Dairy Meeting.

The Madoc Cheese Board has secured the services of Mr. Geo. H. Barr assistant Dairy Commissioner for Canada to deliver an address to the dairymen of this district, to be held in the Town Hall, Madoc, on Friday, March 19, at 2.30 p.m. Mr. Barr is one of the most expert dairy men in the Dominion, and will illustrate his lecture with a series of first-class stereopticon views, showing the milk in its different stages, and its proper care or neglect effects the cheese. A cold curing room and other subjects of interest to dairymen will be discussed. Other prominent dairymen will also deliver addresses. Admission free. Everybody invited, especially the ladies. At the close of the meeting the Madoc Cheese Board will reorganize for the coming season. The annual banquet will be held the same evening.

St. Patrick's Day at R. C. Church.

The feast of St. Patrick was well and duly celebrated in the church of the Sacred Heart, Madoc, on the 17th of March. After mass Rev. Father O'Hanlon, of Ireland, preached, and he was in part: "The Irish race received the Faith from St. Patrick they preserved it as a priceless treasure, went forth to the northern shores of Europe to plant the Cross of Christ where the names of Irish saints are held in honor and reverence today. The Emerald Isle shows forth in her ivy-clad ruins and noble round towers that the title of saints and scholars that she won was no empty title. Her glory was not confined to saints and scholars and monuments of religion and education. Like her Divine Master Ireland had her days of crucifixion, when her principles she got from St. Patrick were tested, because she shed her blood for them, this prepared her for her great destiny. Nations like individuals have their characteristics, England is the commercial nation of the world, France is the home of chivalry the States and Canada the home of freedom. Ireland's destiny is to spread the kingdom of God, and keep aloft the Cross of Christ. Her sons today hold a high place among the nations, ever faithful to their traditions of love for Faith and Fatherland, generosity and kindness to the fellow-citizens of every race, and creed all over the world."

Appreciated.

In forwarding his renewal for THE REVIEW for another year, Rev. C. F. Connor, an old Madoc boy, and the first Methodist minister in Prince Rupert, B. C., adds the following: "I am glad to know that your REVIEW is so far improved as to enable me to present and deliver addresses but at a late hour word came that none of these gentlemen could come. The Executive Committee then put on an impromptu debate entitled 'Resolved that forty years ago was better than today.' The affirmative side was supported by Bros. Samuel and Thos. Successful Entertainment.

Downey L.O.L., No. 425, had a very enjoyable "At Home" on Friday evening, March 12th. Rev. Mr. Ross, of West Huntingdon, also Bros. Martin and Mathew, of Stirling, were expected to be present and deliver addresses but at a late hour word came that none of these gentlemen could come. The Executive Committee then put on an impromptu debate entitled 'Resolved that forty years ago was better than today.' The affirmative side was supported by Bros. Samuel and Thos. Tummon, while Bros. F. C. Sherwin and W. E. Tummon supported the negative. The judges, Mr. Gor-

don Lane and Clayton Chambers decided in favor of the negative side. It was certainly interesting and caused no small amount of amusement as the different speakers compared existing circumstances of today with those of forty years ago. Solos, quartettes, etc., also helped to enliven the evening. The ladies served cake, coffee, etc., and all seemed satisfied that a pleasant evening had been spent.

Shiekhs and Trisemen.

Take notice that a Moon Feast of Maharakka Sanctorium will be held without regard to atmospheric or other irregularities of the globe, on Monday, March 22nd, A. D. 1900, A. X. 2304, at the I.O.O.F. Hall, Madoc, as near 8 o'clock (post mortem) as you like. Those who have hitherto to the Oasis will be rewarded by receiving a piece of the Moon, which will be left for the occasion. Those who absent themselves without a certificate and pocket case, none will be admitted without the necessary passport. The glad hand of welcome will be extended to all Shiekhs and Trisemen under these conditions only. Don't leave your credentials in your other vest pocket. Don't forget the Yell-oh-yell. The night will be filled with music. And the cars which invest the day will fold their tents like the Arab. And silently fade away.

OBITUARY.

MAYBEE.—On Friday morning last Mr. N. M. Maybee received a telegram announcing the very sudden death of his brother, Geo. E. Maybee, at the Grand Union Hotel, Montreal. Mr. Maybee had been in the city since Tuesday, and acute indigestion is ascribed as the cause of his death. He was 63 years of age, and had been going to Montreal for many years, being one of the best known commercial travellers in this part of the Province. His son, who was notified, went to Montreal and brought the body home. Mr. Maybee left his home in Napanee on Tuesday for Montreal, where he was travelling for the Dominion Soap Company of Hamilton. After working on Wednesday he returned to the hotel and went to his room. He complained of being slightly ill. He had written a short letter home, which was received before the announcement of his death. Mr. Maybee was leader of the Presbyterian choir in Napanee, and was held in high esteem. He was a Liberal, and upheld the cause of his party with unabated zeal. He was one of the original members of the 15th regiment and accompanied that organization to Prescott in 1893, when the first Fenian raid took place. The deceased was for several years a resident of Belleville. Mr. Maybee was at first a clerk in a dry goods store and afterwards was a partner in the dry goods firm of Robertson & Maybee. He married there, his wife being a Miss Munro, a sister of Mrs. John A. Phippen. His wife and a grown-up family survive him. The funeral took place on Sunday afternoon from his late residence, Napanee. Mr. Maybee was well-known in Madoc and his sudden demise came as a severe shock to his many friends here.

—Mr. J. W. Johnson, M. P. P. for West Hastings, and Mr. Norman, member for Prince Edward county, waited upon Hon. Dr. Reaume, Minister of Public Works in the Ontario Government, in reference to freeing of the bay bridge from tolls. The Minister promised that the Government would make a grant towards the purchase of the bridge, provided the municipalities interested would do their part in the matter. Mr. Johnson has accordingly notified Mayor Marsh and Mr. Dempsey, Warden of Prince Edward and Reeve of Ameliasburg, and it now remains for the municipalities to take the matter in hand.

What Causes "Nerves"?

Most people say worry—they are wrong—the cause is in the blood which is thin, and lacks nutriment. To cure "Nerves" more blood, sinew and flesh are required. You get these quickly by taking Ferrozone. No health bringer is so certain, no nerve-strengthening more potent, no system tonic so well adapted to the wants of the run-down, nervous or sleepless. Let Ferrozone build you up, let it fill you with vim, energy and surplus vigor. It has done this for thousands.

A falling tiny nerve—no larger than the finest silver thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing stomach. Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and failing inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

Prof. H. A. Howell, of Havana, Cuba, Recommends Chamberlain's Cough Remedy.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Havana, Cuba. "On the night of February 3rd our baby was taken sick with a very severe cold, the next day was worse and the following morning his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by all druggists.

WRECK AT ST. THOMAS.

Engineer, Fireman and Woman Are Seriously Injured.

St. Thomas, March 15.—Wabash Engineer Thomas Annun, Fireman Thomas Cade, and a woman, Mrs. Towler, of New York, were seriously injured in a wreck here on the Grand Trunk-Wabash yards yesterday.

The railway men hurt were on a freight engine, ready to take a west-bound freight out as soon as the Wabash passenger train should arrive from the west, due at 1:30 a.m. The passenger came in on time, crossing the big bridge at ten miles on hours. Engineer Blanning and Fireman W. Chater, both of Windsor, felt her take the open switch on to the wrong track. The emergency brake was applied and the men saved themselves by jumping.

The engineer and fireman of the freight were not quick enough. Wabash was pinned between the cab and tender and had his shoulder and ribs badly squeezed, while a steam valve was broken and his legs were scalded. Scalds on the arm and back comprise the injuries to Cade, neither of whom were fatally hurt. The woman, the only passenger to receive more than a shaking up, was thrown against the seat and window with the result that she received many cuts. She had no bones broken, and is suffering only from external wounds and shock. She is at the Amasa Wood Hospital.

MONK WOULDN'T ANSWER.

So Franciscan Brother Was Kept on International Ferry Until He Did.

Windsor, March 15.—Because he objected to acknowledging his identity, and declined to state whether he possessed sufficient funds to make him eligible to enter Canada, Francis Pettigill, a member of a religious brotherhood, spent several hours on the Detroit river on Saturday. Pettigill, who is a member of the Christian Brothers, and is known as Brother Francis, was on his way from Cincinnati to Chicago, and was a retreat to be conducted there during the Lenten season. He was unaccompanied, with border customs, and when a Canadian customs officer demanded his name, address, and further particulars as to his financial standing, he refused point blank to answer any of the questions. As a result he was not permitted to put his foot on Canadian soil, but was sent back on the car ferry to Detroit. There he encountered more trouble, because he insisted upon preserving his attitude of reticence towards the American officers, and once more he was sent back across the river. Windsor. Half a dozen times or more he made the involuntary journey, but when darkness fell he finally capitulated and offered the Canadian authorities the full and complete information. Investigation showed that Brother Francis carried a bank roll of several hundred dollars and was a prominent member of his order.

Fireman Is Hurt.

Toronto, March 15.—Robert Falconer, a city fireman, had his left leg broken, and "Daddy" Gates was injured, when a fire engine was derailed, during a blaze which destroyed the old Adamson grain elevator at the foot of West Market street on Sunday afternoon.

A portion on the bay front collapsed, and in the excitement of shifting their position, Falconer, who was on the branch, was jolted by the nozzle and compelled to jump. He broke through the ice, about 12 feet below, but was lucky enough to miss deep water, though he landed on the ice and was injured. He was carried ashore by a number of men who were watching the fire, and then sent to St. Michael's Hospital.

Gates was forced to hang on at a height of 50 feet until he was almost exhausted, when he was rescued by means of a ladder.

Butter Is Good.

Ottawa, March 15.—"It is quite apparent that butter is essentially genuine and of high quality, as offered for sale in Canada," is the conclusion arrived at by the chief analyst of the Inland Revenue Department, from the test of 255 samples collected through the Dominion last autumn.

Excess of water was found in three samples sold in Peterboro, but in none of the samples were foreign fats found.

Kick Likely to Kill.

Brooklyn, March 15.—James Regato, aged 10 years, and in a precarious state at the hospital with a fracture of the skull, as the result of a kick from a horse. He was stealing a ride on a cutter, standing on the runner and clinging to the back of the seat. The rig passed close to a horse being led by the halter and the animal shot its head into the air, striking the shoe of one foot into the boy's head.

Montreal Wait Caught at Cobalt.

Montreal, March 15.—Get-rich-quick ideas fired the imagination of Master Lionel Trudel, aged 13, who ran away from home a few days ago at Point St. Charles and making money was heard from him till yesterday, when his mother received a wire from the Cobalt chief of police saying he was holding the youngster awaiting the mother's order.

Woman Up For Double Murder.

Peter, March 15.—The preliminary investigation into the charge against Mme. Steinheil, accused of having murdered her husband and her stepson, was held in the formal accusation of premeditated murder. She will probably be tried for her life in the Assize Court, not as an accomplice but as the principal.

Marriage Is Off.

London, March 15.—On the highest authority it may be said that there is not the slightest chance of a marriage being arranged between King Manuel of Portugal and Princess Beatrice of Sax-Coburg. The King must marry a Catholic, and the princess firmly declines to adopt that faith.

PREMIER IS STRICT.

Warns Members to Attend to Their Private Bills.

Toronto, March 15.—Premier Whitney announced in the Legislature yesterday that he would move in a day or two that the Government's present measures be given precedence, and also that next private members' day, if the members were not present to move the second reading of their bills, he would ask the House to strike them off the list.

The premier introduced a resolution that the petition of F. B. Davis and others applying for a railway charter, but that for a total read for the Lake Superior & Long Lake Transportation Co., be granted, except the part of the bill which relates to the National Transcontinental Railway, had hurried to Toronto as soon as he had learned of the location of the bill. The papers would have been filed before but for a bereavement, and this was a case in which the House could afford to be lenient.

Several private bills were moved through the committee stage.

The following bills were introduced and read a first time:

Hon. Dr. Pyne—Respecting truancy and the Compulsory School Attendance Act.

Hon. Dr. Pyne—Respecting high schools and collegiate institutions.

Hon. Dr. Pyne—Respecting public schools.

The Toronto bill to repeal the act creating the Board of Education in Toronto was allowed to stand on the request of the premier until more members were present. So far the Government had not given any expression regarding the bill, and before the House consented to a second reading he would like to have it more fully discussed.

The Ontario Railway and Municipal Board bill favorably on the City of Hamilton's bill.

To Investigate Maladministration.

Montreal, March 15.—Sir Henry Taschereau, Chief Justice of the Court of Appeal, delivered the judgment of the court yesterday in connection with the question submitted a few days ago as to the right of the Provincial Government to appoint a royal commission to investigate the maladministration of the City of Montreal.

The decision of the court was in the affirmative. The court also defined the term "matter to be investigated" as meaning anything for which the citizens asked the Government for this commission.

It is likely the Government will now go ahead and name the commission, which will, it is expected, result in interesting revelations.

Standard Oil Fined \$20,000.

Buffalo, March 16.—Judge Hazel, in the U. S. court, yesterday denied the motion of the Standard Oil Co. for a new trial, and imposed a fine of \$20,000.

The case hinged on the Standard Oil Co.'s accepting concessions from railroads in the shipment of oil from Olean, N.Y., to Rutland and other points in Vermont.

There were in all 546 counts found against the company, but thus far only forty have been considered. The railroads involved are the New York Central, the Pennsylvania and the Rutland.

Galt Graft Charges.

Galt, March 16.—Investigation began yesterday before Judge Chisholm of charges preferred against Town Foreman Davidson of malfeasance in office. Dr. Soper, Mayor Patterson, ex-Ald. Webster, Town Treasurer Hood, Time-keeper Spooner and others were on the stand.

Nothing of a grave character was disclosed, and the enquiry will continue to-day. J. R. Hancock prosecutes; J. B. Dalzell appears for the town, and M. A. Accord defends.

Alberta Nominations.

Calgary, March 16.—The nominations for all but a few of the constituencies in Alberta took place yesterday. The voters in the elections are to be deferred taking place at later dates. The acclamations are: Liberals—Pakan, P. E. Lessard; Pembina, W. H. McKenny; Sturgeon, J. R. Boyle; Victoria, E. A. Walker; Sedgewick, Charles Stewart. Conservatives—Lac Ste. Anne, D. H. Lent; Lacombe, W. F. Huffer.

Brantford Tax Rate Reduced.

Brantford, March 16.—The City Council last night struck the tax rate for mills, a reduction of one-half mill. Civic expenditures last year, due to street paving, was the largest on record, but from increased assessable income \$15,000 more taxes were derived.

The police have put a stop to suggestive moving picture productions at the three local amusement houses.

Earl Grey Withdraws Patronage.

Ottawa, March 16.—Earl Grey has withdrawn his patronage from the church council of St. Patrick's Society. It has always been the custom of the Governor-General to attend, but this year he asks the withdrawal of his name entirely.

This is because there will be a political address by E. B. Devlin, M.P., on "Ireland's Position in the Empire."

Senator Would Reform Commons.

Ottawa, March 16.—Senator T. O. Davis of Saskatchewan is out for Commons reform.

He proposes to reduce the popular representation, and a lower House of about fifty members. The present ratio of representation is twenty-five thousand in round numbers. The Davis proposition is that the unit be increased to one hundred thousand.

Winnipeg Car Employees Agreement.

Winnipeg, March 16.—After being in session nearly five hours from nine o'clock until one o'clock, the street railway employees broke up without, it is understood, reaching an agreement as to the demands for a new schedule to go into effect on April 1, the chief demand being made for a nine-hour day, with same pay.

Get the Best

A HAND FORGED RAZOR is becoming an art of the past. The present method of manufacturing razors and the desire to compete in prices, has compelled the manufacturer to forge, grind, polish and hone by machine, a method whereby the cost is greatly reduced at the expense of efficiency.

A perfect razor is the creation of skilled labor of the highest class. From forge to finish, through twenty operations, not only the workman put a hand to it, if the steel is not just right, or if the work is neglected in any stage of the manufacture, the fault will be many, and annoyingly manifest. No amount of after honing can put a perfect, keen, smooth cutlery edge on an imperfectly made razor—yet nothing is easier than taking care of a good blade.

The best razor is as perfect as human skill can produce. It is made of the finest grain steel, hammer-hardened by hand; ground with a precaution that prevents the temper from being disturbed; every one in stock and in form with every other one; all keen enough to shave the most tender face smooth and comfortable, without irritation. But call, examine, and convince yourself that our claims are borne out by facts.

SUCCESS

Success lies in grasping every offered opportunity; the number of the following opportunities grasped will be the measure of success to which you will attain.

PIANOS.

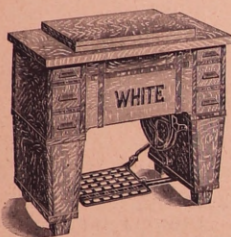

We are handling the Bell Piano, which is emphatically the musician's perfect Piano.

They are the only Pianos with the Illimitable Quick Repeating action.

They possess a rich pure tone, and can be made to express every shade of musical feeling, whispering like the leaves or resounding like the heaven's thunder. People who know and appreciate true merit have expressed themselves in highest terms of Bell Pianos and their wonderful tone, touch and staying powers.

Further, the Bell Pianos are fitted with the Bell patent sustaining frame, formerly the Piano backs were made entirely from pieces of wood glued together.

We handle other makes and have a special bargain in a Piano at \$150, and a special price on a 6-octave Organ at \$55.

Sewing Machines.

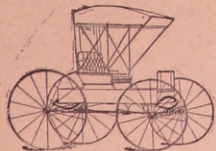

Why our White Rotary Machines are recommended by all is on account of their wonderful ease in running combined with unusual speed. Both of these are points which count for most in the everyday sewing of the everyday household, and it is principally for this sort of work that sewing machines are bought. We are handling several makes of Sewing Machines, some with rotary shuttle movement—round and round, a stitch at each revolution, some with the constant running backward and forward, which is the vibrating shuttle. You cannot afford to be without a good Sewing Machine. You do not realize what a difference there is—how differently you would feel after a few hours' sewing if your machine is an easy runner, which we guarantee our Machines to be.

Prices from \$20 up.

Separators.

The Tubular Separator is the key in the door of success. The Sharples Separators get all the butter fat—leave fresh skimmed milk just right for feeding. They can be filled and turned, taken apart, cleaned and put together by a child. They open the door to success and shut drudgery out in the cold. A free trial of the Tubular will show you how and why you can make money. Call and examine these machines.

A Separator for \$30 and upwards.

Light, airy and graceful on lines which are new,
Tis a wagon that gets there and easily,
too,
So easy to go that it pushes the horse,
And never a noise you'll detect in its course.

We believe we can truthfully say that we are displaying the best Buggies made, and we invite you to call and inspect them. We are handling Buggies that are handsome that are handsome in appearance, and that not only catches the customer's eye but finds him satisfied five years' afterwards. Call and see our special job made to our order, with many new features added.

Prices from \$65 up.

Horses.

If you wish to purchase a Horse we can supply you with stylish matched Teams or we can match your Horse in color and style.

We have a large stock of Horses on hand, ages from 2 to 10 years in the driving, general purpose and heavy class.

Mothers, Attention!

YOUR DELICATE CHILD MAY BE RESTORED TO HEALTH BY VINOL. READ THE FOLLOWING LETTER FROM A CANTON, O., MOTHER.

"I wish I could induce every mother who has a weak, sickly child, to try that delicious cod liver preparation, Vinol. Our little daughter was pale, thin and sickly. She had no appetite and no ambition.

"We tried various medicines, but without any benefit whatever, and she could not take cod liver oil or emulsions, as they nauseated her and upset her stomach.

"Learning that Vinol contains all the medicinal and strength-giving properties of cod liver oil, but without the disagreeable oil, and tonic iron added, we decided to try it, and the results were marvelous. It gave her a hearty appetite; the color returned to her cheeks and she is stronger and in better health than she has been for years.

"I cannot say enough in favor of Vinol for weak delicate children."—Mrs. C. W. Stump, Canton, O.

There is nothing equal to Vinol for delicate, ailing children and feeble old people to build up strength and restore a normal healthy condition.

Those who try it and receive no benefit may have their money returned on demand—that's your guarantee. W. P. J. Alexander, Druggist, Madoc.

—The report that a series of frauds on the Intercolonial Railway has been responsible for heavy losses to the national exchequer does not come as a surprise to the country. The revelations in the Department of Marine left the impression that investigation would reveal serious leakages in other branches of the Administration.

Nothing in the way of a Cough is quite so annoying as a tickling, teasing, wheezing, bronchial Cough. The quickest relief comes perhaps from a prescription known to Druggists everywhere as Dr. Shoop's Cough Remedy. And besides, it is so thoroughly harmless that mothers give it with perfect safety even to the youngest babies. The tender leaves of a simple mountain shrub, give to Dr. Shoop's Cough Remedy its remarkable curative effect. A few days' test will tell. Sold by all dealers.

Suicide in Vancouver Laid at Door of Christian Scientist.

Vancouver, B.C., March 15.—A coroner's jury bringing in a verdict that John J. Harrison committed suicide, added a rider that from the evidence it was evident that one Vary, an alleged Christian Science leader in this city, was largely the cause of Harrison's despondency, and recommended that the Attorney-General institute proceedings.

Harrison, aged 54, came from Winnipeg fifteen years ago, was worth \$150,000 and until last November lived apparently happily. Thursday morning he visited Chief of Police Chamberlain, saying he had been taking Chas. A. Vary's treatment, and that the latter wished him to sign over all his property to the church. In a written statement to the chief Harrison stated:

"Vary brought me up to a stage of mental treatment, where it would seem that I had to renounce all my connection with any society or party, either political or religious, also cancel all insurance policies, wills and other unnecessary encumbrances that would hinder my spiritual recovery.

"When I think of my will and refuse to destroy it, as he asked me to, the depression and effect of his treatment is so severe it is almost unbearable and should it continue to be so, I will only have to put an end to my existence. I cannot stand the effects of the treatment much longer."

Harrison was soothed by the chief temporarily, but two hours later secured a bottle of carbolic acid and was found dead in the evening.

Evidence corroborating the chief's was given. Harrison had told Vary in the presence of his wife, he would give a large amount to be rid of his influence.

The police believe they have unearthed one case in a series in which peculiar methods under this guise have been applied to persons with peculiar and horrible results.

Says Roosevelt Will Die.

New York, March 15.—Dr. Frederick Starr of the University of Chicago repeated Saturday night at the dinner of the New York Schoolmasters Association the assertion which he made a few days ago, that former President Roosevelt would not survive the malarial climate of the country through which he purposes to travel on his African trip. Dr. Starr said in part:

"One of the trips which I made across Africa was over a route corresponding closely to that of the President. But I was thoroughly acclimatized. I had spent nearly a dozen years in the country and was still a young man. I could not withstand the dangers of it now.

"Roosevelt will never survive the fevers which are bound to afflict him if he reaches the interior. The country's only hope of seeing him again is that he may be stricken before he reaches the interior. A comparatively light touch of these tropical fevers might lay him up for several months and perhaps induce him to abandon his plans for the trip."

Slain by Black Hand.

New York, March 15.—Lieut. Jos. Petrosino, head of the Italian bureau of the New York police department, Friday was assassinated in Palermo, Sicily, according to a special cable despatch to The Herald on Saturday. His assassins fired four shots.

The assassins, the despatch says, are unknown.

Lieut. Petrosino went to Italy on a special mission to investigate the so-called Black Hand, with a view to bringing about better protection for peace-abiding Italians in this country.

Petrosino was the Black Hand expert of the New York police department and a terror to Italian criminals. He went to Italy more than a year ago to work on a plan, the object of which was to be the adoption of means to check the tide of undesirable Italians and Sicilians to America, and particularly to New York City.

Must Doff Hats In Church.

New York, March 15.—A Boston despatch to The Times says:

The First Baptist Church of Somerville has officially barred from public worship all women who refuse to remove their hats before entering the church auditorium. The church is one of the important ones of New England.

"The fancy millinery of the present time attracts so much attention," said one of the trustees, "that women spend more time examining hats than they do listening to the sermon."

Best Editorial Page in Canada.

Toronto Daily Star has Strong Commendation in John Lewis and Jos. T. Clark.

In the judgment of many readers the most interesting editorial page in Canada is that of The Toronto Daily Star.

Mr. John Lewis, author of the Life of George Brown and for many years chief editorial writer on The Globe, is The Star's chief writer, and its staff has recently been increased by the accession of Mr. Joseph T. Clark, "Mac," formerly editor of the Saturday Night.

Messrs. Lewis and Clark stand in the first rank of the profession in Canada, and the combination of two such writers on the staff of the same paper is something unique in Canadian journalism.

The Star's editorials are always sane, progressive, exceptionally free from bias, political or otherwise, and always eminently readable. Special contributions, in which "Mac's" personality is particularly noticeable, are now an outstanding feature of the page, so that altogether it is little wonder that it is popular.

OBITUARY.

MISS JENKINS.

One by one are the old-time residents of Madoc departing. Death is ever and anon claiming his toll.

In the thick footprints of departed friends—

On Saturday, March 20th, after a short illness, she passed away from our village an aged and highly-respected citizen, Miss Hannah Jenkins.

Incapacitated to a great extent, by partial paralysis, for walking, she had for some years been confined to the house. Afflicted in body but with intellectual faculties unimpaired, she continued until stricken by pneumonia, to take an intelligent and sympathetic interest in all of good transpiring in the world about her, and from day to day, spent a busy, useful life, constantly working and planning for others.

Miss Jenkins was one of a family of ten, the children of the Rev. William Jenkins, one of the pioneer ministers of the Presbyterian Church in Canada.

She was the great value of which has not always been recognized. Coming to Ontario, then Upper Canada, in 1812, he labored for many years in the Presbyterian Church.

He was then, as now, the centre. He was the first Moderator of the Presbytery of Toronto in connection with the United Presbyterian Church.

At the time of her death, Miss Jenkins was nearly eighty-two, having been born in Markham, on April 18th, 1827. In 1871, on the death of her brother's wife, she came to Madoc to take charge of his three young children.

To them she was, as long as they needed her care, a loving, wise and devoted mother. Utterly unselfish and self-sacrificing in all her family relations she won and retained the confidence of those of whom she had charge. By all who knew her, Miss Jenkins was much respected. By her intimate friends she was loved and highly esteemed.

Not only on account of her cheerful and sunny disposition but, also, because of the kind and self-denying spirit which made her always willing to spend and be spent for others.

She possessed of excellent natural intellectual parts which were not allowed to remain unused and uncultured, she, like not a few women of the past and present, never sought to advertise her talents and acquisitions, but was always ready, perhaps too ready, to live unnoted on account of her cheerful and sunny disposition.

Her family, among her neighbors, and in the church of her birth and intelligent adoption. An aged brother, now in his ninetieth year, a sister, one of the nephews to whom she was a mother, and a large circle of relatives and friends are left to mourn their loss.

To them remains the precious memory of a devoted, useful life, "full of good works and alms-deeds which she did."

MISS MCKENZIE.

An old resident of Madoc, in the person of Miss Anne McKenzie, died at the family home on Monday of this week.

She had been very ill for several weeks, the result of a severe attack of grippe early in the winter, and for some time past no hopes were held out for her recovery.

She was a highly respected member of St. Peter's Church in this village, and leaves two brothers, Roderick and Duncan, and one sister, Catherine, (Mrs. O'Hara), Minnesota, to mourn her death. She ceased to be aged 80 years, 1 month and 12 days.

MRS. JOHN N. MOORE.

After a long illness, Mrs. John N. Moore, of Eldorado, passed quietly away on Saturday last, aged 64 years and 29 days. An extended obituary notice has been handed in and will appear next issue.

Almost Sensational

THERE IS GENERAL SURPRISE AT THE GREAT NUMBER OF PERSONS IN MADOC WHO PRAISE BOOTH'S KIDNEY PILLS.

It's but a short time since the first box of Booth's Kidney Pills came to Madoc.

What a work this stranger has accomplished! Dozens of residents benefited and cured of lame, weak and aching backs, urinary and kidney troubles. It is remarkable the reason for it is Booth's Kidney Pills are a new blend of vegetable ingredients having a peculiar action on the kidney tissue that brings quick help.

Mrs. Chas. Cox, of Lawrence str., Madoc, Ont., says: "Many symptoms of kidney trouble had for some years past caused me much suffering. Notwithstanding the fact that my young numerous remedies, there was none of them that gave me the desired results. My back was weak and a dull, heavy pain had settled in the small of it extending around my sides and into my shoulders. I was weak and languid, and would live with the least exertion. Headaches were almost constant, coming in the lower part of my head and extending around over my eyes. Booth's Kidney Pills, procured at Harper's Drug Store, soon gave relief. I began to strengthen and build up generally. One box of Booth's Kidney Pills cured me of my kidney trouble. I feel that all I had tried. Sold by dealers. Price 50 cents. The R. T. Clothes Caught Fire.

Mrs. F. E. O'Flynn, of Belleville, had a Narrow Escape.

We take the following from the Belleville Daily Ontario of Friday last. Mrs. and Mr. F. E. O'Flynn are old residents of Madoc and are well known here and the miraculous escape of the former from a terrible death was a great relief to her many friends.

About two o'clock yesterday afternoon Mrs. F. E. O'Flynn, Bridge St., had a miraculous escape from what might have proven a fatal accident. She had gone into the kitchen to inspect some baking, and while standing by the range the maid called to her that she was on fire. Mrs. O'Flynn's apron had in some way become ignited and she was instantly enveloped in flames, the fire spreading with great rapidity.

With rare presence of mind Mrs. O'Flynn threw herself to the floor and endeavored to extinguish the flames by rolling, while the maid rushed to her assistance. In a few minutes most of the fire had been put out.

Mrs. O'Flynn then ran to the front door and called for help. Mr. P. J. Smith, of Charles street, who was passing, rushed into the house and with the help of the maid, the fire was extinguished. Mrs. O'Flynn's hands were badly burned, but fortunately the blaze did not reach her face or body although her clothing had been burned to such an extent as to discolor the flesh on the upper part of the body in several places.

It was no doubt due to the presence of mind shown by Mrs. O'Flynn and the plucky efforts of the maid that averted what might easily have proved a serious if not fatal accident.

Mrs. O'Flynn is progressing nicely, but the shock will confine her to her room for some time.

Her doctor, Mr. Williamson, of London, was telegraphed for and she arrived on the midnight train and will remain here for a couple of weeks.

Personal Mention

Mr. James Howlett, of Madoc, is moving to Tyndinaga.

Mr. and Mrs. M. Mabee returned from Napanee on Tuesday.

Mrs. W. H. Brooks, of this village, is dangerously ill with pneumonia.

Mr. W. H. Golding, of Royal Hotel, Madoc, was a visitor in town on Tuesday.

Mrs. Mary Johnson, of Boston, Mass., is visiting her brother, Mr. G. A. Rollins.

Mrs. (Dr.) Harrison is visiting at Moira, the guest of her sister, Mrs. Herity.

Mr. and Mrs. C. A. Miller, of Picton, spent a few days during the week with Mr. Eldridge.

Rev. Geo. M. Nickle, of Concession, is visiting his brother, T. L. Nickle, and other Madoc friends this week.

Mr. and Mrs. Fred Taylor have taken up their residence at Mill-bridge, and left for there this week.

Mr. Geo. Collins, of Trenton, manager of the C.O.R., was in town on Monday this week, and favored The Review with a call.

Mr. W. F. Ashley, Massey-Harris agent at Napanee, a resident of Madoc a few years ago, gave the village a call this week.

Miss Jennie O'Hara, of the O. L. College, Whitby, accompanied by her friend, Miss Badgley, is spending a few days at her home here.

Dr. Sutton had a sudden attack of illness on Sunday evening, and for a while his friends were considerably alarmed. We are pleased to state, however, that he was not serious, and after a couple of days' rest the Dr. is out again as usual.

Mr. B. Stockton Jenkins, of Winnipeg, Man., General Supt. of the C.P.R. Telegraphs, gave The Review a friendly call on Monday. Mr. Jenkins has been in Madoc, his old home, for the past week or so, called here by the illness of his aunt, Miss Jenkins, who died last week.

Mr. William Gross, barrister, returned from Edmonton on Saturday. He spent six weeks visiting his brother, Hon. C. W. Gross, Attorney General of Alberta, and the leading places in that new province. He fully endorses all that has been said and written about the wonderful progress and chances for the future of Canada's Great West.

Count Zeppelin's airship made a flight of 150 miles, carrying 20 passengers.

Paderewski the famous pianist, has rheumatism in his right hand and arm.

Willie Whittle, the boy kidnapped at Sharon, Pa., was returned to his father in Cleveland last night.

The Railway Commission will take up the telephone rates as soon as it finishes with the express rates investigations.

Eighty-nine vessels were wrecked and two hundred and twenty-one persons lost their lives on the Atlantic coast of America during the fall and winter season just passed.

Col. Cooper and his son Robin were found guilty at Nashville, Tenn., of the murder of former Senator Carnock and sentenced to twenty years in prison.

Liberals Again Victorious In Province of Alberta

Bennett and Stanley Are the Two Conservative Candidates Whose Election Is Certain—Eight Seats Are in Doubt, and a Number of Contests Are Deferred—Socialists and Independents Are Successful.

Edmonton, Alta., March 23.—At midnight returns showed the return of the Rutherford Liberal Government almost unanimously. It beats even the Whitney record in Ontario.

It looks as though the Conservatives have failed to get more than four seats at most. Only two are certain. R. B. Bennett, Conservative leader, is one of Calgary's two members, but Hon. W. T. Cushing led the way. Hoodley in Okotoks is also returned. In the last Legislature of 33 the Conservatives had but two, and Robertson, one of them, is among the fallen.

The Socialists have elected one man and in Red Deer Mitchell, Independent Conservative, has defeated J. T. Moore, the Liberal Liberal campaigner. In Macleod, Neil, Conservative, is reported to be in the lead. No returns worth while have come in from Claresholm. The platform adopted by the Conservative party at Red Deer was in the main followed, but was very large forgotten in its railway policy and particularly of the sharpness with which they called on the elections after dissolving the House. The Government pinned its faith on the record of administration, the railway policy and its solicitation on behalf of the workmen.

At Calgary, owing to the split in the vote, there was opportunity for both parties to have celebrations. Hon. W. H. Cushing was escorted around the city and made a speech thanking his supporters for re-election. R. B. Bennett also expressed appreciation of the work of the Opposition. Large crowds of enthusiastic party men followed the successful candidates around the city and cheered their approval. The latest revised figures are: Cushing 2,466, Bennett 2,418, Egbert 1,842, Blow 1,831, Howells 675.

The result is as follows:

Cures Indigestion.

ALL DISTRESS FROM STOMACH AND INDIGESTION VANISHES IN FIVE MINUTES.

Take your sour stomach—or maybe you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22-grain Triangule and see its within five minutes there is left any trace of your stomach misery. The correct name for your trouble is: Food Fermentation—food souring; the Digestive organs become weak; there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, sick headache, nervousness, dizziness and many other similar symptoms. If your appetite is rickety, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause: fermentation of undigested food. Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and

begin eating what you want without fear of discomfort or misery. Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

Little Boy Drowned.

Body of David Brooks Found in Old Well at Belleville.

Belleville, March 21.—The drowning occurred here last night of David Brooks, the three and a half-year-old son of Samuel Brooks, a recently arrived Jewish clothing dealer. The little boy was missed at 5:30 last evening, and searching parties failed to discover him until 10:30 this morning when James Wine, hostler at the Albion Hotel, discovered the body in an unused well in the hotel-yard. The boy dropped in first, as his head was above water. The well was twenty feet deep and covered with loose boards.

Are You Pale, Anemic?

Anaemia means colorless blood—means languor, blanched lips, faded cheeks. You grow dyspeptic, nervous, suffer functional irregularity. This condition can't exist if there is plenty of healthy blood. Ferrozene makes good blood, rich nutritious blood—that's why it cures. In concentrated form Ferrozene contains certain rare qualities that render it unfailing in Anaemia, languor, poor color and loss of weight. To build up—feel young and vigorous, nothing is better than Ferrozene. At all dealers in 50c. boxes.

BRITAIN IS EXCITED

Anti-Militarist Writes Warning
Letter to Times.

NATIONAL LIFE IN DANGER

Frederick Harrison Declares That
Very Existence of Great Britain Is
Threatened by Present State of
Affairs—Many Lay Responsibility
Upon For Naval Economy Upon
Admiral Sir John Fisher.

London, March 22.—"England's national existence may be in peril within less than a generation from the tremendous navy now being hurried on in Germany from the dominating ambition of the German chiefs," writes Frederick Harrison, leader of the English positivists. "It is a question of less of prestige, no question of the shrinkage of empire—it is our existence as the foremost European power, even as a thriving nation. We are in fine words about retrenchment, peace and brotherhood while we lie open to the risk of an utterable ruin, to a deadly fight in national existence, to a war in its most destructive, most cruel form."

These are words not of a habitual scaremonger, but of a man who for forty years has been head of a school whose doctrines include the abolition of militarism. They are extracts from a two-column letter, published in Thursday's Times by Mr. Harrison. Mr. Harrison sees as between Germany and Britain "all elements of a contest quite natural in the ultimate solution of national destinies. With the normal growth of these mighty nations it may well come with an actual generation. It is an antagonism like that between Athens and Sparta, Rome and Carthage, Spain and Britain, Germany and France, one of which seems to be independent of persons, even of the will of the peoples, to be borne on by the elemental springs of national destinies. It seems inevitable. Our supremacy at sea will be met by a determined challenge within a reasonable time."

The German navy is not built for distant voyages," he says. "It is built to act as the spearhead of a magnificent army. This army, as we know, has been trained for a sudden transmarine descent on the coast, and every road as well as bridge and smithy in England and Scotland has been declared in the German War Office. If either our railways or our broken broughs and the military organization of our arsenals, docks, and capital effected, the ruin would be such as men history cannot parallel. It would not be the Empire but Britain that would be destroyed."

"Is there an intelligence department at the Admiralty?" asked Bonar Law in Parliament on Thursday with much the same scorn as was used in reference to the British military intelligence department after the capacity had been shown up during the early stages of the Boer war. Others go farther and lay the responsibility of the situation now developed before Admiral John Fisher.

"Thou art the man," was a black head-line in one paper which, not content with the indictment of the first sea lord in one paper, called him a poet, who concluded several hotly denunciatory stanzas with the following:

What shall I say of those who said:
"Sleep soundly Britain in your bed."
With danger looming?
What shall be told of those whose

Thus lightly would their native land
To death be doomed?

Sir John Fisher's retirement from the Admiralty is called for clamorously by that section of the press which espoused Bessford in the quarrel. "It repeatedly has been suggested by the admirals," says one caustic commentator, "that Fisher should be rewarded with a peerage for his services to the country. Agree to give him two peerages, but retire him from the Admiralty."

There is little likelihood of this idea being carried out at present. Fisher will stand or fall with the Government, which, as one of the most friendly critics says, has "been cutting down naval expenditure in order to find money for semi-socialistic experiments."

Sermons by Mail.

Oklahoma City, Okla., March 22.—Mail order gospel—Christianity carried broadcast by two-cent stamps. Sounds odd, compared with the methods of the late Sam Jones, Dwight L. Moody and other great evangelists who relied largely upon personal magnetism as a means of securing converts. Yet this idea has been adopted seriously by Rev. Ward R. Clarke, pastor of the Unitarian Church of Oklahoma City.

Drinks Carbolice.

Toronto, March 22.—But twenty years of age and already tired of life, Charles H. Dieffenhal, a young electrician, committed suicide in a quick lunch restaurant Saturday night by drinking carbolic acid. The young drinker had apparently deliberately planned to end his life, for in his pocket was found a note giving a reason for his action and asking that his father in Quebec should be notified of his death.

Accident In Mine.

London, Ont., March 22.—Thomas Dunkin, 144 Tecumseh avenue, received a telegram yesterday afternoon saying that a serious accident had occurred in a Cobalt mine, in which he is a partner, and asking him to proceed to Cobalt immediately.

Dr. Clark, the name of the mining property could not be ascertained.
Negro Woman's Plaint.

DARRELL IS ALIVE.

Toronto Broker Just Got Tired and
Left For States.

Toronto, March 23.—He just got a sudden idea that he was tired of the whole thing, E. C. Wedd, E. C. Wedd, speaking of his brother-in-law, Harry Darrell, whom he saw in the Burns Hotel, Detroit, Sunday.
Mr. Darrell disappeared on the afternoon of Jan. 15, and for a time it was thought, as he evidently intended it should be, that he had been drowned in the bay. As a matter of fact he took a train to Chicago and immediately secured a position with a produce company by whom he is now employed as a salesman in and about Detroit. He has changed his name and is now known in Detroit as "Harry Douglas."

E. C. Wedd, his brother-in-law, received word Saturday from a friend of his who met Darrell in Detroit and to whom Harry admitted his identity. Mr. Wedd immediately informed Mrs. Darrell that her husband had been found. Mrs. Darrell was overjoyed at the news.

Mr. Wedd set out for Detroit and spent Sunday with Harry, who talked freely, saying he was well, though just a bit homesick. He said that he did not think of coming to Toronto immediately, nor does Mrs. Darrell intend going to Detroit just now. He seems a bit hazy in his mind about his leaving the city in so mysterious a way, and will only say that as business was so bad and showed no sign of improving he just "lit out."

Friends intend spending considerable time in Detroit in the near future with the hope of persuading him to return to Toronto, which they think can be done in the course of time.

Other instances are recalled in which he is credited with having been lost for days and months. One time he turned up in Switzerland, another time it was learned he had spent several days in a cottage in the island. He has always been of an exceedingly reckless temperament. In boating or sailing he would court danger and death.

Defence Hints at Plot.

North Bay, March 23.—The case of Edgar Cahill was taken up in the High Court yesterday, the charge being theft of money and forgery of payee's name at Elk Lake postoffice.

Mr. McGarry defended and A. E. H. Creswick was crown prosecutor. The chief witnesses for the prosecution were Postoffice Inspector Bolde, who swore that accused admitted to him that he cashed the order in question, and Alonzo Payne, handwriting expert of Ottawa, who gave his opinion that the writing on the forged order, and the writing of accused bore the same characteristics. Judge Latchford charged in favor of prisoner and the jury acquitted him. Cahill is barely 20 years of age, and has no previous record. His own straightforward evidence helped his case. The defence rested strongly on lack of evidence and more than hinted at a plot, in which the accused was to be sacrificed to ulterior motives.

Barwell on Parole.

Kingston, March 23.—It was made known yesterday that George Barwell, former Crown Bank felon, had been released on parole from prison. He was let out on St. Patrick's Day and has served all but two months of his four-year term, less the six months deduction for good conduct. As a result he is not entirely free, as for the next two months he will be watched and have to report. He left prison in good health and returned to Toronto.

Another man named Kent, sentenced to life at Toronto several years ago, was let out on ticket-of-leave, and John Houghton of Toronto was let out on good behavior, after serving three years on a five-year term for highway robbery.

Russian Prince Dead.

St. Petersburg, March 23.—Prince Michael Huf (Kly) a member of the Council of the Empire and formerly Minister of Communications, died suddenly on Sunday. He was present at the inaugural meeting of the Russo-British chamber of commerce, when he fainted. The prince was removed to his residence, but did not regain consciousness.

Prince Huf was well known in the United States, where he secured the credit of getting the maximum amount of work out of the Siberian Railway during the war with Manchuria.

A Kidnapper's Remorse?

Los Angeles, Calif., March 23.—Mystery surrounds the motive for the following personal advertisement in a newspaper:
"Would like to communicate with people who had girl by the name Pearl stolen in Chicago 15 years ago. Address P. O. Box 41."
Gilbert Woodhill of this city admits that he inserted the advertisement, but refuses further information.

Pleased With Idea.

London, March 23.—Lord Crewe has expressed to Premier Balfour his appreciation of New Zealand's offer of battleships, which he has communicated to the King, the Premier and the Admiralty.
At a dinner at Sydney, Australia, four citizens offered to contribute \$175,000 if it was decided to present Britain with a Dreadnought by public subscription.

No Obstacles For Road.

Galt, March 23.—Engineers surveying the route of the Hamilton, Galt, and Guelph Electric Road (Electric Road) are here and say no great obstacles are found. Construction work will start in a few days. Mayor Patterson and G. R. Barrie, a leading farmer, have been chosen valuers of land taken for the right of way.

Alleges Breach of Promise.

Brookville, March 23.—Miss Grace Heribson of Junetown has brought an action in the high court for \$5,000 damages against C. M. Quinn, a prominent merchant of Lansdowne, for breach of promise.

W. F. Maclean Raises Question of
Grand Trunk Refusing to Accept
Two-Cent Fares—Is Told That It
Need Not Be Taken on All
Trains—Debate on Railways
and Canals Is Deferred.

Ottawa, March 20.—The House of Commons spent practically the whole of yesterday's session in committee of Supply, steady progress being made with the estimates for the Intercolonial Railway and other works. It had been expected that opportunity would be taken to renew the discussion of the proposals submitted by Hon. G. P. Graham in his "budget" speech, and Mr. Tupper was ready with a speech on the acquisition of the branch lines. The chairman, however, pointed out that a debate on the general policy of the Department would scarcely be relevant to any of the particular items under discussion, and accordingly it was decided to postpone the consideration of the Minister's proposals until a later date.

On motion to go into supply, Mr. W. F. Maclean took occasion to get in another word on his favorite topics—the two-cent rate and the C.P.R. stock issue. He read a letter from a correspondent, who complained that while traveling on the Grand Trunk 10.15 p.m. train with a second-class ticket he had been held up by the conductor and compelled to pay an extra \$3.85. Mr. Maclean contended that passengers on the Grand Trunk had a right to travel at the rate of two cents a mile, and that the Minister of Railways or some other member of the Government should look after the public interest in that matter, particularly in view of the decision of the highest court of the Empire. Referring to the C.P.R. stock issue, he declared that the process of "melting" was having a prejudicial effect upon the securities.

Hon. Mr. Graham doubted whether the writer of the letter had any grievance. Under their contract, as held by the Privy Council, the Grand Trunk had to run one train every day from Toronto to Montreal for second-class passengers, but it did not follow that a second-class passenger had a right to choose the fastest and best train on the route, as the night express undoubtedly had. He did not believe that at the present time the railways ran through a population dense enough or had traffic enough to give a general two-cent-a-mile rate and enjoy a reasonable profit. With regard to the C.P.R. stock issue, Mr. Graham had nothing to add to what he had already said.

On the 14th of \$25,000 for the Hudson Bay Railway, Hon. Mr. Graham explained that the vote was for survey work. A question had been raised as to whether Port Nelson had not a better harbor than the one proposed, and it had been stated that the route to Port Nelson was 60 miles shorter than to Port Churchill. The Government desired to have the fullest information as to the respective merits of Port Nelson and Port Churchill. Construction of the road would not be started this year, for the same reasons that had weighed in respect to other undertakings, but there was no idea of abandoning the project.

When the appropriation of \$375,000 for Toronto harbor improvements was passed, the members for Toronto were present and the item passed without discussion.

Dies While Resigning.

New York, March 20.—Battalion Chief William McCarthy of the Brooklyn Fire Department had been feeling "a little out of sorts" for so long a time that he yielded to his wife's persuasion on Wednesday and prepared his resignation after 36 years in the service. He was waiting at headquarters in the evening to have his resignation countersigned by his deputy chief when an alarm sounded. He straightened up, tottered and fell dead, with his resignation in his hand. McCarthy had many medals for bravery. He leaves six children besides his widow.

Look to Colonies For Help.

London, March 20.—(C.A.P. Cable).—The Times says the response which the naval revelations have already elicited from other parts of the Empire is striking evidence of the underlying solidarity of the British race, and adds: "Our necessities are growing on every sea. We count upon the dominions to take their share in meeting them. We have the common spirit, and common resources, and it only needs to make such provision in time of peace that these will tell to full effect if ever they have to meet the test of war."

Sifton's Mother Dead.

Winnipeg, March 20.—Last evening Mrs. John W. Sifton passed away after a brief illness. She was 76. Decayed came to Canada as a girl and in '53 married Hon. (then plain) J. W. Sifton, spending the first twenty years in Ontario, and coming later to Manitoba.
She was the mother of Chief Justice Arthur Sifton of Alberta, and after a brief illness, several daughters also surviving.

Gave Wrong Name.

Toronto, March 20.—Fred J. Kyle, C.P.R. night telegraph operator at Locust Hill, who was accidentally shot Thursday night, gave his name as "Brown" in order to keep his parents from knowing that he had been hurt. As it is known that the wound would be felt of the Western Hospital in a few days.

VARICOCELE CURED
NO NAMES USED WITHOUT WRITTEN CONSENT.
Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I refused it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon a doctor as a little better than a thief. On day my boss asked me to go to the doctor. I refused. He said: 'You are in a bad condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them. I went to them and they were square and skilled. I wrote them and got The New Method Treatment. My progress was somewhat slow and during the first two weeks I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before. Now I am earning \$24 and never lose a day. I wish all sufferers knew of your valuable treatment.' HENRY C. LOCUST.

As Unexpected As Burglars.

That's the way cramps come—strike without warning. Nothing so sure to instantly relieve as Nervilleine—just a few drops in sweetened water is all that's required to stop the pain. Poison's Nervilleine is a true comfort to every family, for a stomach and bowel derangement it is an absolute specific. Guaranteed to have at least five times the strength of any other pain relieving medicine—perfectly safe, pleasant, and useful for external pains too. For a reliable household medicine—case Nervilleine supplies all that's necessary. Large 25c. bottles sold everywhere.

This is Said to Help Many.

MIX THIS SIMPLE HELPFUL RECIPE AT HOME AND TRY IT, ANYWAY.

Get from any prescription pharmacist the following:
Fluid Extract Dandelion, one-half ounce; Compound Karkoon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered as the most certain prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It is the prescription of an eminent authority, whose entire reputation it is said, was established by it.

A druggist here at home, when asked, stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

New County Buildings.

An Expenditure of \$30,000 to be made this year.

Mr. J. Bruce Smith, Inspector of Prisons, has ordered an addition to the court house at a cost of \$30,000, according to the plans submitted by the Government. The County Council has no alternative, and the work will commence shortly.

When Dr. Bruce Smith, Inspector of Prisons, met the Property Committee of the County Council on Tuesday afternoon he informed the county fathers that the Provincial Government would insist on the erection of the proposed additions on the north end of the present court house to cost \$30,000. The addition is to provide accommodation for judges, county officials, lawyers, etc. The county fathers have endeavored to induce the Government to remodel the Shire Hall, for the above purposes but now the Government insists that the county shall build the proposed addition according to plans drawn up last year.

What the county will do with Shire Hall is the question the councillors have not yet solved. Work will prob-

ably commence on the new building in the early spring.

After Sickness

VINOL BUILT UP STRENGTH FOR A BOW-MANVILLE, ONTARIO, MAN AFTER ALL OTHER MEANS HAD FAILED.

"I was sick with pleuro-pneumonia for twelve weeks, and after I got around I did not gain very fast, and I took nine bottles of Emulsion of Cod Liver Oil, but the pains in my lungs were still there. I was in J. & L. Lovell's drug store, and they recommended Vinol, so I tried a bottle and before I had finished the first bottle the pains were all gone and I was getting stronger, and then I took another bottle, and now I am well, thanks to Vinol." John D. Graham, Bowmanville, Ontario.

This is because Vinol is the best cod liver and iron tonic in the world. It creates a hearty appetite, strengthens the digestive organs, makes rich, red blood, and replaces weakness with strength. The beneficial effect of Vinol in cases of feeble old people is simply remarkable.

We invite all old people, delicate children, weak, run-down persons, convalescents, or those suffering from chronic colds, coughs, or bronchitis in this vicinity to try Vinol on our offer to return their money if it does no good. We make this offer to show our faith in Vinol. Harper's Drug Store, Madoc.

DUMB MEETINGS.

Curious Method by Which Poles in Germany Evade the Law.

The curious method adopted by the oppressed Poles in Germany to evade the provisions of the new law relating to public meetings was revealed in the trial of three Polish residents of Ruhrort, in Westphalia, who had convened a political meeting.

Paragraph 19 of the new law relating to public meetings compels every speaker to use the German language. The Poles circumvent this enactment by holding "dumb" meetings, at which no word whatever is spoken.

At the beginning of this particular meeting the chairman wrote on a large blackboard on the platform a large announcement that no speeches could be delivered owing to the prohibition of the use of the Polish language. The contents of the lecture which would otherwise have been delivered would be distributed among the audience in the form of a pamphlet.

This pamphlet was read by the whole audience in perfect silence. The resolutions to be submitted to the meeting were then written on the blackboard and adopted unanimously by a show of hands, still without a single word being spoken.

The public prosecutor took action against the conveners of the meeting for violating paragraph 19 of the new law, but the district court acquitted them. The public prosecutor lodged an appeal, but the higher court at Cologne upheld the judgment of the district court and confirmed the acquittal.

In consequence of this precedent Polish "dumb" meetings, which are already extremely popular in all those parts of Germany where the Poles feel the need of congregating to demonstrate their grievances, can now be held without hindrance.—London Express.

Machine Made Window Glass.

It was long believed to be impossible to make window glass by a mechanical process, but American ingenuity has overcome the obstacles, and this glass is now made in all sizes and thicknesses by the Colburn process. Such glass cannot be made by pressure, because the surfaces thus produced are imperfectly transparent. The method of allowing the molten glass to fall through a narrow slit was also tried without success, for the surface became striated. The process of drawing, by lifting the molten glass in sheets, was finally adopted. But this required many ingenious devices to prevent the glass from contracting in columnar or cylindrical forms. All these difficulties have been overcome, so that it is no longer necessary to produce transparent sheets of glass solely by the old blowing methods.—Youth's Companion.

Europe's War Chests.

At the present time and for the future as well there is lying at the Bank of France, in Paris, a reserve gold store of \$100,000,000, which is, in fact, writes one correspondent, "locked upon as a war fund, beside which the \$20-

000,000 of Germany looks very small. But the German kriegsschatz, or emergency war chest fund, amounts only to \$5,000,000, and it is lying not in the Reichsbank at Berlin, but in the vaults of the Julius tower, in the fortress of Spandau, near the capital, against the coming of Germany's next evil day. It has been lying there as a dead fund ever since Germany received from France her war indemnity of \$250,000,000, from which it was taken.

Bullfighting in Spain.

It was thought that bullfights were gradually losing their popularity in Spain. The reports for the year 1907 seemed indeed to indicate a distinct tendency in that direction. Those for 1908, however, do not confirm this view. In the course of last year 745 bullfights took place in Spain, and 3,838 bulls were killed in the arena. Before dying some of these bulls managed to leave behind something more than the mere record of a death, for it is announced that in the contents four of their human opponents were killed and 181 injured.—London Post.

The Hurry Fad.

"Mr. Cleveland," said a Princeton lecturer, "had little sympathy with the rush and hurry that the American business man so complacently affects; no sympathy with train and boat dictation, with the lunch table telephone, the letter photograph and other bluffs. 'Don't rush so,' Mr. Cleveland once said to me. 'Lightning might do a great deal more if it were always in such a awful hurry.'"—Washington Star.

China's Early Paper Money.

As in many lines of industry, China led the way among the nations in the use of paper currency in business. Since the fifteenth century, however, no paper money has been issued in the Celestial empire, and it is due only to China's industrial and commercial growth that the government has recently appointed a commission to investigate the matter.—System.

High Priced Fish.

A member of the Aquarium society of Philadelphia, an organization for the breeding of fancy fish, recently received a diploma for a particularly fine goldfish. The glistening, scaly little thing weighed less than two ounces, but an offer of \$100 was promptly made for it. Fish at nearly \$1000 a pound—think of it!

Their Reasons.

"Have you an automobile?"
"No."
"Why not?"
"I have too many friends. Have you one?"
"No."
"Why not?"
"I have too many creditors."

Celebration Postponed

The proposed "Old Boys' Celebration" has been postponed until next year. The adjourned public meeting was held on Monday evening, Reeve Harper in the chair, when the committee reported the advisability of holding it over until next year owing to the "Gathering of the Clans" this year, and, besides, the time was too short to make necessary arrangements. It will be the big event of Madoc next year.

Oriental Moon Feast.

The Oddfellows Hall was filled on Monday evening with an enthusiastic gathering of Oriental tribesmen from all parts of the district of Hastings County. A number of candidates were instructed in the sublime truths of the degree of Humility, and afterwards all partook of an elegant Moon Feast. Grand Hyastvie A. L. Conner deserves credit for the success which he has brought this noble order.

Removed to Norwood.

Dr. N. Ford Sutton, son of H. H. Sutton, M.D., of this village, last week removed from Mavnooth, where he had spent the first five years of his medical career, to the village of Norwood. The young doctor was very successful at Mavnooth, and his departure was greatly regretted by the people of that section of the county. The Bancroft Times last week had the following:

"Dr. Sutton was in town on Tuesday on his way to Norwood, where he will engage in the practice of his profession. Mavnooth is thus left without a resident physician, but it is likely that some disciple of Esculapius will locate there before long. Both the Dr. and Mrs. Sutton will be very much missed in the northern village, where they were prominent in both church and social circles. They carry with them the good wishes of a large circle of friends."—Bancroft Times.

Jacket Lost.

On Saturday night last, in Madoc village, between the gristmill and the laundry, a white suit jacket was lost. The finder will be rewarded by leaving it at Geo. W. O'Flynn's. MRS. FRED TAYLOR, Madoc, March 22nd, 1909.

A Good Blacksmith Wanted

In the Village of Melville, Prince Edward Co. Our blacksmith has sold the land, and is moving away. We cannot do without a smith here as there is plenty of work. For a blacksmith, a frugal and honest man, and one who will do his work well. Will take \$750.00 down and balance to suit the buyer, a big one. Will rent for \$80.00 per year. Possession given April 1st and 15th. W. E. DAVIDSON, 121 W. & Melville P. O., P. E. Co., Ont.

Stricken With Paralysis.

The many friends of Mr. Thomas Gibson, of Belleville, will learn with regret that he was stricken with paralysis on Thursday last and is now in the hospital in a precarious condition.

Dairymen's Meeting in Madoc.

The annual meeting of the Madoc Cheese Board was held on Friday, when officers were elected, and a public meeting held, addressed by Mr. George Barr, of the Dairy Commission, at Ottawa. The annual banquet was held in the evening. The full report of these interesting events is crowded out of this issue, but will appear next week.

More Business Changes.

Not in many years has Madoc had such an almost complete transformation among business firms as this year. In addition to those recorded last week the lively firm of Ockerman & Love have dissolved partnership, Mr. Love retaining the business. Mr. John Henderson, who ran the Madoc Ivanhoe stage line for the past number of years, has disposed of it to Mr. Samuel Tanner, of Ivanhoe.

Off for the West.

Mr. George Jose left Madoc for his western home at Davidson, Sask., on Tuesday. He takes with him three cars of household goods and farm implements and also ten head of horses, the finest animals that could be procured in this part of Ontario. We regret losing such men as Mr. Jose and family the greatest success in their new home. He was accompanied by Messrs. Robt. Rollins and Mrs. Jose, her son Carman, and Mr. Johnston Dougan leave to-day for the same place.

Home Again.

J. C. Moore, of Rimington, who was one of the injured in the recent mine explosion at the Flats, was able to return home from the hospital at Belleville on Tuesday. He was feeling well and very thankful that his life was spared, notwithstanding the loss of one eye and one finger, besides minor flesh wounds. The other wounded man, George Young, is still in the hospital, and is totally blind. We understand he will be provided for in the County House of Refuge.

A Model Conservatory.

Mr. James White has recently completed a new conservatory at his home in Madoc which for completeness in every detail probably cannot be surpassed in the county of Hastings. He has had installed an up-to-date steam heating apparatus, with which to moderate the temperature to the desired heat. It is his intention to grow a full assortment of plants such as to be in bloom at the same seasons of this kind as well as to supply greens to the wholesale trade.

Review Advertisements Pay.

In conversation with a REVIEW representative one day this week, Mr. W. P. J. Alexander, whose advert, clearing out his drug business appeared for the first time in last week's issue, informed us that on Saturday last 350 people were waited on in his store. He was taken to Belleville on Monday by Constable St. Charles, and on arrival there an additional charge was presented against him—passing a counterfeit \$10 bill some time ago.

William Rodgers was tried on an old charge house-breaking, found guilty, and sent to the County Jail. Other charges are laid up against him. He was taken to Belleville on Monday by Constable St. Charles, and on arrival there an additional charge was presented against him—passing a counterfeit \$10 bill some time ago.

A Handsome Publication.

The Intelligencer, of Belleville, has our thanks for a copy of the handsome Souvenir Industrial number, illustrating the City of the Bay and her industries, lately issued from that office. It is a very creditable production in every way—beautiful cover, splendid half-tone illustrations of prominent citizens and chief buildings, and an authentic record of the industries that is helping to keep that city in the van of progress. The issue was published by authority of the Belleville City Council and Board of Trade, and reflects the greatest credit on these bodies as well as on the Intelligencer Printing and Publishing Company.

Conscience Money.

Some one has no doubt greatly relieved their conscience this week in the endeavor to make restitution for a little sharp practice of years ago. Postmaster W. H. O'Flynn has a letter addressed as follows, which the owner is requested to claim, and which contains a coin about the size of a ten-cent piece:—

"To the lady who served meals in a building by the gristmill on July 12th, 1900."

It is a healthy sign when accusing conscience pricks the guilty one to such good effect as the above would indicate, and we expect a surfeit of similar letters sent to THE REVIEW office at once, following the excellent example thus set by the 1900 12th of July dinner.

SUCCESS

Success lies in grasping every offered opportunity; the number of the following opportunities grasped will be the measure of success to which you will attain.

PIANOS.

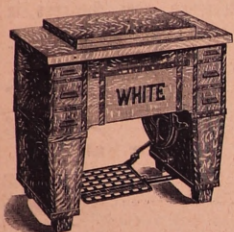

We are handling the Bell Piano, which is emphatically the musician's perfect Piano.

They are the only Pianos with the Illimitable Quick Repeating action.

They possess a rich pure tone, and can be made to express every shade of musical feeling, whispering like the leaves or resounding like the heaven's thunder. People who know and appreciate true merit have expressed themselves in highest terms of Bell Pianos and their wonderful tone, touch and staying powers.

Further, the Bell Pianos are fitted with the Bell patent sustaining frame, formerly the Piano backs were made entirely from pieces of wood glued together.

We handle other makes and have a special bargain in a Piano at \$150, and a special price on a 6-octave Organ at \$55.

Sewing Machines.

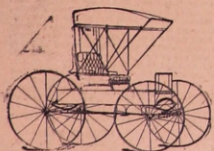

Why our White Rotary Machines are recommended by all is on account of their wonderful ease in running combined with unusual speed. Both of these are points which count for most in the everyday sewing of the everyday household, and it is principally for this sort of work that sewing machines are bought. We are handling several makes of Sewing Machines, some with rotary shuttle movement—round and round, a stitch at each revolution, some with the constant running backward and forward, which is the vibrating shuttle. You cannot afford to be without a good Sewing Machine. You do not realize what a difference there is—how differently you would feel after a few hours' sewing if your machine is an easy runner, which we guarantee our Machines to be.

Prices from \$20 up.

Separators.

The Tubular Separator is the key in the door of success. The Sharples Separators get all the butter fat—leave fresh skimmed milk just right for feeding. They can be filled and turned, taken apart, cleaned and put together by a child. They open the door to success and shut drudgery out in the cold. A free trial of the Tubular will show you how and why you can make money. Call and examine these machines.

A Separator for \$30 and upwards.

Amherstburg Fireman's Body Found on Beach.

BLOODY IMPRINT ON DOOR

Strange Death of John Conway Is Attended by Signs That Point to More Than Accident — Body Is Marked by Severe Abrasions—Some Children Make Ghastly Discovery While Playing.

Windsor, March 22.—Some mystery attaches to the finding of the body of John Conway, 29 years old, of the Amherstburg fire department, on the river beach, just off the rear of Capt. John Menzie's property in Amherstburg, at 5 o'clock Saturday afternoon.

There are some indications that Conway may have met his death through foul play.

The body had been in the water about twenty-four hours.

It was discovered by some children who were playing in the vicinity. The body showed several severe abrasions. On the planking of a boat-house, not far from where Conway's remains lay, the police discovered bloodstains, and a bloody imprint on the handle of the door leading into the boat-house. Coroner Park has taken charge of the case but no inquest has been decided upon.

WOMAN HACKED TO PIECES.

Brutal Murder Takes Place at Niagara Falls, N.Y.

Niagara Falls, N.Y., March 22.—A brutal murder took place at 8 o'clock last night, when Mrs. Anthony Perak, 50 years old, was literally hacked to pieces in her home at Buffalo avenue and Portage road.

The murderer, who is as yet unknown to the police, used a carving knife, a bread knife and an axe to accomplish his end.

The woman was stabbed several times in the back and abdomen, and her head was crushed in by a succession of terrible blows.

The work, the police believe, was that of a man insane from jealousy or mentally unbalanced from other causes. The husband, who was doubtless a witness of the assault upon his wife, is in a pitiable condition. He talks incoherently of the murder and seems on the verge of mental collapse.

Dr. Frank Jones, who had been summoned to the house by a passer-by, attracted by the hysterical conduct of the husband in the ward, was first to reach the scene. The body was still warm when he arrived. He notified the police.

Eight men have been taken into custody, three of them boarders in the Perak home. The most tangible clue the police have to work upon is the imprint of a bloody hand on a panel of the kitchen door. This panel has been removed and Prof. Whipple of Buffalo, a finger print expert, has been summoned to make an examination of it.

Making Money While You Wait.

Toronto, March 22.—An alleged "green goods" game was broken up last night when Messrs. Shteren and his wife Malle, Austrians, were arrested by Detectives Wallace and Armstrong.

As there was no real counterfeiting apparatus discovered the couple were not slated on the dock as counterfeiters, but as plain vagrants.

A large egg-shaped, mysterious looking brass affair with a battery and some machinery in it was found among the effects, which, it is said, was represented to prospective victims as being capable of turning out brand new crisp bank notes of any amounts. The patrons of the syndicate were supposed to pay so much real money to receive probably twice as much phoney stuff that would be of little detection.

As far as can be learned, nobody has yet been stung in Toronto, but then the game was only introduced a couple of days ago.

Miss Thaw to Wed Marquis.

Rome, March 22.—Another international marriage is about to enliven Roman society. This time it is an American, Miss Thaw, daughter of Alexander B. Thaw of Pittsburg, who, together with his wife and daughter, has been spending the winter in Rome.

The happy man is the young Marquis Teodoli, member of one of the best known and oldest Roman aristocratic families.

Carrie Was Annoying.

New York, March 22.—Carrie Nation, who came across in the Ballie's second cabin, made things very disagreeable for a time, it was said yesterday, for her fellow passengers. They reported the facts to Captain Ransom, and for the rest of the voyage there was less trouble as the result of a talk the captain had with her.

Elliott Not Known.

Kingston, March 22.—Claude Elliott is not registered at Queen's College. It is stated that there was a young man named Elliott who sang baritone in St. George's Church choir. He was an Englishman, and is at present in New York, employed, it is reported, as a street car conductor.

Charities Conference.

Buffalo, March 22.—Announcement was made yesterday of the preliminary arrangements for the 36th national conference of charities and correction, to be held here June 9-16, inclusive. Local committee are preparing to entertain 2,000 delegates.

Miners Leaving For Europe.

Malanau City, Pa., March 22.—Believing that a strike or suspension is inevitable after April 1 in the anthracite coal fields, scores of foreign miners workers are leaving this region daily for Europe to spend the summer.

J. J. Craig's Bill Is Discussed in the Legislature.

Member For East Wellington Would Make Law More Stringent by Letting Councils Order Autos Off the Roads on Certain Days and Stiffer Penalties For Offenders — Education Bill Amended in Committee.

Toronto, March 23.—Regulating the speed of automobiles and imprisonment of serious offenders contributed largely to the discussion in the Legislature yesterday.

J. J. Craig, the member for East Wellington, in moving the second reading of his bill, admitted that the automobile was here to stay, and probably only 10 per cent. of the motorists had caused the antagonism. He wished the county councils given the right to order automobiles off the highways certain days in the week, and the penalty for a third conviction to be imprisonment without the option of a fine, and the motor to be impounded for three months. He felt that the counties which maintained a good system of roads should have some control over them.

W. K. McNaught concurred in all that Mr. Craig had said, but felt that the proposed regulation was too radical. There were several similar bills before the House, and he suggested that they be sent to a special committee.

Hon. A. G. MacKay was in favor of improvement and cancellation of license to drive. The objection, however, to the bill was that motorists might pass through several counties in one day.

George Gooderham spoke for those who had used automobiles ever since they had been introduced into Canada, and thought that this Legislature should be guided by the experience of older countries.

Hon. W. J. Hanna said their was no objection to sending these bills to a special committee provided the committee would not deal with the question as a new matter, and apply itself directly to the rule for legislation. It was fair to say that the present statute was very complete and was frequently referred to in the United States.

The Premier agreed to the second reading, the bill to be sent to a special committee to be named later. W. K. McNaught's bill to amend the Ontario Railway Act by enabling conductors to remain inside of cars not provided with rear-end vestibules was sent to the legal committee.

Several bills to incorporate railway companies were passed through the committee stage.

The Minister of Education's bill respecting religious instruction in the assessment was amended in committee. Considerable discussion arose on the point when children are absent receiving religious instruction, but the Premier felt that no anomaly would be found to exist in the working of the act.

J. C. Elliott has introduced a bill to refer disputes concerning the maintenance and construction of bridges between township and municipalities to the county judge.

J. McEwing seeks to amend the Assessment Act by equalizing the business assessment in towns.

Other bills introduced were: An act to amend the Municipal Act, Hon. Dr. Reaume; an act respecting the Department of Education, Hon. Dr. Pyne; an act to amend the supplementary Revenue Act (1907), Hon. F. Cochrane; an act to amend the law respecting Burlington Beach, Hon. F. Cochrane; an act to amend the Free Grants and Homestead Act, Hon. F. Cochrane; an act to amend the law respecting mine accidents and the operation of mines, Hon. F. Cochrane.

Firemen Knocked Out.

Toronto, March 23.—For the first time since the second fire of a week ago Sunday in the Crown Coal Co. yards, at the foot of West Market street, no firemen were at work on the coal piles last night, although two lines of hose were left.

The fire has been in many respects the most stubborn and the most dangerous of the fire department have ever had to contend with. Three firemen are in hospital, another one ill at home and others have suffered more or less serious illness as a result of the blaze, due principally to the noxious gases which the blazing coal has originated. In addition numerous of the laborers who have been employed in shifting the coal in the pile which was first on fire have been affected.

'Varsity Man Honored.

Springfield, Ill., March 23.—John A. McKellar, actuary and examiner of the Iowa State Insurance Department, has been appointed actuary of the Illinois Insurance Department. He was formerly in the actuarial department of the Equitable Life Assurance Society of New York and lecturer in actuarial at New York University. He graduated from the University of Toronto.

New U.S. Solicitor-General.

Washington, D.C., March 23.—President Taft late yesterday announced the appointment of Lloyd Bowers of Chicago, to be Solicitor-General of the United States.

Mr. Bowers is general counsel for the Chicago and Northwestern Railroad.

Young Man's Suicide.

Kingston, March 23.—"I have done it!" In these dramatic words William Binkley of Sharbot Lake, aged 22, announced to his brother that he had taken a suicidal attempt to take his life by swallowing a two-ounce vial of carbolic acid.

New Catholic Publication.
